

Report on the implementation of AEWA for the period 2009-2011

The format for reports on the implementation of the Agreement on the Conservation of African-Eurasian Migratory Waterbirds (AEWA) for the period 2009-2011 was approved at the 4th session of the Meeting of the Parties (15-19 September 2008, Antananarivo, Madagascar) by Resolution 4.7. Further amendments were endorsed by the Standing Committee in August 2011 in accordance with operative paragraph 11 of Resolution 4.7. This format has been constructed following the AEWA Action Plan, the AEWA Strategic Plan 2009-2017 and resolutions of the Meeting of the Parties (MOP).

In accordance with Article V.1(c) of the Agreement on the Conservation of African-Eurasian Migratory Waterbirds, each Party shall prepare to each ordinary session of the MOP a National Report on its implementation of the Agreement and submit that report to the Agreement Secretariat not later than 120 days before the session of the MOP. The 5th Session of the Meeting of the Parties (MOP5) is taking place on 14-18 May 2012 in La Rochelle, France; therefore **the deadline for submission of National Reports is 14 January 2012.**

The AEWA National Reports 2009-2011 will be compiled and submitted through the CMS Family Online Reporting Facility, which is an online reporting tool for the whole CMS Family. However, AEWA will be the first of the CMS-related treaties to use the CMS Family Online Reporting System for its reporting to MOP5. The CMS Family Online Reporting System was developed in 2010-2011 by the UNEP-World Conservation Monitoring Centre (UNEP-WCMC) in close collaboration with and under the guidance of the UNEP/AEWA Secretariat.

As a new product, the system may still need some refining and improving, we therefore request your understanding: any feedback or suggestions on your side would be greatly appreciated.

The online reporting system offers flexibility and versatility superior to the previously used paper-based reporting and the UNEP/AEWA Secretariat hopes that the Parties will find it to be more convenient and efficient. In particular, it will make information more easily accessible and also enhance ways of using it. In this context, Resolution 4.7 also requests UNEP to assist in the development of an analytical tool and calls upon Parties to support this initiative and provide financial resources and thus strengthen the online format for national reporting in collaboration with UNEP-WCMC. The online reporting system brings national reporting to a different level, enabling the information provided to be used much more effectively; it also serves as a tool for self-assessment by Parties. In addition, it can help to enhance cooperation and coordination between various stakeholders in your country by making the national reporting more of a collective, collaborative and continuous process.

To contact the UNEP/AEWA Secretariat please send your inquiries to aewa_national_reporting@unep.de.

1. General Information

Name of reporting Contracting Party

> Latvia

Date of entry into force of AEWA in the Contracting Party

> 01.01.2006

List any reservations that the Contracting Party has made (if any) upon deposition of its instruments of accession on provisions of the Agreement or its Action Plan in accordance with Article XV of AEWA

> None

2. Institutional Information

Please update information on the National AEWA Administrative Authority, the National Focal Points, the Designated National Respondent and the other contributors to this report.

Designated National AEWA Administrative Authority

Full name of the institution

› Ministry of Environmental Protection and Regional Development

Name and title of the head of institution

› Mr Guntis Puķtis State Secretary

Mailing address - Street and number

› Peldu Str. 25

Postal code

› LV-1494

City

› Riga

Country

› Latvia

Telephone

› +371 67026524

Fax

› + 371 67820442

E-mail

Institute of Biology Laboratory of Ornithology

Status

3. Species Status

Please select from the drop-down list below only the species that occur in your country

AEWA Species - *Gavia stellata* / Red-throated Diver

English Common name(s):

Red-throated Diver, Red-throated Loon

French Common name(s):

Plongeon catmarin

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

☒ The species occurs in the country

Native or non-native species

Please confirm whether the species is native or non-native to your country

☒ Native

AEWA Table 1 Categorisation

Please indicate the AEWA Table 1 category(ies) applicable to the population(s) of this species occurring in the country.

☒ Column B - Category 2(c)

Species Status - Breeding

Does the species occur in the country during the breeding period?

☒ No

Species Status - Passage

Does the species occur in the country during the passage period?

☒ Yes

Are quantitative estimates for the passage numbers available?

☒ No

Please provide a qualitative estimate for the passage numbers

☒ Frequent, but small numbers

Species Status - Non-breeding/wintering

Does the species occur in the country during the non-breeding/wintering period?

