

Report on the implementation of AEWA for the period 2009-2011

The format for reports on the implementation of the Agreement on the Conservation of African-Eurasian Migratory Waterbirds (AEWA) for the period 2009-2011 was approved at the 4th session of the Meeting of the Parties (15-19 September 2008, Antananarivo, Madagascar) by Resolution 4.7. Further amendments were endorsed by the Standing Committee in August 2011 in accordance with operative paragraph 11 of Resolution 4.7. This format has been constructed following the AEWA Action Plan, the AEWA Strategic Plan 2009-2017 and resolutions of the Meeting of the Parties (MOP).

In accordance with Article V.1(c) of the Agreement on the Conservation of African-Eurasian Migratory Waterbirds, each Party shall prepare to each ordinary session of the MOP a National Report on its implementation of the Agreement and submit that report to the Agreement Secretariat not later than 120 days before the session of the MOP. The 5th Session of the Meeting of the Parties (MOP5) is taking place on 14-18 May 2012 in La Rochelle, France; therefore **the deadline for submission of National Reports is 14 January 2012.**

The AEWA National Reports 2009-2011 will be compiled and submitted through the CMS Family Online Reporting Facility, which is an online reporting tool for the whole CMS Family. However, AEWA will be the first of the CMS-related treaties to use the CMS Family Online Reporting System for its reporting to MOP5. The CMS Family Online Reporting System was developed in 2010-2011 by the UNEP-World Conservation Monitoring Centre (UNEP-WCMC) in close collaboration with and under the guidance of the UNEP/AEWA Secretariat.

As a new product, the system may still need some refining and improving, we therefore request your understanding: any feedback or suggestions on your side would be greatly appreciated.

The online reporting system offers flexibility and versatility superior to the previously used paper-based reporting and the UNEP/AEWA Secretariat hopes that the Parties will find it to be more convenient and efficient. In particular, it will make information more easily accessible and also enhance ways of using it. In this context, Resolution 4.7 also requests UNEP to assist in the development of an analytical tool and calls upon Parties to support this initiative and provide financial resources and thus strengthen the online format for national reporting in collaboration with UNEP-WCMC. The online reporting system brings national reporting to a different level, enabling the information provided to be used much more effectively; it also serves as a tool for self-assessment by Parties. In addition, it can help to enhance cooperation and coordination between various stakeholders in your country by making the national reporting more of a collective, collaborative and continuous process.

To contact the UNEP/AEWA Secretariat please send your inquiries to aewa_national_reporting@unep.de.

1. General Information

Name of reporting Contracting Party

> Libya

Date of entry into force of AEWA in the Contracting Party

> 01/06/2005

List any reservations that the Contracting Party has made (if any) upon deposition of its instruments of accession on provisions of the Agreement or its Action Plan in accordance with Article XV of AEWA

> None

2. Institutional Information

Please update information on the National AEWA Administrative Authority, the National Focal Points, the Designated National Respondent and the other contributors to this report.

Designated National AEWA Administrative Authority

Full name of the institution

› Nature conservation department, Environment general Authority

Name and title of the head of institution

› Nuri. E. Almarghani assistant director of EGA

Mailing address - Street and number

› Algheran Tripoli- Libya

Species Status - Field for additional information (optional)

Optionally you can provide additional information on the status of the species in the country

> A male in breeding plumage was well watched on 28 January 2008 at Hijarah Lake near Sebha, 1,500 kms into the desert at 28°N, in the 2008 mid-winter survey.

Pressures and Responses

4. Species Conservation

4.1 Legal Measures

1. Were any exemptions granted to the prohibitions laid down in paragraphs 2.1.1 and 2.1.2 of the AEWA Action Plan? (AEWA Action Plan, paragraph 2.1.3)

☒ No

4.2 Single Species Action Plans

2. Please report on the progress of turning the International Single Species Action Plans (ISSAP), for species whose populations are listed on Column A of Table 1, developed under or recognised by AEWA, into National Single Species Action Plans (NSSAP). (AEWA Action Plan, paragraph 2.2)

Please clarify the relevance of the AEWA International Single Species Action Plans or the other recognised plans (Dalmatian Pelican, Pygmy Cormorant, Red-breasted Goose, Marbled Teal, Slender-billed Curlew and Audouin's Gull) to your country

