

Report on the implementation of AEWA for the period 2009-2011

The format for reports on the implementation of the Agreement on the Conservation of African-Eurasian Migratory Waterbirds (AEWA) for the period 2009-2011 was approved at the 4th session of the Meeting of the Parties (15-19 September 2008, Antananarivo, Madagascar) by Resolution 4.7. Further amendments were endorsed by the Standing Committee in August 2011 in accordance with operative paragraph 11 of Resolution 4.7. This format has been constructed following the AEWA Action Plan, the AEWA Strategic Plan 2009-2017 and resolutions of the Meeting of the Parties (MOP).

In accordance with Article V.1(c) of the Agreement on the Conservation of African-Eurasian Migratory Waterbirds, each Party shall prepare to each ordinary session of the MOP a National Report on its implementation of the Agreement and submit that report to the Agreement Secretariat not later than 120 days before the session of the MOP. The 5th Session of the Meeting of the Parties (MOP5) is taking place on 14-18 May 2012 in La Rochelle, France; therefore **the deadline for submission of National Reports is 14 January 2012.**

The AEWA National Reports 2009-2011 will be compiled and submitted through the CMS Family Online Reporting Facility, which is an online reporting tool for the whole CMS Family. However, AEWA will be the first of the CMS-related treaties to use the CMS Family Online Reporting System for its reporting to MOP5. The CMS Family Online Reporting System was developed in 2010-2011 by the UNEP-World Conservation Monitoring Centre (UNEP-WCMC) in close collaboration with and under the guidance of the UNEP/AEWA Secretariat.

As a new product, the system may still need some refining and improving, we therefore request your understanding: any feedback or suggestions on your side would be greatly appreciated.

The online reporting system offers flexibility and versatility superior to the previously used paper-based reporting and the UNEP/AEWA Secretariat hopes that the Parties will find it to be more convenient and efficient. In particular, it will make information more easily accessible and also enhance ways of using it. In this context, Resolution 4.7 also requests UNEP to assist in the development of an analytical tool and calls upon Parties to support this initiative and provide financial resources and thus strengthen the online format for national reporting in collaboration with UNEP-WCMC. The online reporting system brings national reporting to a different level, enabling the information provided to be used much more effectively; it also serves as a tool for self-assessment by Parties. In addition, it can help to enhance cooperation and coordination between various stakeholders in your country by making the national reporting more of a collective, collaborative and continuous process.

To contact the UNEP/AEWA Secretariat please send your inquiries to aewa_national_reporting@unep.de.

1. General Information

Name of reporting Contracting Party

> Finland

Date of entry into force of AEWA in the Contracting Party

> 01.01.2000

List any reservations that the Contracting Party has made (if any) upon deposition of its instruments of accession on provisions of the Agreement or its Action Plan in accordance with Article XV of AEWA

> None

2. Institutional Information

Please update information on the National AEWA Administrative Authority, the National Focal Points, the Designated National Respondent and the other contributors to this report.

Designated National AEWA Administrative Authority

Species Status - Non-breeding/wintering

Does the species occur in the country during the non-breeding/wintering period?

☒ No

Legal Status

(measures as per paragraph 2.1.1 of the AEWA Action Plan - applicable to species with populations listed on Column A of the AEWA Table 1)

Taking of birds and eggs prohibited

☒ Yes

Deliberate disturbance prohibited

☒ Yes

Possession or utilization of, and trade in, birds, eggs or any readily recognisable parts or derivatives prohibited

☒ Yes

Legal Status

(measures as per paragraph 2.1.2 of the AEWA Action Plan - applicable to species with populations listed on Column B of the AEWA Table 1)

Prohibited possession or utilization of, and trade in, birds and eggs of the populations which have been taken in contravention of any prohibition laid down pursuant to the provisions of paragraph 2.1.2 of the AEWA Action Plan (i.e. in the reproductive or rearing period, pre-nuptial migration, using modes of taking that are under regulation, and excess over the limits) as well as the possession or utilization of, and trade in, any parts of such birds and their eggs

☒ Yes

Legal Status - Field for additional information (optional)

Optionally you can provide additional information on the legal status of the species in the country

> strictly protected according the Nature Conservation Act

National Red List Status

Is a National Red List of threatened species maintained in your country?