☒ Yes

Latest population estimate

Legal Status

(measures as per paragraph 2.1.1 of the AEWA Action Plan - applicable to species with populations listed on Column A of the AEWA Table 1)

Taking of birds and eggs prohibited

☒ Yes

Deliberate disturbance prohibited

☒ Yes

Possession or utilization of, and trade in, birds, eggs or any readily recognisable parts or derivatives prohibited

☒ Yes

National Red List Status

Is a National Red List of threatened species maintained in your country?

☒ No

AEWA Species - Branta bernicla / Brent Goose

English Common name(s):

Brent Goose

French Common name(s):

Bernache cravant

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

☒ The species occurs in the country

Native or non-native species

Please confirm whether the species is native or non-native to your country

☒ Native

Species Status - Breeding

Does the species occur in the country during the breeding period?

☒ No

Species Status - Passage

Does the species occur in the country during the passage period?

☒ Yes

Are quantitative estimates for the passage numbers available?

☒ No

Please provide a qualitative estimate for the passage numbers

☒ Infrequent and small numbers

Species Status - Non-breeding/wintering

Does the species occur in the country during the non-breeding/wintering period?

☒ No

Legal Status

(measures as per paragraph 2.1.1 of the AEWA Action Plan - applicable to species with populations listed on Column A of the AEWA Table 1)

Taking of birds and eggs prohibited

☒ Yes

Deliberate disturbance prohibited

☒ Yes

Possession or utilization of, and trade in, birds, eggs or any readily recognisable parts or derivatives prohibited

☒ Yes

National Red List Status

Is a National Red List of threatened species maintained in your country?

☒ No

AEWA Species - *Branta ruficollis* / Red-breasted Goose

English Common name(s):

Red-breasted Goose

French Common name(s):

Bernache à cou roux

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

Legal Status

(measures as per paragraph 2.1.1 of the AEWA Action Plan - applicable to species with populations listed on Column A of the AEWA Table 1)

Taking of birds and eggs prohibited

☒ Yes

Deliberate disturbance prohibited

☒ Yes

Possession or utilization of, and trade in, birds, eggs or any readily recognisable parts or derivatives prohibited

☒ Yes

National Red List Status

Is a National Red List of threatened species maintained in your country?

☒ No

AEWA Species - *Cephus grylle* / Black Guillemot

English Common name(s):

Black Guillemot

French Common name(s):

Guillemot à miroir

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

☒ The species occurs in the country

Native or non-native species

Please confirm whether the species is native or non-native to your country

☒ Native

AEWA Table 1 Categorisation

Please indicate the AEWa Table 1 category(ies) applicable to the population(s) of this species occurring in the country.

☒ Column B - Category 2(a)

Species Status - Breeding

Does the species occur in the country during the breeding period?

☒ No

Species Status - Passage

Does the species occur in the country during the passage period?

☒ Yes

Are quantitative estimates for the passage numbers available?

☒ No

Please provide a qualitative estimate for the passage numbers

☒ Regular, but small numbers

Species Status - Non-breeding/wintering

Does the species occur in the country during the non-breeding/wintering period?

☒ Yes

Latest population estimate

Year

Pressures and Responses

4. Species Conservation

4.1 Legal Measures

1. Were any exemptions granted to the prohibitions laid down in paragraphs 2.1.1 and 2.1.2 of the AEWA Action Plan? (AEWA Action Plan, paragraph 2.1.3)

☒ Yes

Please provide information on each species for which exemption was granted

Exemption for *Phalacrocorax carbo* / Great Cormorant

Purpose of exemption (from the AEWA Action Plan)

☒ (a) To prevent serious damage to crops, water and fisheries

Number of individuals for which exemption was granted

> 80 and 80

Number of eggs for which exemption was granted

> 0

Territorial coverage of the exemption

> Nagli fish farm

Time span of the exemption

> 01.06-15.11

Year when the exemption was granted

> 2009 and 2010

Additional information on this exemption (alternatively provide a web link or attach a file)

> Shooting by gun

Exemption for *Ciconia nigra* / Black Stork

Purpose of exemption (from the AEWA Action Plan)