☒ None of the International Single Species Action Plans is relevant

3. Do you have in place or are you developing a National Single Species Action Plan for any species/population for which an AEWA ISSAP has not been developed? (AEWA Action Plan, paragraph 2.2.2)

☒ Yes

Please provide information on each species for which relevant action has been undertaken

National Single Species Action Plan for *Sterna bengalensis* / Lesser Crested Tern

For *Sterna bengalensis* / Lesser Crested Tern

☒ NSSAP in place and being implemented

Please provide details

> EGA started studying the important sites for lesser crested tern nests which is tree sites in Libya the major one is Al elba island it host more than 100 nest and number increased, it is about 12 km far from the sea shore, the tow other sites hosting 120 nest and 25 nest, we started ringing program with tree different colors of rings to simplify the recognition of the tree different populations, in 2010 one of the sites designated as MPA, EGA has site up master plane to designate the major island as MPA too, the smallest islet which located in side Banghaze city faced some problems in 2010 which cause the loss of around 120 nest, this year Libyan bird society with collaboration with EGA started program to restore and expansion for the site to improve nesting and increase nests this program funded by Conservatoire du littoral

4. Did you use the AEWA Guidelines for the preparation of National Single Species Action Plans for migratory waterbirds?

☒ No

4.3 Emergency Measures

5. Please report on any emergency situation that has occurred in your country over the past triennium and has threatened waterbirds. (AEWA Action Plan, paragraph 2.3)

Please indicate whether an emergency situation threatening waterbirds, such as botulism, chemical pollution, earthquake, extreme weather, fire, harmful algal bloom, infectious disease, introduction of alien species, lead poisoning, nuclear accident, oil spill, predation, volcanic activity, war or other emergency (please specify), has occurred in the country over the past triennium

☒ No emergency situation has occurred

6. Are there any other emergency measures, which were not mentioned above, but were developed and are in place in your country?

☒ Yes

Please provide information on each emergency situation for which measures have been developed and are in place

Measures for Other emergency

Shortly describe the emergency measures in place in your country

> In one islet where lesser crested tern nesting (juliana lake) two years ago the government has started developing the area with new building, they were drying up the lake which cause losing around 100 nests

7. Did you use the AEWA Guidelines on identifying and tackling emergency situations for migratory waterbirds?

☒ No

Please explain the reasons. What was used instead as a basis for dealing with emergency situations?

> There is no national guidelines regarding this issue and the action during emergency situations depend on the situation

4.4 Re-establishments

8. Is there a regulatory framework for re-establishments of species, including waterbirds, in your country (AEWA Action Plan, paragraph 2.4)?

☒ No

Please provide details

> Birds protection is enforced within the framework on the Libyan institutes that working in conservation which EGA one of them, we use the national legislations.

9. Are you maintaining a national register of re-establishment projects occurring or planned to occur wholly or partly within your country? (Resolution 4.4)

☒ No

Please explain the reasons

> lack of capacity and finance

10. Has your country considered, developed or implemented re-establishment projects for any species listed on AEWA Table 1? (AEWA Action Plan, paragraph 2.4)

☒ No

4.5 Introductions

11. Does your country have legislation in place, which prohibits the introduction of non-native species of animals and plants, which may have a detrimental effect? (AEWA Action Plan, paragraph 2.5.1)

☒ Yes, and being enforced

Please provide the following details: title of legislation, year of adoption, institution that adopted it, institution that enforces it

> Libya using SITES regulations, also law No 15 which organize introducing species.

Field for additional information (optional)

> EGA is preparing a national legislation dealing with invasive and alien species, to be approved later by the government

12. Has your country introduced requirements to zoos, private collections, etc. in order to avoid the accidental escape of captive birds belonging to non-native species? (AEWA Action Plan, paragraph 2.5.2)

☒ No

Please explain the reasons

> Lack of arrangements and communications

13. Does your country have in place a National Action Plan for Invasive Species (NAPIS) (in the framework of other MEAs, such as CBD, Bern Convention, and GISP (Global Invasive Species Programme) (Strategic Plan 2009-2017, Objective 1, Target 5)?

