

12th MEETING OF THE STANDING COMMITTEE
31 January - 01 February 2017, Paris, France

**REVISION OF THE FORMAT FOR NATIONAL REPORTS ON THE
IMPLEMENTATION OF AEWA**

Compiled by the UNEP/AEWA Secretariat

Introduction

From the second to the third Sessions of the Meeting of the Parties (MOP), the Contracting Parties to AEWA compiled their national reports on the implementation of the Agreement following a format approved by MOP1 in 1999. In 2005, MOP3 instructed the development of a new format to be used for online reporting. Such a format was elaborated together with the development of the AEWA Strategic Plan for 2009-2017. At its fourth Session in September 2008, the Meeting of the Parties approved the newly developed format to be used for the 2009-2011 reporting cycle, through Resolution 4.7 and also instructed the Standing Committee to amend the national report format after each MOP, so as to bring it in line with any relevant decisions of sessions of the MOP and/or to enhance it, as necessary.

Following its mandate from resolution 4.7, the Standing Committee adopted some pertinent amendments to the format in 2011 and it was successfully used for reporting to MOP5 in May 2012 through the CMS Family Online Reporting System developed by World Conservation Monitoring Centre (UNEP-WCMC) under the guidance of the UNEP/AEWA Secretariat. The new format and the new online system allowed for very comprehensive reporting and the information obtained served as the basis for very useful analysis and synthesis (see document [AEWA/MOP 5.12](#)) feeding into the assessment of the progress of implementation of the AEWA Strategic Plan 2009-2017 (see document [AEWA/MOP 5.11](#)).

A similar process of revision and update of the National Report Format took place also in advance of MOP6. The StC adopted the MOP report format at its 9th Meeting in September 2013. This allowed for continuity of the Strategic Plan implementation monitoring and comparability of data between the different reporting cycles. As for MOP5, an informative analysis and synthesis of the submitted national reports were compiled (see document [AEWA/MOP 6.13](#)), which also informed the comparative progress report on the Strategic Plan implementation (see document [AEWA/MOP 6.12](#)).

The current document presents a proposal for a revised format for national reports on the implementation of AEWA for the period 2015-2017 to be used for reporting to MOP7 in 2018, which will be the third iteration of the report format adopted by MOP4 in 2008. This proposal was developed by the AEWA Technical Committee as part of its 2016-2018 Work Plan and also takes into account the MOP6 decisions and newly-introduced reporting requirements.

This revised format, once approved by the Standing Committee, will be translated by the Secretariat into an online template within the CMS Family Online Reporting System as soon as possible afterwards. The MOP7 reporting cycle is planned to be launched by May 2017, aiming at a one year period before the deadline for submission of national reports (assuming that MOP7 will take place in November 2018).

Action Requested from the Standing Committee

In accordance with the mandate received from the MOP through resolution 4.7, the Standing Committee is requested to review and approve this proposed revised format for national reports on the implementation of AEWA for the period 2015-2017 for use in the MOP7 reporting cycle.
