## **FIFTH MEETING OF THE STANDING COMMITTEE**

*24 – 25 June 2008, Bonn, Germany*

---

### **Overview of National Reports and Reports on phasing out lead shot received so far**

#### **INTRODUCTION**

In accordance with Article V.1(c) the Contracting Parties shall submit to the Secretariat a National Report on the implementation of the Agreement not later than 120 days before the opening of the Meeting of the Parties.

In its Resolution 2.2 the Meeting of the Parties called upon the Contracting Parties to report to each ordinary session of the Meeting of the parties on progress made to phase out lead shot.

This document provides an overview of the submission rate to date of National Reports and reports on phasing out lead shot. The deadline for submission of national reports was 10 May 2008 as was the deadline for lead shot reports.

The high rate of submission of lead shot reports is due to the fact that a specific review on this issue was compiled by the Secretariat in 2007 and majority of the Contracting Parties provided information for this review; this covers the reporting requirements the progress in phasing out lead shot. The rate of submission of National Reports is very low as yet.

#### **ACTION REQUESTED FROM THE STANDING COMMITTEE**

The Standing Committee is requested to note the progress in submission of National Reports and Reports on the phasing out of lead shot.