☒ No

Please explain the reasons

> Lack of researches regarding this issue and communications, but there are some activities in place for this

issue in the national level.

14. Has an eradication programme been considered, developed or implemented for any non-native waterbird species in your country?

☒ Not applicable

Please explain

> there is no non-native waterbird species.

15. Did you use the AEWA Guidelines on avoidance of introductions of non-native waterbird species?

☒ No

Please explain the reasons. What was used instead as a basis for dealing with the issue?

> there is no non-native waterbird species

Pressures and Responses

5. Habitat Conservation

5.1 Habitat Inventories

16. Has your country identified the network of all sites of international and national importance for the migratory waterbird species/populations listed on Table 1? (AEWA Action Plan, paragraph 3.1.2)

☒ Yes

Please provide full reference, e.g. title, year, authors, etc. or a web link

> in the Atlas of wintering waterbirds of Libya 2005-2010 we listed all the sites in Libya and which one has international or national important and which has potential international or national for each birds that exist in Libya

17. If your country has identified or is currently identifying the networks of sites of international and national importance, have you used the AEWA Guidelines on the preparation of site inventories for migratory waterbirds?

☒ Yes

Please provide details

> EGA started the waterbirds survey in 2005 with support from AEWA and collaborating with RCA/SPA we create international team during the 6 years of survey we trained national team, during the surveys we discovered all the wetland in Libya and we visit them at least one time for the sites that not hold interesting numbers and species, and also with RAC/SPA we carried out a ringing program for lesser crested tern which more than 90% of the Mediterranean population nesting in Libya, reports are distributed in RAC/SPA website, and now we are publishing Atlas of wintering waterbirds of Libya 2005-2010 it will include all information about waterbirds in Libya with wetlands

5.2. Conservation of Areas

18. Which sites that were identified as important, either internationally or nationally, for Table 1 migratory waterbird species/populations have been designated as protected areas under the national legislation and have management plans that are being implemented? (AEWA Action Plan, paragraph 3.2.1)

Please report on both internationally and nationally important sites

☒ Reporting on designation and management of internationally important sites

☒ Reporting on designation and management of nationally important sites

All sites of international importance

Total number

> 8

Out of the above total: number of protected sites

> 1

Out of the above total: protected area (ha)

> 1

Number of protected sites with management plans in place which are being implemented

> 0

All sites of national importance

Total number

> 58

Out of the above total: number protected sites

> 3

Out of the above total: protected area (ha)

> 2

Number of protected sites with management plans in place which are being implemented
> 1

19. Has your country used the AEWA Guidelines on the management of key sites for migratory waterbirds?

☒ No

Please explain the reasons. What guidance has been used instead?

> In Libya there just two RAMSAR sites and the other two just designated one year ago

20. Have you accessed and used the Critical Site Network (CSN) Tool for the AEWA area?

☒ Yes

Please give examples of how you have used the CSN Tool

> EGA studied the IBAS and identified the international and national important sites for birds

Pressures and Responses

6. Management of Human Activities

6.1. Hunting

21. Does your country have an established system for the collection of harvest data, which covers the species listed in Table 1? (AEWA Action Plan, paragraph 4.1.3)

☒ Yes

Does it cover the following? (tick where applicable and provide details)

- ☒ All AEWA species occurring in your country
- ☒ Only some AEWA species occurring in your country
- ☒ The whole territory of your country
- ☒ Only part of the territory of your country
- ☒ Only some harvesting activities

22. Has your country phased out the use of lead shot for hunting in wetlands? (AEWA Action Plan, paragraph 4.1.4)

☒ No

Please explain the reasons

› A plan has been prepared but not implemented yet due to lack of awareness.

Have you introduced self-imposed and published timetable for banning the use of lead shot for hunting in wetlands?

☒ No

Please explain the reasons

› Hunting is prohibited, even if there is some illegal hunting in some places, because un forced legislations or weak and lack of awareness

23. Are there measures in your country to reduce/eliminate illegal taking? (AEWA Action Plan, paragraph 4.1.6)

☒ Yes

How would you rate the effectiveness of the measures?