☒ Yes

Do National Red Lists have a legal status in your country?

☒ Yes

Latest assessment

Indicate the category of the species on the National Red List. If your national categories differ from these ones, indicate those which most closely correspond to them.

☒ Least Concern

Year

> 2010

Previous assessment

Species Status - Non-breeding/wintering

Does the species occur in the country during the non-breeding/wintering period?

☒ No

Legal Status

(measures as per paragraph 2.1.1 of the AEWA Action Plan - applicable to species with populations listed on Column A of the AEWA Table 1)

Taking of birds and eggs prohibited

☒ Yes

Deliberate disturbance prohibited

☒ Yes

Possession or utilization of, and trade in, birds, eggs or any readily recognisable parts or derivatives prohibited

☒ Yes

Legal Status

(measures as per paragraph 2.1.2 of the AEWA Action Plan - applicable to species with populations listed on Column B of the AEWA Table 1)

Prohibited possession or utilization of, and trade in, birds and eggs of the populations which have been taken in contravention of any prohibition laid down pursuant to the provisions of paragraph 2.1.2 of the AEWA Action Plan (i.e. in the reproductive or rearing period, pre-nuptial migration, using modes of taking that are under regulation, and excess over the limits) as well as the possession or utilization of, and trade in, any parts of such birds and their eggs

☒ Yes

Legal Status - Field for additional information (optional)

Optionally you can provide additional information on the legal status of the species in the country

> strictly protected according the Nature Conservation Act

National Red List Status

Is a National Red List of threatened species maintained in your country?

☒ Yes

Do National Red Lists have a legal status in your country?

☒ Yes

Latest assessment

Indicate the category of the species on the National Red List. If your national categories differ from these ones, indicate those which most closely correspond to them.

☒ Vulnerable

Year

> 2010

Previous assessment

Indicate the category of the species on the National Red List. If your national categories differ from these ones, indicate those which most closely correspond to them.

☒ Not Assessed

Year

> 2000

AEWA Species - *Gallinula chloropus* / Common Moorhen

English Common name(s):

Common Moorhen, Moorhen

French Common name(s):

Gallinule poule-d'eau, Poule d'eau

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

☒ The species occurs in the country

Native or non-native species

Please confirm whether the species is native or non-native to your country

Species Status - Non-breeding/wintering

Does the species occur in the country during the non-breeding/wintering period?

☒ No

Legal Status

(measures as per paragraph 2.1.2 of the AEWA Action Plan - applicable to species with populations listed on Column B of the AEWA Table 1)

Taking of birds and eggs during reproductive or rearing period and pre-nuptial migration prohibited

☒ Yes

Regulated modes of taking in place

☒ Yes

Established limits of taking (birds or eggs per hunter per day or season)

☒ No

Prohibited possession or utilization of, and trade in, birds and eggs of the populations which have been taken in contravention of any prohibition laid down pursuant to the provisions of paragraph 2.1.2 of the AEWA Action Plan (i.e. in the reproductive or rearing period, pre-nuptial migration, using modes of taking that are under regulation, and excess over the limits) as well as the possession or utilization of, and trade in, any parts of such birds and their eggs

☒ No

Legal Status - Field for additional information (optional)

Optionally you can provide additional information on the legal status of the species in the country

> game bird, the Hunting act

National Red List Status

Is a National Red List of threatened species maintained in your country?

☒ Yes

Do National Red Lists have a legal status in your country?

☒ Yes

Latest assessment

Indicate the category of the species on the National Red List. If your national categories differ from these ones, indicate those which most closely correspond to them.

☒ Least Concern

Year

> 2010

Previous assessment

Indicate the category of the species on the National Red List. If your national categories differ from these

ones, indicate those which most closely correspond to them.

☒ Least Concern

Year

> 2000

Pressures and Responses

4. Species Conservation

4.1 Legal Measures

1. Were any exemptions granted to the prohibitions laid down in paragraphs 2.1.1 and 2.1.2 of the AEWA Action Plan? (AEWA Action Plan, paragraph 2.1.3)

☒ No

Optionally you can provide additional information on section 4.1. Legal Measures

> Concerning paragraph 2.1.1: none of the species listed in column A are huntable.