☒ (c) For the purpose of research and education, of re-establishment and for the breeding necessary for these purposes

Number of individuals for which exemption was granted

> 12 dead chicks

Number of eggs for which exemption was granted

> 16 damaged eggs

Territorial coverage of the exemption

> Latvia

Time span of the exemption

> 15.04-31.08 and 18.04-31.08

Year when the exemption was granted

> 2009 and 2010

Additional information on this exemption (alternatively provide a web link or attach a file)

> Dead chicks and damaged eggs for DDT analysis

Exemption for *Ciconia ciconia* / White Stork

Purpose of exemption (from the AEWA Action Plan)

☒ (e) For the purpose of enhancing the propagation or survival of the populations concerned

Number of individuals for which exemption was granted

> 12

Number of eggs for which exemption was granted

> 0

Territorial coverage of the exemption

> Latvia

Time span of the exemption

> 14.04-23.10

Year when the exemption was granted

> 2010

Additional information on this exemption (alternatively provide a web link or attach a file)

> Keeping and caring for wounded birds

Exemption for *Mergus merganser* / Goosander

Purpose of exemption (from the AEWA Action Plan)

☒ (e) For the purpose of enhancing the propagation or survival of the populations concerned

Number of individuals for which exemption was granted

> 1

Number of eggs for which exemption was granted

> 0

Territorial coverage of the exemption

> Latvia

Time span of the exemption

> 18.05-01.10

Year when the exemption was granted

> 2010

Additional information on this exemption (alternatively provide a web link or attach a file)

> Keeping and caring of wounded bird

Optionally you can provide additional information on section 4.1. Legal Measures

> Exemptions to the prohibitions laid down in paragraphs 2.1.1, 2.1.2 and 2.1.3 are granted through specific licenses (single use permits) by the Nature Protection Board.

4.2 Single Species Action Plans

2. Please report on the progress of turning the International Single Species Action Plans (ISSAP), for species whose populations are listed on Column A of Table 1, developed under or recognised by AEWA, into National Single Species Action Plans (NSSAP). (AEWA Action Plan, paragraph 2.2)

Please clarify the relevance of the AEWA International Single Species Action Plans or the other recognised plans (Dalmatian Pelican, Pygmy Cormorant, Red-breasted Goose, Marbled Teal, Slender-billed Curlew and Audouin's Gull) to your country

☒ At least one of the International Single Species Action Plans is relevant

Please report on each relevant ISSAP

National Single Species Action Plan for *Crex crex* / Corncrake

For *Crex crex* / Corncrake

☒ No NSSAP

Please explain the reasons

> SSAP was drafted as example for single species management plan format. Limited funding

National Single Species Action Plan for *Gallinago media* / Great Snipe

For *Gallinago media* / Great Snipe

☒ No NSSAP

Please explain the reasons

› SSAP was drafted as example for single species management plan format. Limited funding

National Single Species Action Plan for *Limosa limosa* / Black-tailed Godwit

For *Limosa limosa* / Black-tailed Godwit

☒ No NSSAP

Please explain the reasons

› Limited funding

National Single Species Action Plan for *Aythya nyroca* / Ferruginous Duck

For *Aythya nyroca* / Ferruginous Duck

☒ No NSSAP

Please explain the reasons

› In passage- infrequent and small numbers.

3. Do you have in place or are you developing a National Single Species Action Plan for any species/population for which an AEWA ISSAP has not been developed? (AEWA Action Plan, paragraph 2.2.2)

☒ Yes

Please provide information on each species for which relevant action has been undertaken

National Single Species Action Plan for *Ciconia nigra* / Black Stork

For *Ciconia nigra* / Black Stork

☒ NSSAP in place and being implemented

Please provide details

› *Ciconia nigra* Species Management Plan for Latvia was adopted by Ministerial Order No 140 in 14.04.2005

4. Did you use the AEWA Guidelines for the preparation of National Single Species Action Plans for migratory waterbirds?

☒ No

Please explain the reasons. What has been used instead as a basis for the preparation of NSSAPs?

