

European Goose Management Platform - National Report 2018

As outlined in Rule 32 of the Modus Operandi of the European Goose Management International Working Group (EGM IWG) adopted at the 1st Meeting of the Working Group (EGM IWG1) in December 2016, reports on the implementation of the AEWA International Species Action and Management Plans within the remit of the European Goose Management Platform (EGMP) shall be prepared by each Range State, according to a format agreed by the EGM IWG, and be presented at each face-to-face meeting of the EGM IWG.

These National Reports are also expected to provide the basis for the reporting obligations of the EGM IWG to the AEWA bodies (Modus Operandi Rule 33).

As such, countries are invited to report on their implementation progress and provide information and data as available, regarding the International Action and Management Plans to which they are a Principle Range State using the following template.

Scope of National Reports

The scope of the National Reports is on activities foreseen in the respective Action and Management Plans as well as the implementation of adaptive harvest management programmes. In addition, reporting on other tasks as decided by the EGM IWG in terms of implementation, are included as necessary.

Data provision to the EGMP Data Center

It should be noted that data required for the adaptive harvest management processes running under the EGMP are **not** be included in the template. As indicated in document AEWA/EGM/ IWG 2.10, presented to the EGM IWG at the 2nd EGM IWG meeting in Copenhagen in June 2017, all metadata and information on the monitoring activities on the population size, demographics, harvest levels and derogation numbers, will be submitted by Range States separately directly to the EGMP Data Centre.

Reporting structure

The National Report template encompasses five sections.

I. General information

II. General non-species-specific reporting

III. Reporting on the implementation of the International Species Management Plan for the Svalbard population of the Pink-footed Goose, following the structure of the four main objectives of the plan

Reporting of the implementation of the International Single Species Action Plan for the Conservation of the Taiga Bean Goose, based on the structure of the biannual implementation plan agreed at the 1st EGM IWG meeting in Kristianstad, Sweden in December 2016.

The Taiga Bean Goose template is divided into two sub-sections according to Management Units:

IV. Sub-section A: Eastern 1 Management Unit

V. Sub-section B: Western and Central Management Units

Please note that country-specific questions are indicated (see bold text in square brackets under the questions) and only need to be answered by the respective countries.

Deadline for submission

The final deadline of submission of the National Reports to the Secretariat is set for **Friday 20 April 2018**, two months before the annual meeting of the EGM IWG.

I. General information

Name of reporting country

> Ukraine

Designated National EGMP Administrative Authority

Full name of the institution

> the Ministry of Ecology and Natural Resources of Ukraine

Name and title of the head of institution

> Ostap Semerak, Minister

Mailing address - Street and number

> Mytropolyta Vasylia Lypkivs'kogo Str., 35

P.O. Box

>

Postal code

> 03035

City

> Kyiv

Country

> Ukraine

Telephone

> +38 044 206 31 00

E-mail

> secretar@menr.gov.ua

Website

> <https://menr.gov.ua>

Designated National Government Representative (NGR) for EGMP matters

Name and title of the NGR

> Volodymyr Domashlinets, Head of Fauna Conservation Division

Affiliation (institution, department)

> the Ministry of Ecology and Natural Resources of Ukraine, Department for the Protection of Biodiversity and Biosafety

Mailing address - Street and number

> Mytropolyta Vasylia Lypkivs'kogo Str., 35

Other relevant institutions/entities/individual experts that have contributed to this report

Please insert information on any other relevant institutions/entities/individual experts that have contributed to this report

>

Additional information and comments (optional)

Please insert additional information and comments

>

II. General non-species-specific reporting (to be completed by all Range States)

II.1. Are you monitoring the level of agricultural conflict (damage, complaints) with geese in your country on national (centralized for the entire country), regional(sub-national) or local level?

Please select only one option

- Yes
 No
 Not relevant

Please indicate the level:

Possibility for multiple options

- National (centralized for the entire country)
 Regional (sub-national)
 Local

National (centralized for the entire country) monitoring

Please provide details on the national monitoring methods, units, frequency and the coverage

>

Are these national activities species-specific?

Please select only one option

- Yes
 No

Please list the species

>

Regional (sub-national) monitoring

Please provide details on the regional monitoring methods, units, frequency and the coverage

> The monitoring of birds at the regional level is carried out by scientific institutes. In particular, in the southern region, within the Azov-Black Sea flyway, counts of birds is carried out by the Azov-Black Sea Ornithological Station during migration and wintering periods. The results are regularly published in Branta magazine <https://branta.org.ua/en/>

You have attached the following Web links/URLs to this answer.