Concerning paragraph 2.1.2: hunting is restricted in time and only allowed during part of the year.

4.2 Single Species Action Plans

2. Please report on the progress of turning the International Single Species Action Plans (ISSAP), for species whose populations are listed on Column A of Table 1, developed under or recognised by AEWA, into National Single Species Action Plans (NSSAP). (AEWA Action Plan, paragraph 2.2)

Please clarify the relevance of the AEWA International Single Species Action Plans or the other recognised plans (Dalmatian Pelican, Pygmy Cormorant, Red-breasted Goose, Marbled Teal, Slender-billed Curlew and Audouin's Gull) to your country

☒ At least one of the International Single Species Action Plans is relevant

Please report on each relevant ISSAP

National Single Species Action Plan for *Anser erythropus* / Lesser White-fronted Goose

For *Anser erythropus* / Lesser White-fronted Goose

☒ NSSAP in place and being implemented

When was the plan approved and published? Please provide a web link or attach a file, if available. Please provide contact details for any person or organisation coordinating its implementation. Please list any activities and/or achievements over the past triennium.

> NSSAP was published in 2008. National coordinator, Tuomo.Ollila@metsa.fi, National working group, Petteri.Tolvanen@wwf.fi. Activities: control of Red Fox in old core areas, management plans for old core areas, annual field surveys. Protecting of staging areas, implementing of management plans for staging areas, annual monitoring of birds in staging areas, information campaigning for hunters

National Single Species Action Plan for *Crex crex* / Corncrake

For *Crex crex* / Corncrake

☒ NSSAP in development

Please provide starting date and expected finalisation date

> unofficial ongoing process

3. Do you have in place or are you developing a National Single Species Action Plan for any species/population for which an AEWA ISSAP has not been developed? (AEWA Action Plan, paragraph 2.2.2)

☒ Yes

Please provide information on each species for which relevant action has been undertaken

National Single Species Action Plan for *Botaurus stellaris* / Great Bittern

For *Sterna caspia* / Caspian Tern

☒ NSSAP in place and being implemented

4. Did you use the AEWA Guidelines for the preparation of National Single Species Action Plans for migratory waterbirds?

☒ Yes

Please provide details

> Steps are followed in in development

4.3 Emergency Measures

5. Please report on any emergency situation that has occurred in your country over the past triennium and has threatened waterbirds. (AEWA Action Plan, paragraph 2.3)

Please indicate whether an emergency situation threatening waterbirds, such as botulism, chemical pollution, earthquake, extreme weather, fire, harmful algal bloom, infectious disease, introduction of alien species, lead poisoning, nuclear accident, oil spill, predation, volcanic activity, war or other emergency (please specify), has occurred in the country over the past triennium

☒ No emergency situation has occurred

6. Are there any other emergency measures, which were not mentioned above, but were developed and are in place in your country?

☒ No

7. Did you use the AEWA Guidelines on identifying and tackling emergency situations for migratory waterbirds?

☒ No

Please explain the reasons. What was used instead as a basis for dealing with emergency situations?

> There has not been emergency situation.

Optionally you can provide additional information on section 4.3. Emergency Measures

> The readiness for oil spill prevention measure: training and education for authorities and voluntary people to

4.4 Re-establishments

8. Is there a regulatory framework for re-establishments of species, including waterbirds, in your country (AEWA Action Plan, paragraph 2.4)?

☒ Yes

Please provide details

› Finnish legislation strictly regulates introduction of species. According to the Hunting Act Import and releasing of non-native mammals or birds or non-native game animal stocks is forbidden without the permission of Ministry of the Agriculture and Forestry. The permission can not be given, if the action is harmful for the nature and original animals.

According to the Nature Conservation Act non-native species falling outside the purview of the Hunting Act or Fishing Act are not to be released in to the wild if there is a cause to suspect that the species may become established permanently.