› National single Species Action Plan was elaborated in accordance with Ministerial Order on Species Conservation Plans

4.3 Emergency Measures

5. Please report on any emergency situation that has occurred in your country over the past triennium and has threatened waterbirds. (AEWA Action Plan, paragraph 2.3)

Please indicate whether an emergency situation threatening waterbirds, such as botulism, chemical pollution, earthquake, extreme weather, fire, harmful algal bloom, infectious disease, introduction of alien species, lead poisoning, nuclear accident, oil spill, predation, volcanic activity, war or other emergency (please specify), has occurred in the country over the past triennium

☒ No emergency situation has occurred

6. Are there any other emergency measures, which were not mentioned above, but were developed and are in place in your country?

☒ No

7. Did you use the AEWA Guidelines on identifying and tackling emergency situations for migratory waterbirds?

☒ No

4.4 Re-establishments

8. Is there a regulatory framework for re-establishments of species, including waterbirds, in your country (AEWA Action Plan, paragraph 2.4)?

☒ No

Please provide details

> No need

9. Are you maintaining a national register of re-establishment projects occurring or planned to occur wholly or partly within your country? (Resolution 4.4)

☒ No

Please explain the reasons

> No re-establishment projects planed

10. Has your country considered, developed or implemented re-establishment projects for any species listed on AEWA Table 1? (AEWA Action Plan, paragraph 2.4)

☒ No

4.5 Introductions

11. Does your country have legislation in place, which prohibits the introduction of non-native species of animals and plants, which may have a detrimental effect? (AEWA Action Plan, paragraph 2.5.1)

☒ Yes, and being enforced

Please provide the following details: title of legislation, year of adoption, institution that adopted it, institution that enforces it

> Species and Habitats Protection Law (adopted in 2000 by Parliament)

Animal Protection Law (adopted in 2000 by Parliament)

Cabinet of Ministers Regulations No 1165 Order on issuance of permits for taking of non- game species, introduction and reintroduction.(2010).

Nature Protection Board is responsible institution on issuance of permits and enforcement

12. Has your country introduced requirements to zoos, private collections, etc. in order to avoid the accidental escape of captive birds belonging to non-native species? (AEWA Action Plan, paragraph 2.5.2)

☒ Yes, and being enforced

Please provide the following details: title of the document, year of adoption, institution that adopted it, institution that enforces it

> Animal Protection Law (adopted in 2000 by Parliament)

Cabinet of Minesters Regulations Nr 1033 "On requirement of wild species in zoo and requirement on establishment and registration of zoo" (2010)

Nature Protection Board is responsible on enforcement

13. Does your country have in place a National Action Plan for Invasive Species (NAPIS) (in the framework of other MEAs, such as CBD, Bern Convention, and GISP (Global Invasive Species Programme) (Strategic Plan 2009-2017, Objective 1, Target 5)?

☒ No

Please explain the reasons

> No need for action plan

14. Has an eradication programme been considered, developed or implemented for any non-native waterbird species in your country?

☒ No

Please explain the reasons

> No need for eradication programm

15. Did you use the AEWA Guidelines on avoidance of introductions of non-native waterbird species?

☒ No

Please explain the reasons. What was used instead as a basis for dealing with the issue?

› Prohibition for introduction

Pressures and Responses

5. Habitat Conservation

5.1 Habitat Inventories

16. Has your country identified the network of all sites of international and national importance for the migratory waterbird species/populations listed on Table 1? (AEWA Action Plan, paragraph 3.1.2)

☒ Yes

Please provide full reference, e.g. title, year, authors, etc. or a web link

> "Important Bird Areas of European Union Importance in Latvia" Compiled by Edmunds Račinskis (2004)

Field for additional information (optional)

> A comprehensive inventory of specially protected and potentially protected territories (including also territories with wetlands) in Latvia was carried out in 2001-2004 during the establishment of Natura 2000 network.

In 2007 additional inventories were carried out in the Ramsar site "Lubana Wetland Complex" and its surroundings in order to establish unified specially protected territory around the Lubana lake according to the provisions of the European Commission.

17. If your country has identified or is currently identifying the networks of sites of international and national importance, have you used the AEWA Guidelines on the preparation of site inventories for migratory waterbirds?

☒ Yes

Please provide details

> Migratory birds are only one component.