☒ Low

Please provide details

› The low of prohibit hunting is exist but it is enforced just within protected areas

24. Has your country used the AEWA Guidelines on sustainable harvest of migratory birds?

☒ No

Please explain the reasons. What other guidance has been used instead?

› lack of awareness and capacity

6.2. Other human activities

25. Does your country have legislation in place, which provides for Strategic Environmental Assessment/Environmental Impact Assessment (SEA/EIA) of activities potentially negatively affecting natural habitats or wildlife? (AEWA Action Plan, paragraph 4.3.1)

☒ Yes and being implemented

Do the SEA/EIA processes consider waterbirds and habitats on which they depend?

☒ Yes

Please provide details

› The law No. 15-2003 on protection and improvement of the environment, specifies in details the process of EIA. EGA is a responsible institution to enforce such regulation, EIA studies either conducted by independent consultant and revise by EGA monitoring department, or conducted by a research team from EGA and up on the results the permission is granted or not.

Do the SEA/EIA processes include public participation?

☒ No

26. In the last three years, has your country used SEA/EIA for all relevant projects to assess the impact of proposed projects on migratory waterbird species listed on table 1 and/or habitats/sites on which they depend? (AEWA Action Plan, paragraph 4.3.1)

☒ Yes, all proposed projects

Please provide information on the outstanding cases

› all projects that will be established they must have EIA before starting

27. Is by-catch of waterbirds in fishing gear taking place in your country? (Resolution 3.8)

☒ Not applicable

Please explain

› by catch of waterbirds in libya it is very few there is no recorded cases

28. Has your country undertaken steps towards the adoption/application of measures to reduce the incidental catch of seabirds and combat Illegal Unregulated and Unreported (IUU) fishing practices in the Agreement area? (Resolution 3.8)

☒ Not applicable

Please explain

› by catch of waterbirds in libya it is very few there is no recorded cases

Pressures and Responses

7. Research and Monitoring

29. Does your country have waterbird monitoring schemes for the AEWA species in place? (Strategic Plan 2009-2017, Objective 3, Target 2)

☒ Yes

Covering the breeding period

☒ Partially

Please provide details

› EGA has started program of ringing lesser crested tern in 2008, in 2009 started also studying other biological factors may affect the species

Covering the passage/migration period

☒ Partially

Please provide details

› there is just regular wintering survey and summer survey not regular

Covering the non-breeding/wintering period

☒ Fully

Please provide details

› Since 2005 we started wintering water bird censuses

Field for additional information (optional)

› Recent waterbird studies with bilateral cooperation has started as far as 1993, with coastal birds survey that was conducted in collaboration with the former IWRB (Wetlands international). The mission team have surveyed the coastal area for census and identification of IBA's.

National Wetland inventory project in coordination of MedWet is under preparation.

30. Have you used the AEWA Guidelines for a waterbird monitoring protocol?

☒ Yes

Please provide details

› Establishing of national waterbirds monitoring guidelines and the standard form of waterbird census in Africa adopted by wetland international has been used since 2005

31. List (or provide links to lists) of research related to waterbirds and their conservation that has been undertaken or results published in the past triennium (Strategic Plan 2009-2017, Objective 3, Target 5)

› RAC/SPA website, also Atlas of wintering waterbirds of Libya 2005-2010 unpublished yet it will be publish before May 2012

32. Has your government provided over the past triennium funds and/or logistical support for the International Waterbird Census at international or national level? (Strategic Plan 2009-2017, Objective 3, Target 1)

☒ Yes

Nationally

☒ Yes

Please provide details

› Since 2005 Libya government located budget for wintering survey and for ringing program, also provide the necessary equipments for the filed surveys, with logistic support.

Internationally

☒ Yes

Please provide details

› Since 2005 AEWA and RAC/SPA supported EGA by providing international experts to work with the national team, also in ringing program, also provide some equipment for the filed surveys, and field guides.

Pressures and Responses

8. Education and Information

8.1. AEWA Communication Strategy

33. Has your country developed and implemented programmes for raising awareness and understanding on waterbird conservation and about AEWA? (Strategic Plan 2009-2017, Objective 3, Target 3 and AEWA Action Plan, paragraphs 6.1-6.4)

☒ Yes, being implemented

Please list major features of the programmes and details of a contact person for each programme

› Interviews with researchers working on birds are conducted with national and local radios and TV's.