9. Are you maintaining a national register of re-establishment projects occurring or planned to occur wholly or partly within your country? (Resolution 4.4)

☒ No

Please explain the reasons

› No re-establishment projects

10. Has your country considered, developed or implemented re-establishment projects for any species listed on AEWA Table 1? (AEWA Action Plan, paragraph 2.4)

☒ No

4.5 Introductions

11. Does your country have legislation in place, which prohibits the introduction of non-native species of animals and plants, which may have a detrimental effect? (AEWA Action Plan, paragraph 2.5.1)

☒ Yes, and being enforced

Please provide the following details: title of legislation, year of adoption, institution that adopted it, institution that enforces it

› Finnish legislation strictly regulates introduction of species.

According to the Hunting Act Import and releasing of non-native mammals or birds or non-native game animal stocks is forbidden without the permission of Ministry of the Agriculture and Forestry. The permission can not be given, if the action is harmful for the nature and original animals.

12. Has your country introduced requirements to zoos, private collections, etc. in order to avoid the accidental escape of captive birds belonging to non-native species? (AEWA Action Plan, paragraph 2.5.2)

☒ Yes, and being enforced

Please provide the following details: title of the document, year of adoption, institution that adopted it, institution that enforces it

› The Animal Welfare Act, Finnish Legislation 247/1996, the Ministry of Agriculture and Forestry

13. Does your country have in place a National Action Plan for Invasive Species (NAPIS) (in the framework of other MEAs, such as CBD, Bern Convention, and GISP (Global Invasive Species Programme) (Strategic Plan 2009-2017, Objective 1, Target 5)?

☒ Being developed

Please provide starting date and expected finalisation date of the process

› 1.9.2008, finalisation 2012

14. Has an eradication programme been considered, developed or implemented for any non-native waterbird species in your country?

☒ Yes

Please provide information on each species for which relevant action has been

undertaken

Eradication programme for *Oxyura jamaicensis* / Ruddy Duck

For *Oxyura jamaicensis* / Ruddy Duck

☒ Eradication programme developed, but not being implemented properly or at all

Please explain the reasons

› The eradication of the Ruddy Duck includes to NAPIS. The last observation of the Ruddy Duck is from the year 2003.

15. Did you use the AEWA Guidelines on avoidance of introductions of non-native waterbird species?

☒ Yes

Please provide details

› It was taken in consideration in the developing of the NAPIS

Pressures and Responses

5. Habitat Conservation

5.1 Habitat Inventories

16. Has your country identified the network of all sites of international and national importance for the migratory waterbird species/populations listed on Table 1? (AEWA Action Plan, paragraph 3.1.2)

☒ Yes

Please provide full reference, e.g. title, year, authors, etc. or a web link

> <http://www.ymparisto.fi>

Field for additional information (optional)

> The internationally most important Finnish SPA-sites plus further sites important to birds and of Ramsar importance have been selected and nominated as Ramsar sites (2003Vuosisiluku).

The Finnish Natura 2000-sites (SCIs and SPAs) include aforementioned protected areas and sites being part of national conservation programmes complemented by sites in provincial land use plans and general land use plans.

17. If your country has identified or is currently identifying the networks of sites of international and national importance, have you used the AEWA Guidelines on the preparation of site inventories for migratory waterbirds?

☒ No

Please explain the reasons. What has been used instead as a basis for the inventory?

> The most important sites have been identified when Finland prepared Natura-2000 network 1995-1998

5.2. Conservation of Areas

18. Which sites that were identified as important, either internationally or nationally, for Table 1 migratory waterbird species/populations have been designated as protected areas under the national legislation and have management plans that are being implemented? (AEWA Action Plan, paragraph 3.2.1)

Please report on both internationally and nationally important sites

☒ Reporting on designation and management of internationally important sites

All sites of international importance

Total number

> 106

You have attached the following documents to this answer.

