

Report on the implementation of AEWA for the period 2021-2024

The format for reports on the implementation of the Agreement on the Conservation of African-Eurasian Migratory Waterbirds (AEWA) for the period 2021-2024 was approved by the 8th Session of the Meeting of the Parties (MOP8, 26-30 September 2022, Budapest, Hungary) through Resolution 8.3 and modified by the Standing Committee at its 23rd and 24th meetings (June 2023 and July 2024, respectively) as mandated by the MOP. This format has been compiled following the AEWA Annex 3 (Action Plan), the AEWA Strategic Plan 2019-2027 and resolutions of the MOP.

In accordance with article V(c) of the Agreement on the Conservation of African-Eurasian Migratory Waterbirds, each Party shall prepare to each ordinary session of the MOP a National Report on its implementation of the Agreement and submit that report to the Agreement Secretariat. Through Resolution 8.3 the deadline for submission of national reports to the 9th Session of the Meeting of the Parties (MOP9) was set at 180 days before the opening of the meeting. MOP9 is scheduled to take place on 10-14 November 2025; therefore, the deadline for submission of National Reports is **13 May 2025**.

As per Resolution 7.1 of the MOP, Chapter 3 of the National Report Format on the numbers and trends of native and non-native species of waterbirds was developed as a stand-alone online reporting module, which is due for submission to every second MOP session. The next submission of this module is scheduled for delivery to MOP10 and will take place in 2026-2027 through a stand-alone reporting process. Therefore, the current Report on the implementation of AEWA for the period 2021-2024 does not contain Chapter 3.

As per the decision of the 23rd meeting of the Standing Committee (26-27 June 2023), reporting of waterbird harvest data for the period 2019-2023 was undertaken as a stand-alone module of the national report and administered through a separate reporting process in the course of 2024.

The AEWA National Reports 2021-2024 were compiled and submitted through the AEWA Online National Reporting System, which is part of the broader CMS Family Online Reporting System. The CMS Family Online Reporting System was developed by the UNEP-World Conservation Monitoring Centre (UNEP-WCMC) in close collaboration with and under the guidance of the UNEP/AEWA Secretariat.