Wetlands and its biological, ecological and cultural importance were subjects of many articles in ALBEEAH (The Environment) magazine, and workshops organized during the last few years.

Training course in water birds identification has been done on international level collaboration with RAC/SPA trainee from 5 Arab countries are participated to the training with Libyan participant, 2 international trainer one from Tunisia and one from France.

In 2012 first society of birds established which is Libya bird society

34. Has your country provided funding and other support, as appropriate (e.g. expertise, network, skills and resources), secured for the implementation of the AEWA Communication Strategy? (Strategic Plan 2009-2017, Objective 3, Target 1 and Resolution 3.10)

☒ No

Please explain the reasons

› lack of capacity

35. In Resolution 3.10 the Meeting of the Parties encouraged Contracting Parties to host AEWA Exchange Centres for their respective regions. Has your country considered/shown interest in hosting a Regional AEWA Exchange Centre? (Strategic Plan 2009-2017, Objective 3, Target 2 and Resolution 3.10)

☒ Not considered yet

Please provide details on the answer given above

› lack of awareness and capacity

36. Training for CEPA (Communication, Education and Public Awareness) at national level is supposed to be conducted by staff, which has been trained in the framework of the AEWA Training of Trainers programme. Has such training taken place in your country in the past triennium? (Strategic Plan 2009-2017, Objective 3, Target 2)

Applicable only for countries in regions where Training of Trainers programme has taken place

☒ No

Please explain the reasons

› lack of capacity

Pressures and Responses

9. Implementation

37. Has your country approached non-contracting parties to encourage them to ratify the Agreement? (Resolution 3.10)

Report only on activities over the past triennium

☒ No

Please explain the reasons

› lack of capacity and communication

38. Has your country supported/developed international co-operation projects for the implementation of the Agreement, according to the priorities outlined in the AEWA International Implementation Tasks (IIT) for the current triennium? (Resolution 3.11)

☒ No

Please explain the reasons

› There is limited resources and capacity

39. Has your country resourced the AEWA Small Grants Fund over the past triennium? (Strategic Plan 2009-2017, Objective 5, Target 5)

☒ No

Please explain the reasons

› lack of capacity

40. Does your country have in place a national coordination mechanism for implementation of AEWA, possibly linking to national coordination mechanisms for other biodiversity Multilateral Environmental Agreements (MEAs)? (Strategic Plan 2009-2017, Objective 5, Target 8)

☒ Yes, it is operational on a regular basis

Please provide details

› The focal point for AEWA is the same organization for the other biodiversity agreements

41. How would you suggest promoting further links between the biodiversity MEAs to which your country is a Contracting Party, so as to make your work more efficient and effective?

- › - Increase national institutional capacity toward the implementation of AEWA agreement.
- Improve and strength the role of national focal point in communication with governmental and NGOs working in related issues to improve conservation.
- Strength the implementation of single species action plans on the national level.

Pressures and Responses

10. Avian Influenza

42. What issues have proved challenging in responding nationally to the spread of the Highly Pathogenic Avian Influenza (HPAI) in the last triennium and what further guidance or information would be useful in this respect?

List challenges

- › - Lack of awareness
- Lack of national capacity.
- Produce educational material for different stakeholders relevant to HPAI.
- Improve the national technical and institutional capacity to manage the spread of HPAI.

List required further guidance or information

- › - Preparing national awareness and communication plan for relevant stakeholders.
- Ensure circulation and deliver of educational material.
- Establish standard data collection system and data base for HPAI outbreaks

43. Have you visited and used as a reference the AIWEb (the Avian Influenza, Wildlife and the Environment web site)?

☒ Yes

Optionally you can provide additional information on section 10. Avian Influenza

› When HPAI appear Libyan government established national committee from different sectors to follow up the issue

11. Confirmation

Confirmation of information verification and approval for submission

Please confirm:

In addition a scanned copy of an official letter from the relevant state institution, approving the report for submission, can be attached.

☒ I declare that the information provided in the Report on the implementation of AEWA for the period 2009-2011 has been verified and the report has been approved for submission by the appropriate state institution in the country.

Date of submission

> 29/3/2012