5.2. Conservation of Areas

18. Which sites that were identified as important, either internationally or nationally, for Table 1 migratory waterbird species/populations have been designated as protected areas under the national legislation and have management plans that are being implemented? (AEWA Action Plan, paragraph 3.2.1)

Please report on both internationally and nationally important sites

☒ Reporting on designation and management of internationally important sites

☒ Reporting on designation and management of nationally important sites

All sites of international importance

Total number

> 71

Total area (ha)

> 873526

Out of the above total: number of protected sites

> 71

Out of the above total: protected area (ha)

> 873526

Number of protected sites with management plans in place which are being implemented

> 21

Area under protection (in ha) covered by management plans which are being implemented

> 366917

All sites of national importance

Total number

> 331

Total area (ha)

> 1246921

Out of the above total: number protected sites

> 331

Out of the above total: protected area (ha)

> 1246921

Number of protected sites with management plans in place which are being implemented

> 32

Area under protection (in ha) covered by management plans which are being implemented

> 480417

19. Has your country used the AEWA Guidelines on the management of key sites for migratory waterbirds?

☒ Yes

Please provide details

> For many of important areas under protection management plans are implemented, for several territories management plans are in development.

Several aspects from Guidelines used during site assesment, establishment of protected areas.

20. Have you accessed and used the Critical Site Network (CSN) Tool for the AEWA area?

☒ No

Please explain the reasons

> Critical Site Network (CSN) Tool was not used before. Good perspective for future. Promotion of CSN will faciliate use for practical nature conservation action as well for education purposes

Pressures and Responses

6. Management of Human Activities

6.1. Hunting

21. Does your country have an established system for the collection of harvest data, which covers the species listed in Table 1? (AEWA Action Plan, paragraph 4.1.3)

☒ Yes

Does it cover the following? (tick where applicable and provide details)

☒ All AEWA species occurring in your country

› In accordance with Cabinet of Ministers Regulations No 760 "Hunting Regulations" (2003) Obligation to report all game species harvest to State Forest Service.

☒ The whole territory of your country

› "Hunting Regulations" cover whole territory of country

☒ All harvesting activities

› All harvested animals (birds) should be reported to State Forest Service

Field for additional information (optional)

› There is a statutory requirement for hunters to report information on the number of waterbirds shot during hunting season to State Forest Service.

Annual monitoring of the game bag is done by State Forest Service.

22. Has your country phased out the use of lead shot for hunting in wetlands? (AEWA Action Plan, paragraph 4.1.4)

☒ Partially

When was the lead shot use in wetlands banned? What legislation is in place? Who does enforce this legislation? What % of the country's territory is covered by the ban?

› The use of lead ammunition is banned for waterbirds hunting in nature reserves by Cabinet of Ministers rules No 415 adopted in 22.07.2004, replaced by rules No 264 in 16.03.2010 and in other areas where ban introduced by particular nature area individual use and management rules. The ban covers all main waterbirds hunting areas. Control: State Forest Service, Nature Protection Board and State Police

Have you introduced self-imposed and published timetable for banning fully the use of lead shot for hunting in wetlands?

☒ No

Please explain the reasons

› In all main wetlands lead ammunition prohibition introduced, very limited hunting.

23. Are there measures in your country to reduce/eliminate illegal taking? (AEWA Action Plan, paragraph 4.1.6)

☒ Yes

How would you rate the effectiveness of the measures?

☒ High

Please provide details

› No traditions for illegal taking (illegal methods or other forms of poaching)

24. Has your country used the AEWA Guidelines on sustainable harvest of migratory birds?

☒ Yes

Please provide details

› Sustainable harvest is general principle for setting of hunting seasons and rules

6.2. Other human activities

25. Does your country have legislation in place, which provides for Strategic Environmental Assessment/Environmental Impact Assessment (SEA/EIA) of activities potentially negatively affecting natural habitats or wildlife? (AEWA Action Plan, paragraph 4.3.1)

☒ Yes and being implemented

Do the SEA/EIA processes consider waterbirds and habitats on which they depend?

☒ Yes

Please provide details

› Environmental impact assessment is carried out in accordance with the provisions stipulated in the “Law on Environmental Impact Assessment” The Law incorporate legal provisions resulting from the EU Directives 85/337/EEC, 97/11/EC, 92/43/EEC, 2001/42/EC, 2003/35/EC and 92/43/EEC. Cabinet of Ministers Regulations determine order of EIA procedure.

