

Proposed amendments to Rolling Work Plan 2023-2025 of AEWA Black-tailed International Working Group

29 August 2023

Annex I – General Activities

- Reformulate activities to clarify which actions are required → marked using ‘track changes’
- Further specify who is expected to take the lead in completing activities to stimulate implementation → marked using ‘track changes’
- Update timeframe for activities → marked using ‘track changes’
- Restructuring:
 - Merge Projects/activities regarding collaboration between Breeding Range States in NW-Europe and E-Europe to simplify structure.
 - Longer term: restructure workplan to organise actions by ‘ISSAP result’, similar to the workplan for the Eurasian Curlew.
- Several actions added based on UK feedback on the work plan following the 2022 Papenburg Meeting.

- Removal of completed activities:

Stimulate collaboration between Breeding Range States in NW-Europe and E-Europe.	2022	BtG Coordinator	Merge workplans for NW-European and E-European breeding range states.		Completed
--	------	-----------------	---	--	-----------

Annex II – NW-European breeding range states

- Update timeframe for activities → marked using ‘track changes’
- Action specified regarding informing Dutch Regional Water Boards
- Action specified regarding the need to make management economically sustainable for farmers

- Removal of completed activities:

Training of “AES Coordinators” to improve planning and implementation of BtG measures in NL farming cooperatives	2023-2025	NL Provinces in cooperation with NL BtG experts			Completed BoerenNatuur organizes regular knowledge
--	-----------	---	--	--	---

					exchange meetings for this target group
--	--	--	--	--	--

Annex III – E-European range states

- Update timeframe for activities → marked using 'track changes'
- Further specify who is expected to take the lead in completing activities to stimulate implementation → marked using 'track changes'
- Clarify actions and improve structure → marked using 'track changes'