[Branta bulletin](#) - Publications on birds

Are these regional activities species-specific?

Please select only one option

- Yes
 No

Please list the species

>

Local monitoring

Please provide details on the local monitoring methods, units, frequency and the coverage

> The monitoring at the local level is carried out by workers of Protected Areas. Within the Azov-Black Sea flyway, 8 national natural parks, 2 biosphere reserves and 2 regional landscape parks conduct censuses of geese during migration and wintering periods. In the northern region of Ukraine within flyway of geese, 4 national parks and 3 nature reserves conduct counts of birds during migration. The results are published in the annual volumes of the Chronicles of Nature and scientific articles.

Are these local activities species-specific?

Please select only one option

- Yes
 No

Please list the species

> Researchers from national parks pay special attention to rare species of birds and protected at the national

and international level.

Please explain the reasons

>

Please explain the reasons

>

II.2. What management measures does your country apply to manage agricultural conflicts related to geese on national (centralized for the entire country), regional (sub-national) or local level?

Possibility for multiple options

- No agricultural conflict related to geese has been recorded in my country
- No management measures are applied to manage agricultural conflicts related to geese
- Compensation schemes (payments to farmers for losses e.g. crop damage)
- Subsidy schemes (payments to support farmers to provide for/tolerate geese on their land, replacing agricultural use)
- Scaring schemes or other preventive measures designed to actively keep geese away from farmland
- Designation of goose foraging areas (accommodation areas)
- Derogation shooting to keep geese away from sensitive crops and to reduce population size
- Any other management measures to alleviate agricultural conflict

No management measures are applied

Please explain the reasons

>

Compensation schemes (payments to farmers for losses e.g. crop damage)

Please indicate the level at which the schemes are applied

Possibility for multiple options

- National (centralized for the entire country)
- Regional (sub-national)
- Local

Please explain how the damage (yield loss) is determined

>

Are these schemes species-specific?

Please select only one option

- Yes
- No

Please provide details on the species-specific measures

>

Please provide any other details (e.g. results), if available

>

Please explain the reasons

>

Is the effectiveness of this scheme evaluated?

Please select only one option

- Yes
- No

Please provide details on the evaluation of effectiveness

>

Please provide any other details (e.g. results), if available

>

Please explain the reasons

>

Subsidy schemes (payments to support farmers to provide for/tolerate geese on their land, replacing agricultural use)

Please indicate the level at which subsidy schemes are provided

Possibility for multiple options

- National (centralized for the entire country)
- Regional (sub-national)
- Local

Please provide details on the subsidy schemes

>

Are these schemes species-specific?

Please select only one option

- Yes
- No

Please provide details on the species-specific measures

>

Please provide any other details (e.g. results) if available

>

Please explain the reasons

>

Is the effectiveness of this scheme evaluated?

Please select only one option

- Yes
- No

Please provide details on the evaluation of effectiveness

>

Please provide any other details (e.g. results) if available

>

Please explain the reasons

>

Scaring schemes or other preventive measures designed to actively keep geese away from farmland

Please indicate the level of the schemes

Possibility for multiple options

- National (centralized for the entire country)
- Regional (sub-national)
- Local

Please provide details on the scaring schemes or other preventive measures

> As a rule, private farmers scare away geese by scarecrows and simple mechanical noises. Sometimes farmers scare geese by shots.

Is the effectiveness of this scheme evaluated?

Please select only one option

- Yes
- No

Please provide details on the evaluation of effectiveness

>

Please provide any other details (e.g. results) if available

>

Please explain the reasons

> No special research has been conducted on this issue. Lack of opportunity to finance relevant research.

Designation of goose foraging areas (accommodation areas)

Please provide details on the foraging areas (accommodation areas)

>

Please indicate at which level the foraging areas are designated

Possibility for multiple options

- National (centralized for the entire country)
- Regional (sub-national)
- Local

Is the effectiveness of accommodation areas evaluated?