Do the SEA/EIA processes include public participation?

☒ Yes

Please provide details

› Public participation is obligatory part of each EIA process

26. In the last three years, has your country used SEA/EIA for all relevant projects to assess the impact of proposed projects on migratory waterbird species listed on table 1 and/or habitats/sites on which they depend? (AEWA Action Plan, paragraph 4.3.1)

☒ Yes, all proposed projects

Please provide information on the outstanding cases

› Windfarm development projects in Kurzeme

27. Is by-catch of waterbirds in fishing gear taking place in your country? (Resolution 3.8)

☒ Yes

Please provide details

› Limited fisheries in inland lakes and rivers. By-catch of waterbirds in costal marine fisheries

28. Has your country undertaken steps towards the adoption/application of measures to reduce the incidental catch of seabirds and combat Illegal Unregulated and Unreported (IUU) fishing practices in the Agreement area? (Resolution 3.8)

☒ Yes

Please provide short description of all actions

› Fishing equipment development, fishing seasonal prohibitions

Pressures and Responses

7. Research and Monitoring

29. Does your country have waterbird monitoring schemes for the AEWA species in place? (Strategic Plan 2009-2017, Objective 3, Target 2)

☒ Yes

Covering the breeding period

☒ Partially

Please provide details

- > - Survey of duck and wader nests on permanent study plots and following their fate till hatching or destruction and survey of nesting larids and mapping of colonies on whole Lake Engure, survey of aquatic invertebrates.
- Monitoring of breeding success of the White Stork
- Assessment of the breeding population of White Stork
- Monitoring of farmland birds and habitats

Covering the passage/migration period

☒ Partially

Please provide details

- > Migratory birds ringing

Covering the non-breeding/wintering period

☒ Partially

Please provide details

- > - Monitoring of migrating cranes, geese and swans
- Wintering waterfowl count was carried out, in total 42 coastal and 170 inland sites were checked.
- Monitoring of Great Snipe leks, Lesser Spotted Eagle and Black Stork.

30. Have you used the AEWA Guidelines for a waterbird monitoring protocol?

☒ Yes

Please provide details

- > "Birds monitoring" is part of chapter Biological Diversity Monitoring Sub-Programm in State Environmental Monitoring Programm. Methodology of specialize birds monitoring. Natura 2000 sites monitoring methods. Involment of professionals as well as volunteers.

31. List (or provide links to lists) of research related to waterbirds and their conservation that has been undertaken or results published in the past triennium (Strategic Plan 2009-2017, Objective 3, Target 5)

- > "Synopsis on night birds monitoring" O.Keiss (LOB)(2010) (www.daba.gov.lv)
- "Day birds monitoring" A.Aunins (2010) (www.daba.gov.lv)
- "Mire conservation and Management in Especially Protected Nature Areas in Latvia" M.Pakalne (red.) (2008) (www.ldf.lv)
- "Actual problematic of species and habitats management in Latvia" A. Aunins (red.) (2008)(www.ldf.lv)
- Magazine "Putni dabā" 9"Birds in Nature") issued by Latvian Ornithological Society four times a year.
- Internet portal: www.putni.lv
- Study of migration patterns according ringing records.Latvian birds ringing centre a member of EURING (www.lubi.edu.lv)
- Biodiversity Monitoring data (daba.gov.lv)

32. Has your government provided over the past triennium funds and/or logistical support for the International Waterbird Census at international or national level? (Strategic Plan 2009-2017, Objective 3, Target 1)

☒ No

Please explain the reasons

- > Lack of financial resources during last triennium

Pressures and Responses

8. Education and Information

8.1. AEWA Communication Strategy

33. Has your country developed and implemented programmes for raising awareness and understanding on waterbird conservation and about AEWA? (Strategic Plan 2009-2017, Objective 3, Target 3 and AEWA Action Plan, paragraphs 6.1-6.4)

☒ Other

Please explain

› Awareness raising on Nature and Natural Species (not particular to waterbirds)

Field for additional information (optional)

› - The Natural History Museum of Latvia gathers and maintains collections of natural specimens from Latvia and the world, does scientific research on the collections and popularizes them in permanent and temporary exhibits and other display activities.