[REVLISites important AEWA.xls](#)

Total area (ha)

> 2376683

Out of the above total: number of protected sites

> 99

Out of the above total: protected area (ha)

> 2369683

Number of protected sites with management plans in place which are being implemented

> 26

Area under protection (in ha) covered by management plans which are being implemented

> 1546671

19. Has your country used the AEWA Guidelines on the management of key sites for migratory waterbirds?

☒ Yes

Please provide details

› Tool and support in management planning

20. Have you accessed and used the Critical Site Network (CSN) Tool for the AEWA area?

☒ Yes

Please give examples of how you have used the CSN Tool

› Tool had support in management planning

Pressures and Responses

6. Management of Human Activities

6.1. Hunting

21. Does your country have an established system for the collection of harvest data, which covers the species listed in Table 1? (AEWA Action Plan, paragraph 4.1.3)

☒ Yes

Does it cover the following? (tick where applicable and provide details)

☒ All AEWA species occurring in your country

☒ The whole territory of your country

☒ All harvesting activities

Field for additional information (optional)

› The Finnish Game and Fisheries Institute keeps records of the bag which are collected by random sampling among the hunters. The bag statistics is published yearly in hunter's magazines and information bulletins.

22. Has your country phased out the use of lead shot for hunting in wetlands? (AEWA Action Plan, paragraph 4.1.4)

☒ Fully

When was the lead shot use in wetlands banned? What legislation is in place? Who does enforce this legislation?

› 1996, Hunting Act, the Ministry of Agriculture and Forestry

Field for additional information (optional)

› The use of hunting methods described in Annex IV of the Birds directive is forbidden.

Also the use of lead shots in the hunt of waterfowl in Finland has been forbidden from 1.9.1996.

23. Are there measures in your country to reduce/eliminate illegal taking? (AEWA Action Plan, paragraph 4.1.6)

☒ Yes

How would you rate the effectiveness of the measures?

☒ High

Please provide details

› Every hunter must have a licence to hunt. The ranger and Police controls.

24. Has your country used the AEWA Guidelines on sustainable harvest of migratory birds?

☒ No

Please explain the reasons. What other guidance has been used instead?

› The Finnish Game and Fishery Research Institute gives guidelines in the beginning of the hunting season.

6.2. Other human activities

25. Does your country have legislation in place, which provides for Strategic Environmental Assessment/Environmental Impact Assessment (SEA/EIA) of activities potentially negatively affecting natural habitats or wildlife? (AEWA Action Plan, paragraph 4.3.1)

☒ Yes and being implemented

Do the SEA/EIA processes consider waterbirds and habitats on which they depend?

☒ Yes

Please provide details

› The Act on Environmental Impact Assessment Procedure (EIA) (468/1994) came into force on 1 September 1994. Its aim is to further the assessment of environmental impact and the consistent consideration of this impact in planning and decision-making, and at the same time to increase the information available to citizens and their opportunities to participate in decision-making.

The amendments to the act and a new decree on EIA (268/1999) came into force on 1 April 1999. The amendments deal with the scope of legislation.

Do the SEA/EIA processes include public participation?

☒ Yes

Please provide details

› Citizens can present their opinions and statements in many stages during the SEA/EIA process and also possibility to make a complaint to the higher court

26. In the last three years, has your country used SEA/EIA for all relevant projects to assess the impact of proposed projects on migratory waterbird species listed on table 1 and/or habitats/sites on which they depend? (AEWA Action Plan, paragraph 4.3.1)

☒ Yes, all proposed projects

Please provide information on the outstanding cases

› Offshore and seashore windfarms, dredging of shipping channel, harbours, building of gas pipe, EIA is obligatory

27. Is by-catch of waterbirds in fishing gear taking place in your country? (Resolution 3.8)

☒ No Information

When and how do you intend to fill this information gap?

› The new fishery act is under preparation. There has been discussion about obligatory reporting of by-catch, both seals and waterbirds

28. Has your country undertaken steps towards the adoption/application of measures to reduce the incidental catch of seabirds and combat Illegal Unregulated and Unreported (IUU) fishing practices in the Agreement area? (Resolution 3.8)

☒ No

Please explain the reasons

› Please, see above

Pressures and Responses

7. Research and Monitoring

29. Does your country have waterbird monitoring schemes for the AEWA species in place? (Strategic Plan 2009-2017, Objective 3, Target 2)