Please select only one option

- Yes
- No

Please provide details on the evaluation of effectiveness

>

Please provide any other details (e.g. results), if available

>

Please explain the reasons

>

Derogation shooting to keep geese away from sensitive crops and to reduce population size

Please provide details on the derogation shooting

>

Please indicate the application level of the derogation shooting

Possibility for multiple options

- National (centralized for the entire country)
- Regional (sub-national)

>

Objective I. Maintain a sustainable and stable Pink-footed Goose population and its range

III.3. Have key sites for the Pink-footed Goose been identified in your country?

(PfG ISMP, p. 32)

Please select only one option

Yes

No

Please upload an Excel table and include specific information for each site on the following items

- 1 Country
- 2 Site
- 3 Size (ha)
- 4 Location (decimal geographic coordinates; and separately upload a map indicating roost and main foraging areas if possible)
- 5 Main habitat types
- 6 Has this site been afforded appropriate designation status at international levels (e.g. Ramsar site, SPA, etc.)?
 - 6a Designation status
 - 6b Date of designation
 - 6c Any other relevant information
- 7 Has this site been afforded appropriate protected area status at national levels?
 - 7a Designation status
 - 7b Date of designation
 - 7c Any other relevant information
- 8 Does a management plan exist that address the conservation requirements of pink-footed geese?
 - 8a Provide brief details e.g. about the hunting regulations and other management regimes

>

Please explain the reasons

>

III.4. Are measures being taken to restore and/or rehabilitate Pink-footed Geese roosting and/or feeding habitats?

(PfG ISMP, p.33)

Possibility for multiple options

- In staging areas
- In the wintering areas
- Not relevant

In the staging areas

Please provide brief details, listing sites and measures

>

In the wintering areas

Please provide brief details, listing sites and measures

>

Please explain the reasons

>

III.5. Has a programme for prevention of Pink-footed Goose breeding on mainland been developed and implemented in your country?

(PfG ISMP, p. 31)

[only for Norway]

Please select only one option

- Yes, the programme is being implemented
- Yes, but the programme is not being implemented to date
- No, but a programme is under development
- No

Please provide information on measures taken to date

>

Please provide results, if available

>

Please provide brief details on the measures and timeline of the programme

>

Please explain why it has not been implemented

>

Please provide brief details and expected date of enacting it

>

Please provide details on any other relevant activities undertaken, if any

>

Keep agricultural conflicts to an acceptable level

III.6. Are agricultural conflicts related to Pink-footed Geese (e.g. crop damage) currently at an acceptable level within your country?

(PfG ISMP, p. 33)

Please select only one option

- Yes
- No

Please indicate how these conflicts are being addressed

>

Please indicate how these conflicts are being addressed

>

Please provide further details, as necessary

>

Objective III. Avoid increase in tundra vegetation degradation on the breeding range

III.7. Is the extent of arctic tundra degradation on Svalbard caused by the Pink-footed Goose monitored?

(PfG ISMP, p. 33-34)

(Only for Norway)

Please select only one option

- Yes
 No

Please provide details on the type of monitoring activities (who is conducting them and how they are conducted)

>

Is there an increase in the level of degradation of the arctic tundra?

Please select only one option

- Yes
 No

Please provide any results or evidence

>

Please provide any results or evidence

>

Please explain the reasons

>

Objective IV. Allow for recreational use that does not jeopardize the population

III.8. Does your country promote and/or implement (in the past three years) any national or regional (sub-national) hunting-related campaigns, training programmes and/or management activities ?

(PfG ISMP, p. 31)

[Only Norway and Denmark]

Possibility for multiple options

- Wise use hunting practices
 Best practices to reduce crippling rates
 Self-organization and coordination of local hunting
 No campaigns, programmes or activities have been implemented

Wise use hunting practices

Please provide brief details (attach files or provide web links, if available)

>

Best practices to reduce crippling rates

Please provide brief details (attach files or provide web links, if available)

>

Self-organization and coordination of local hunting

Please provide brief details (attach files or provide web links, if available)

>

Please explain the reasons

>

Optionally, please provide any other information related to the implementation of the PfG ISMP

Please provide further information here

>

IV. Sub-section A: Taiga Bean Goose International Single Species Action Plan (TBG ISSAP) - Eastern 1 Management Unit

Participating Range States: Belarus, Estonia, Germany, Latvia, Lithuania, Russia, Ukraine

Objective 1. Increase survival rate of adults

Result 1.1 Legal harvest does not jeopardize an increase of adult survival rates

IV.1. Has your country developed and adopted legislation for the closure of hunting of TBG to allow for TBG to pass before goose hunting is opened?