- Magazine "Putni dabā": information about birds, but also about environmental problems in general. For example, about logging, environment-friendly farming, Bird's watchers tournament "Tornu cinas" organized by LOB traditionally attracts interest of press and general public.

Internet portal: www.dabasdati.lv

Internet portal: www.putni.lv

34. Has your country provided funding and other support, as appropriate (e.g. expertise, network, skills and resources), secured for the implementation of the AEWA Communication Strategy? (Strategic Plan 2009-2017, Objective 3, Target 1 and Resolution 3.10)

☒ No

Please explain the reasons

› Lack of finance resources

35. In Resolution 3.10 the Meeting of the Parties encouraged Contracting Parties to host AEWA Exchange Centres for their respective regions. Has your country considered/shown interest in hosting a Regional AEWA Exchange Centre? (Strategic Plan 2009-2017, Objective 3, Target 2 and Resolution 3.10)

☒ Not considered yet

Please provide details on the answer given above

› No information on Exchange centre in region

36. Training for CEPA (Communication, Education and Public Awareness) at national level is supposed to be conducted by staff, which has been trained in the framework of the AEWA Training of Trainers programme. Has such training taken place in your country in the past triennium? (Strategic Plan 2009-2017, Objective 3, Target 2)

Applicable only for countries in regions where Training of Trainers programme has taken place

☒ No

Please explain the reasons

› No specific training on AEWA. Public Awareness, Communication and Education training on Biodiversity Conservation

Pressures and Responses

9. Implementation

37. Has your country approached non-contracting parties to encourage them to ratify the Agreement? (Resolution 3.10)

Report only on activities over the past triennium

☒ No

Please explain the reasons

› Informal private discussions with non-party state experts and NGO

38. Has your country supported/developed international co-operation projects for the implementation of the Agreement, according to the priorities outlined in the AEWA International Implementation Tasks (IIT) for the current triennium? (Resolution 3.11)

☒ No

Please explain the reasons

› Waterbirds conservation is one part of international co-operation in Nature Protection

39. Has your country resourced the AEWA Small Grants Fund over the past triennium? (Strategic Plan 2009-2017, Objective 5, Target 5)

☒ No

Please explain the reasons

› Lack of financial resources

40. Does your country have in place a national coordination mechanism for implementation of AEWA, possibly linking to national coordination mechanisms for other biodiversity Multilateral Environmental Agreements (MEAs)? (Strategic Plan 2009-2017, Objective 5, Target 8)

☒ Yes, it is operational on a regular basis

Please provide details

› Good coordination. One focal point for all CMS family agreements. Small number of involved person in nature conservation

41. How would you suggest promoting further links between the biodiversity MEAs to which your country is a Contracting Party, so as to make your work more efficient and effective?

› Develop close linkages and synergies, in particular with Ramsar.

Closer cooperation between the treaties: the Ornithological Committee of the Birds Directive has developed action plans for a number of quarry species of waterbirds with unfavourable conservation status in the EU. Although these have yet to be implemented, there is significant potential for collaboration in their development for the whole of the relevant biogeographical populations.

Pressures and Responses

10. Avian Influenza

42. What issues have proved challenging in responding nationally to the spread of the Highly Pathogenic Avian Influenza (HPAI) in the last triennium and what further guidance or information would be useful in this respect?

List challenges

› Approach from all different sectors (Veterinary, Health, Farming, Hunters, Biologists, Animal Welfare, Nature Conservation etc.) was pragmatic and practical.

Liflets on Avian influenza were elaborated and distributed (attached)

You have attached the following documents to this answer.

[Vai Tu zini, kas ir putnu gripa.pdf](#)

[Miti un patiesiba par putnu gripu.pdf](#)

List required further guidance or information

› No specific need for further guidance or information at this stage

43. Have you visited and used as a reference the AIWEb (the Avian Influenza, Wildlife and the Environment web site)?

☒ No

11. Confirmation

Confirmation of information verification and approval for submission

Please confirm:

In addition a scanned copy of an official letter from the relevant state institution, approving the report for submission, can be attached.

☒ I declare that the information provided in the Report on the implementation of AEWA for the period 2009-2011 has been verified and the report has been approved for submission by the appropriate state institution in the country.

You have attached the following documents to this answer.

[AEWA_LV.jpg](#)

Date of submission

> 12.01.2012
