Nature Literacy

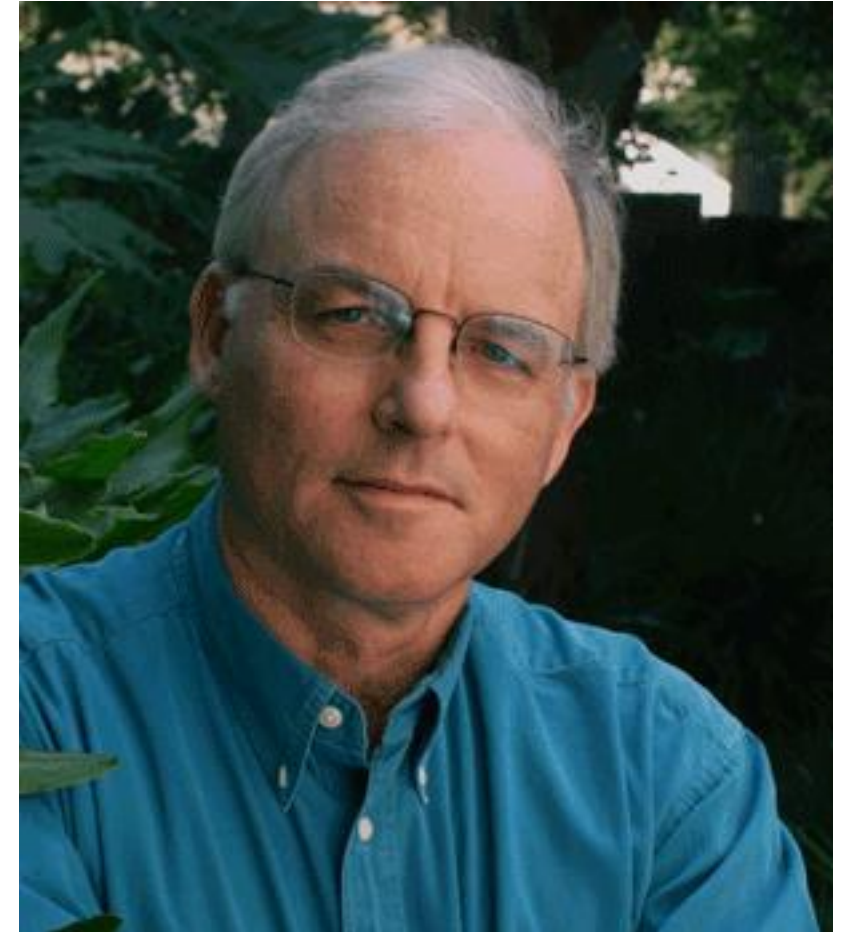

Statistics from 2019

Zoop, family activity app.

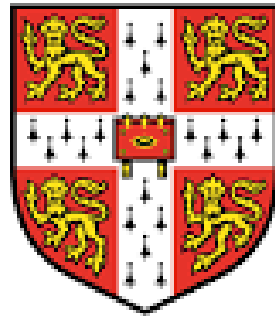

- 50% can't identify a nettle.
- 75% of children between 5-15 can't name a robin.
- 80% don't know a bumble bee.
- 90% don't know a cabbage white butterfly.

“The future will belong to the nature-smart—those individuals, families, businesses, and political leaders who develop a deeper understanding of the transformative power of the natural world and who balance the virtual with the real. The more high-tech we become, the more nature we need.”

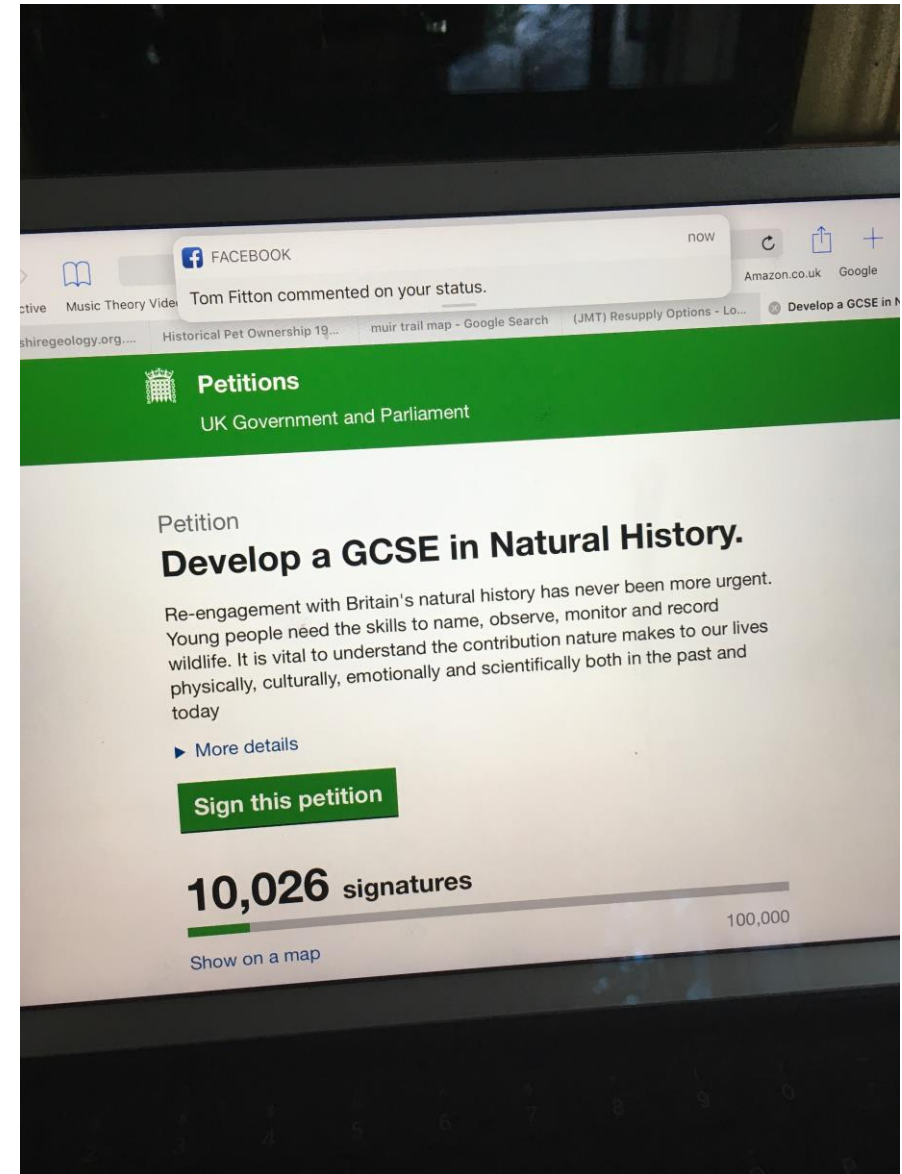

Richard Louv – Last Child in the Woods
2005

Cambridge Assessment

On the basis that natural history subject content is covered in the current national curriculum and in a number of GCSEs, and given the thorough and careful work that has gone into developing, designing and approving reformed qualifications, the Government does not currently intend to introduce an additional GCSE in natural history.

A new natural history GCSE will be launched next week, focusing on how pupils can protect the planet.

The qualification will be available from September 2025 and is expected to be announced by the education secretary, **Nadhim Zahawi**, on Thursday.

The Department for Education said the qualification would allow pupils to