(activity 1.1.1.1 Biannual Taiga Bean Goose implementation plan agreed at the 1st EGM IWG meeting in Kristianstad, Sweden in December 2016)

Please select only one option

- Yes, developed and adopted
 Yes, developed but not adopted
 No

Please describe what legislation has been developed

> Spring hunting is prohibited in Ukraine, allowing Taiga Bean Goose to migrate freely. During spring migratory period 2-12 thousand TBG migrate through the northern part of Ukraine.

During autumn migration and wintering, TBG occurs in small number in mixed flocks in the Southern region of Ukraine. Number of birds obtained during the fall season is low.

These measures allow for TBG to pass before goose hunting is opened.

The State Agency for Forest Resources developed the Instruction on the inventory of harvested game during last year. The document is currently undergoing approval and will be accepted until the opening of the hunting season. Instructions will improve the quality of the data about the results of hunting. Due to the adoption of the new Instruction, an appropriate information campaign and trainings will be held.

Please indicate when it was adopted

> The decision to ban spring hunting was adopted on April 20, 2004, when the Parliament adopted the Law No. 1695-IV "On Amendments to the Law of Ukraine" On Hunting Economy and Shooting".

Please indicate how the legislation is enforced

> The control over the implementation of legislation in the field of hunting is carried out by the territorial authorities of the State Agency of Forest Resources, the State Ecological Inspection, the Ukrainian Society of Hunters and Fishermen, users and owners of hunting lands, inspectors of the State Service for the Protection of Nature Reserve Fund.

Please describe what legislation has been developed

>

Please indicate the timeframe when the legislation is expected to be adopted

>

Please explain the reasons

>

IV.2. Please indicate how you are improving the knowledge of the occurrence of TBG on sub-species level in your country

(activity 1.1.1.2 Biannual Taiga Bean Goose implementation plan agreed at the 1st EGM IWG meeting in Kristianstad, Sweden in December 2016)

IV.2.1. Ensuring national monitoring at all known key sites

Please select only one option

- Yes
 No

Please describe the activities undertaken

> Unfortunately, there is no special national monitoring system.

Monitoring are carried out in Protected Areas within the framework of the Program of the Chronicle of Nature, scientific organizations, and within the framework of IWC.

Please list the key sites where monitoring activities are being undertaken

> Counts of Taiga Bean Goose are conducted in Danube Biosphere Reserve, Black Sea Biosphere Reserve, National Natural Parks Tuzlovsky Liman, Lower Dniester, Bioboberezhzhya Svyatoslav, Dzharylgatsky, Lower

Dnipro, Priazovsky, Meotida located in the Azov-Black Sea region.
And National Parks Shatskii, Pripyat-Stokhid, Mezinsky, Desniansky-Starogutsky, nature reserves of Cheremsky, Rivne, Drevlyansky located in the northern region of Ukraine.
Winter census within the framework of IWC are being undertaken in key wintering areas in the Southern region of Ukraine.

Please provide relevant documents or weblinks

>

Please explain the reasons

>

IV.2.2. Providing identification training to people carrying out the monitoring activities

Please select only one option

Yes

No

Please describe the activities undertaken

>

Please provide relevant identification materials or weblinks, if available

>

Please explain the reasons

> Unfortunately, no trainings have been held last years due to lack of funding.

IV.2.3. Providing equipment to people carrying out the monitoring activities

Please select only one option

Yes

No

Please describe the activities undertaken

>

Please provide relevant documents or weblinks

>

Please explain the reasons

>

IV.2.4. Carrying out a satellite/GPS tagging project on TBG in the wintering/staging areas

Please select only one option

Yes

No

Please describe the activities undertaken

>

Please provide relevant documents or weblinks

>

Please explain the reasons

>

IV.2.5. Any other relevant activities

Please select only one option

Yes

No

Please describe the activities undertaken

>

Please provide relevant documents or weblinks

>

Result 1.2 Illegal harvest is reduced to non-significant levels

IV.3. Does your country implement an awareness-raising campaign for hunters to complement necessary legislation changes?