☒ Yes

Covering the breeding period

☒ Fully

Please provide details

- > - Inland netting of birds, occurs in context of ringing, targets a few common species in about 30 sites, provides an indication of the yearly variation in the breeding success, a pan-european project.
- Waterfowl census, numbers of inland breeding waterfowl and production of young is surveyed in standard sites by e.g. point census methods, yearly changes in population numbers and production of young.
- Barnacle goose monitoring, yearly inspection of nesting sites and census of post-breeding population.
- Breeding waterfowl censuses to monitor the development of species populations and breeding success in cooperation with the Finnish Museum of Natural History since 1986.
- Breeding bird censuses in agricultural environment, the size of breeding populations of about 30 species and changes of habitats in cooperation with the Finnish Museum of Natural History since 1984.

You have attached the following Web links/URLs to this answer.

<http://www.birdlife.fi>

<http://www.rktl.fi>

Covering the passage/migration period

☒ Fully

Please provide details

- > Observation of migratory birds, monitoring of birds in stop over sites

Covering the non-breeding/wintering period

☒ Fully

Please provide details

- > - Winterbird census, wintering birds recorded on standard routes (400 routes/winter) number of species and individuals, bird fauna of urban areas.
- Winterbird feedingsite monitoring program, recording of birds visiting standard feeding stations (about 450), structure of winter bird fauna and mortality.
- Cormorant monitoring, yearly inspection of nesting sites and ringing of young, feeding study, census of migrating and wintering birds, provides information on numbers through the year, distribution, production of young and use of food.
- 3. -- Census of wintering seabirds, four boat routes in Åland Isles, yearly number of species and individuals.
- 1. - Archipelago bird censuses, the population status of sea ducks, gulls and waders, done in cooperation with the Finnish Museum of Natural History since 1986.
- Triangle observation censuses, population sizes, structure and production of tetraonids, started in 1988.

Field for additional information (optional)

- > A working group set up by Ministry of the Environment has prepared a new report on threatened species, a list of threatened species included in the Nature Conservation Act and a list of species for which Finland is internationally responsible. The proceedings of this work are published in Finnish threatened species 2000. - Rassi, P., Alanen, A., Kanerva, T. & Mannerkoski, I. (eds) 2001, Ministry of the Environment and Finnish Environment Institute, Helsinki.

30. Have you used the AEWA Guidelines for a waterbird monitoring protocol?

☒ Yes

Please provide details

- > tool and support to monitoring

31. List (or provide links to lists) of research related to waterbirds and their conservation that has been undertaken or results published in the past triennium (Strategic Plan 2009-2017, Objective 3, Target 5)

- > Please see the file attachment

You have attached the following documents to this answer.

[AEWA attachment 7.31..doc](#)

32. Has your government provided over the past triennium funds and/or logistical support for the International Waterbird Census at international or national level? (Strategic Plan 2009-2017, Objective 3, Target 1)

☒ Yes

Nationally

☒ Yes

Please provide details

> Moment in the budget, support to different researchs and censuses

Internationally

☒ No

Please explain the reasons

> no activ cooperation

Pressures and Responses

8. Education and Information

8.1. AEWA Communication Strategy

33. Has your country developed and implemented programmes for raising awareness and understanding on waterbird conservation and about AEWA? (Strategic Plan 2009-2017, Objective 3, Target 3 and AEWA Action Plan, paragraphs 6.1-6.4)

☒ Yes, being implemented

Please list major features of the programmes and details of a contact person for each programme

> - There is no specific program but conservation of waterbirds including objectives of AEWA Convention are clearly displayed in the visitor centers of the protected areas as well as in their brochures and internet pages maintained by NGOs and

nature conservation authorities.

- The so-called ""Wetland days"" are organized nearly on a yearly basis in Finland. They have been organized at wetland sites where it has been possible to focus on particular problems and solutions concerning the site.

- There is no specific program but conservation of waterbirds including objectives of AEWA Convention are clearly displayed in the visitor centers of the protected areas as well as in their brochures and internet pages maintained by NGOs and

nature conservation authorities.

- The so-called ""Wetland days"" are organized nearly on a yearly basis in Finland. They have been organized at wetland sites where it has been possible to focus on particular problems and solutions concerning the site. One of the tasks of the teams was to educate visitors of the towers about birds and their protection as well as their habitat conservation.