(activity 1.2.2.1 Biannual Taiga Bean Goose implementation plan agreed at the 1st EGM IWG meeting in Kristianstad, Sweden in December 2016)

[Only for Belarus and Ukraine]

Please select only one option

- Yes, an awareness-raising campaign is being implemented
- No, but an awareness-raising campaign is under development
- No

Please indicate who is involved in the implementation (e.g. national NGOs, research institutes, etc.)

>

Please provide brief details about the activities that are being implemented

>

Please provide a weblink or upload more information on the campaign

>

Does the campaign include guidance on identification of grey geese?

Please select only one option

- Yes
- No

Please upload identification guides and provide weblinks

>

Please provide further information, if available

>

Please explain the reasons

>

Please indicate who is in charge of developing the campaigns

> The information for an awareness-raising campaign is under development. However, due to lack of funding it has not been completed.

Please provide information on when the development is expected to be finalized

> It is assumed that an awareness-raising campaign will be developed by August 2018.

Please indicate when the implementation of the campaign is envisaged to start

> It is assumed that an awareness-raising campaign will be held during August - December 2018.

Please provide reasons why an awareness-raising campaign is not in place

>

IV.4. Has special publication on the occurrence of the Taiga Bean Goose been produced and disseminated?

(activity 1.2.2.2 Biannual Taiga Bean Goose implementation plan agreed at the 1st EGM IWG meeting in Kristianstad, Sweden in December 2016)

[Only for Ukraine]

Please select only one option

- Yes produced and disseminated
- Yes, currently being produced
- No

Please provide details on dissemination, upload publication or provide weblink

>

Please provide details on the timeframe

>

Please indicate who is in charge of producing the publication

>

Please provide details on the dissemination plans

>

Please explain the reasons

> Publication on the occurrence of the Taiga Bean Goose is under preparation.

Other objectives and results as decided by the EGM IWG

Reducing Taiga Bean Goose crippling

IV.5. Have you undertaken any activities to reduce TBG crippling rates?

(activity agreed at the 1st EGM IWG meeting in Kristianstad, Sweden in December 2016)

Please select only one option

- Yes
- No
- Not applicable

Please provide details on the activities

>

Please explain the reasons

>

Please explain the reasons

>

Raising identification skills and awareness amongst hunters

IV.6. Have training programmes to develop identification skills amongst hunters been organized by national hunting associations?

(activity agreed at the 1st EGM IWG meeting in Kristianstad, Sweden in December 2016)

Please select only one option

- Yes
- No
- Not applicable

Please provide more information on the training programmes

>

Have the training programmes been developed in cooperation with BirdLife partners and other conservation NGOs?

Please select only one option

- Yes

V. Sub-section B: Taiga Bean Goose International Single Species Action Plan (TBG ISSAP) - Western and Central Management Units

Participating Range States: Denmark, Finland, Norway, Russia, UK

Objective 1 Increase survival rate of adults

Result 1.2 Illegal harvest is reduced to non-significant levels

V.1. Is TBG shooting investigated in north-east Jutland and Zealand?

(activity 1.2.2.1 Biannual Taiga Bean Goose implementation plan agreed at the 1st EGM IWG meeting in Kristianstad, Sweden in December 2016)

[Only for Denmark]

Please select only one option

- Yes
 No

Please indicate what activities have been undertaken

>

Please provide results, relevant publications and weblinks

>

Please explain the reasons

>

Result 1.3: Impact of huntable native predators in breeding and moulting areas is reduced

[Only for Finland]

V.2. Are annual campaigns undertaken amongst hunters in the breeding areas to strengthen fox management in your country?

(activity 1.3.1.1 Biannual Taiga Bean Goose implementation plan agreed at the 1st EGM IWG meeting in Kristianstad, Sweden in December 2016)

Please select only one option

- Yes
 No

Please list the areas where the campaigns are being undertaken

>

Please list the hunting associations involved

>

Please provide any other relevant details and weblinks

>

Please explain the reasons

>

V.3. Has fox management in northernmost Finland been further strengthened by the Finnish Wildlife Agency and the Forestry and Parks Service?

(activity 1.3.1.2 Biannual Taiga Bean Goose implementation plan agreed at the 1st EGM IWG meeting in Kristianstad, Sweden in December 2016)

Please select only one option

- Yes
 No

Please explain what activities have taken place

>

Please provide results, relevant publications and weblinks

>

Please explain the reasons

>

Result 1.4: Impact of alien predators in breeding and moulting areas is reduced [Only for Finland and Sweden]

V.4. Does your country implement programmes for the eradication of the raccoon dog?

(activity 1.4.1.1 Biannual Taiga Bean Goose implementation plan agreed at the 1st EGM IWG meeting in Kristianstad, Sweden in December 2016)

Please select only one option

Yes

No

Please provide details about the eradication programme(s) (scope, implementing entities, etc.)

>

Please provide details on the effectiveness of the programmes

>

Please provide an update on the current status of the raccoon dog

>

Please explain the reasons

>

Objective 2. Increase reproductive rates

Result 2.2: Intraspecific competition in spring staging areas is reduced

V.5. Please provide updates on the implementation of the “fields for geese” programme

(activity 2.2.1.1 Biannual Taiga Bean Goose implementation plan agreed at the 1st EGM IWG meeting in Kristianstad, Sweden in December 2016)

[Only for Sweden]

>

V.6. Please provide information on the continuation and implementation of the “unharvested-fields-for-birds” programme (within the Common Agricultural Policy)

(activity 2.2.1.2 and 2.2.1.3)

[Only for Finland]

>

Objective 3. Stop ongoing loss, fragmentation and degradation of habitats, and restore lost, fragmented and degraded habitats

Result 3.1: Impact of forestry works is reduced

[Only for Finland]

V.7. Have working models been developed for wildlife-friendly forest management?

(activity 3.1.1.1 Biannual Taiga Bean Goose implementation plan agreed at the 1st EGM IWG meeting in Kristianstad, Sweden in December 2016)

Please select only one option

Yes

No

Please provide details on the working models developed

>

Are these models being implemented?

Please select only one option

Yes

No

Please provide more information on the progress

>

Have these models been promoted to reach forest owners?

Please select only one option

- Yes
- No

Please provide more information

>

Please explain the reasons

>

Have these models been promoted to reach forest corporations?

Please select only one option

V.8. Please indicate the implementation progress to reach the annual goals for mire restoration

(activity 3.1.2.1 Biannual Taiga Bean Goose implementation plan agreed at the 1st EGM IWG meeting in Kristianstad, Sweden in December 2016)

>

Result 3.3: Breeding, staging and wintering habitats are not further lost due to oil and gas or renewable energy developments

V.9. Are you monitoring the collision risk posed by renewable energy developments to TBG close to the Special Protection Areas, identified as their important wintering sites?

(activity 3.3.1.1 Biannual Taiga Bean Goose implementation plan agreed at the 1st EGM IWG meeting in Kristianstad, Sweden in December 2016)

[only for Denmark]

Please select only one option

- Yes
- No

Please provide information on the relevant actions that have been undertaken

>

Please provide any results, if available

>

Please explain the reasons

>

Result 3.4: Impact of agriculture on natural Taiga Bean Goose habitats is minimized

V.10. Has the area of managed coastal grasslands under the Common Agricultural Policy (CAP) increased in your country compared to 2017?

(activity 3.4.1.1 Biannual Taiga Bean Goose implementation plan agreed at the 1st EGM IWG meeting in Kristianstad, Sweden in December 2016)

[only for Finland]

Please select only one option

- Yes
- No

Please indicate the size of the total area

>
Please indicate the additional area managed since the beginning of 2017

>
Please describe the activities undertaken on grassland management

>
Please upload relevant documentation and provide weblinks

>
Please explain the reasons

Other objectives and results as decided by the EGM IWG

Review factors possibly contributing to rapid declines in eastern England and implement appropriate management responses [only for UK]

V.11. Have possible factors causing population declines in eastern England been reviewed?
(activity agreed at the 2nd EGM EWG meeting in Copenhagen, Denmark in June 2017)

[only for UK]

Please select only one option

- Yes
 No

>
Please describe those factors and provide further information as available

Are appropriate management responses to these factors being implemented?
Please select only one option

- Yes
 No

>
Please provide information on the activities implemented

>
Please provide information about the main achievements and results

>
Please explain the reasons

>
Please explain the reasons

Reducing Taiga Bean Goose crippling

V.12. Have you undertaken any activities in the past three years to reduce TBG crippling rates?
(activity agreed at the 1st EGM IWG meeting in Kristianstad, Sweden in December 2016)

Please select only one option

- Yes
 No
 Not applicable

>
Please provide details on the activities

>
Please explain the reasons