<http://metsa.fi>

34. Has your country provided funding and other support, as appropriate (e.g. expertise, network, skills and resources), secured for the implementation of the AEWA Communication Strategy? (Strategic Plan 2009-2017, Objective 3, Target 1 and Resolution 3.10)

☒ No

Please explain the reasons

> no activ cooperation

35. In Resolution 3.10 the Meeting of the Parties encouraged Contracting Parties to host AEWA Exchange Centres for their respective regions. Has your country considered/shown interest in hosting a Regional AEWA Exchange Centre? (Strategic Plan 2009-2017, Objective 3, Target 2 and Resolution 3.10)

☒ Yes, considered and is interested

Please provide details on the answer given above

> A renewed visitor centre in Liminganlahti will consetrate with wetland protection and international agreements, AEWA, Ramsar.

You have attached the following Web links/URLs to this answer.

<http://metsa.fi>

36. Training for CEPA (Communication, Education and Public Awareness) at national level is supposed to be conducted by staff, which has been trained in the framework of the AEWA Training of Trainers programme. Has such training taken place in your country in the past triennium? (Strategic Plan 2009-2017, Objective 3, Target 2)

Applicable only for countries in regions where Training of Trainers programme has taken place

☒ Other

Please explain

> The education of guides of visitor centers contains also knowledge of wetlands and international agreements AEWA, Ramsar

Pressures and Responses

9. Implementation

37. Has your country approached non-contracting parties to encourage them to ratify the Agreement? (Resolution 3.10)

Report only on activities over the past triennium

☒ Yes

Please list all non-contracting parties, which were approached, and describe each case, including achieved progress

› Unofficial consultation with colleagues from Russia

38. Has your country supported/developed international co-operation projects for the implementation of the Agreement, according to the priorities outlined in the AEWA International Implementation Tasks (IIT) for the current triennium? (Resolution 3.11)

☒ Yes

Please list grants provided to IIT projects, or list all undertaken initiatives and briefly provide any relevant information

› Single Species Action Plan for the Lesser White-fronted Goose Yearly support to the implementation of SSAP for the Lesser White-fronted Goose, 2009, 10 000 €, 2010, 30 000 €, 2011, 48 000 €

39. Has your country resourced the AEWA Small Grants Fund over the past triennium? (Strategic Plan 2009-2017, Objective 5, Target 5)

☒ No

Please explain the reasons

› no active cooperation

40. Does your country have in place a national coordination mechanism for implementation of AEWA, possibly linking to national coordination mechanisms for other biodiversity Multilateral Environmental Agreements (MEAs)? (Strategic Plan 2009-2017, Objective 5, Target 8)

☒ No

Please explain the reasons

› The mechanism is in preparation

41. How would you suggest promoting further links between the biodiversity MEAs to which your country is a Contracting Party, so as to make your work more efficient and effective?

› Please, see 40.

Pressures and Responses

10. Avian Influenza

42. What issues have proved challenging in responding nationally to the spread of the Highly Pathogenic Avian Influenza (HPAI) in the last triennium and what further guidance or information would be useful in this respect?

List challenges

› None

List required further guidance or information

› None

43. Have you visited and used as a reference the AIWEb (the Avian Influenza, Wildlife and the Environment web site)?

☒ Yes

Field for additional information (optional)

› Controlling animal diseases: The Ministry of Agriculture and Forestry, Department of Food and Health
The government authority: the Finnish Food Safety Authority Evira

You have attached the following Web links/URLs to this answer.

<http://mmm.fi>

<http://evira.fi>

Optionally you can provide additional information on section 10. Avian Influenza

› In Finland we have not detected any cases of bird flu H5N1 influenza viruses in wild bird populations nor poultry.

11. Confirmation

Confirmation of information verification and approval for submission

Please confirm:

In addition a scanned copy of an official letter from the relevant state institution, approving the report for submission, can be attached.

☒ I declare that the information provided in the Report on the implementation of AEWA for the period 2009-2011 has been verified and the report has been approved for submission by the appropriate state institution in the country.

Date of submission

> 03.02.2012
