

Report on the implementation of AEWA for the period 2009-2011

The format for reports on the implementation of the Agreement on the Conservation of African-Eurasian Migratory Waterbirds (AEWA) for the period 2009-2011 was approved at the 4th session of the Meeting of the Parties (15-19 September 2008, Antananarivo, Madagascar) by Resolution 4.7. Further amendments were endorsed by the Standing Committee in August 2011 in accordance with operative paragraph 11 of Resolution 4.7. This format has been constructed following the AEWA Action Plan, the AEWA Strategic Plan 2009-2017 and resolutions of the Meeting of the Parties (MOP).

In accordance with Article V.1(c) of the Agreement on the Conservation of African-Eurasian Migratory Waterbirds, each Party shall prepare to each ordinary session of the MOP a National Report on its implementation of the Agreement and submit that report to the Agreement Secretariat not later than 120 days before the session of the MOP. The 5th Session of the Meeting of the Parties (MOP5) is taking place on 14-18 May 2012 in La Rochelle, France; therefore **the deadline for submission of National Reports is 14 January 2012.**

The AEWA National Reports 2009-2011 will be compiled and submitted through the CMS Family Online Reporting Facility, which is an online reporting tool for the whole CMS Family. However, AEWA will be the first of the CMS-related treaties to use the CMS Family Online Reporting System for its reporting to MOP5. The CMS Family Online Reporting System was developed in 2010-2011 by the UNEP-World Conservation Monitoring Centre (UNEP-WCMC) in close collaboration with and under the guidance of the UNEP/AEWA Secretariat.

As a new product, the system may still need some refining and improving, we therefore request your understanding: any feedback or suggestions on your side would be greatly appreciated.

The online reporting system offers flexibility and versatility superior to the previously used paper-based reporting and the UNEP/AEWA Secretariat hopes that the Parties will find it to be more convenient and efficient. In particular, it will make information more easily accessible and also enhance ways of using it. In this context, Resolution 4.7 also requests UNEP to assist in the development of an analytical tool and calls upon Parties to support this initiative and provide financial resources and thus strengthen the online format for national reporting in collaboration with UNEP-WCMC. The online reporting system brings national reporting to a different level, enabling the information provided to be used much more effectively; it also serves as a tool for self-assessment by Parties. In addition, it can help to enhance cooperation and coordination between various stakeholders in your country by making the national reporting more of a collective, collaborative and continuous process.

To contact the UNEP/AEWA Secretariat please send your inquiries to aewa_national_reporting@unep.de.

1. General Information

Name of reporting Contracting Party

> Republic of Lithuania

Date of entry into force of AEWA in the Contracting Party

> 01.11.2004

List any reservations that the Contracting Party has made (if any) upon deposition of its instruments of accession on provisions of the Agreement or its Action Plan in accordance with Article XV of AEWA

> None

2. Institutional Information

Please update information on the National AEWA Administrative Authority, the National Focal Points, the Designated National Respondent and the other contributors to this report.

Designated National AEWA Administrative Authority

Full name of the institution

› Ministry of Environment of the Republic of Lithuania

Mailing address - Street and number

› A. Jakšto 4/9

Postal code

› LT-01105

City

› Vilnius

Country

› Lithuania

Telephone

› (+370 5) 266 35 36

Fax

› (+370 5) 266 36 63

E-mail

› info@am.lt

Designated National Focal Point (NFP) for AEWA matters

Name and title of the NFP

› Ms. Sigutė Ališauskienė, Chief Officer of Biological Diversity Division

Affiliation (institution, department)

› Nature Protection Department, Ministry of Environment of the Republic of Lithuania

Mailing address - Street and number

› A. Jakšto 4/9

Postal code

› 01105

City

› Vilnius

Country

Designated National Respondent (DNR) in charge of the compilation and submission of the AEWA National Report 2009-2011

Please select from the list below as appropriate.

☒ The National Focal Point (NFP) has been designated as the National Respondent

Status

3. Species Status

Please select from the drop-down list below only the species that occur in your country

AEWA Species - *Gavia stellata* / Red-throated Diver

English Common name(s):

Red-throated Diver, Red-throated Loon

French Common name(s):

Plongeon catmarin

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

☒ The species occurs in the country

Native or non-native species

Please confirm whether the species is native or non-native to your country

☒ Native

AEWA Table 1 Categorisation

Please indicate the AEWA Table 1 category(ies) applicable to the population(s) of this species occurring in the country.

☒ Column B - Category 2(c)

Species Status - Breeding

Does the species occur in the country during the breeding period?

☒ No

Species Status - Non-breeding/wintering

Does the species occur in the country during the non-breeding/wintering period?

☒ Yes

Pressures and Responses

4. Species Conservation

4.1 Legal Measures

1. Were any exemptions granted to the prohibitions laid down in paragraphs 2.1.1 and 2.1.2 of the AEWA Action Plan? (AEWA Action Plan, paragraph 2.1.3)

☒ Yes

Please provide information on each species for which exemption was granted

Exemption for *Anser albifrons* / Greater White-fronted Goose

Additional information on this exemption (alternatively provide a web link or attach a file)

› Only species listed in Column A of Table 1 that can be hunted during a restricted period.

Exemption for *Anas querquedula* / Garganey

Additional information on this exemption (alternatively provide a web link or attach a file)

› One of the two bird species listed in Column B of Table 1 that can be hunted in Lithuania.

Exemption for *Gallinago gallinago* / Common Snipe

Additional information on this exemption (alternatively provide a web link or attach a file)

› One of the two bird species listed in Column B of Table 1 that can be hunted in Lithuania.

Optionally you can provide additional information on section 4.1. Legal Measures

› The Lithuanian Law on Hunting prohibits taking of the birds listed in Column A of Table 1, except for *Anser albifrons*, and two bird species listed in Column B of Table 1 are hunted in Lithuania (i.e. *Anas querquedula*, *Gallinago gallinago*). However, the taking of these bird species is regulated by the Lithuanian legislation on hunting.

4.2 Single Species Action Plans

2. Please report on the progress of turning the International Single Species Action Plans (ISSAP), for species whose populations are listed on Column A of Table 1, developed under or recognised by AEWA, into National Single Species Action Plans (NSSAP). (AEWA Action Plan, paragraph 2.2)

Please clarify the relevance of the AEWA International Single Species Action Plans or the other recognised plans (Dalmatian Pelican, Pygmy Cormorant, Red-breasted Goose, Marbled Teal, Slender-billed Curlew and Audouin's Gull) to your country

☒ At least one of the International Single Species Action Plans is relevant

Please report on each relevant ISSAP

National Single Species Action Plan for *Gallinago media* / Great Snipe

For *Gallinago media* / Great Snipe

☒ NSSAP in development

Please provide starting date and expected finalisation date

› Starting date 2011

Expected finalisation date 2012

3. Do you have in place or are you developing a National Single Species Action Plan for any species/population for which an AEWA ISSAP has not been developed? (AEWA Action Plan, paragraph 2.2.2)

☒ Yes

Please provide information on each species for which relevant action has been undertaken

National Single Species Action Plan for *Ciconia nigra* / Black Stork

For *Ciconia nigra* / Black Stork

☒ NSSAP in development

National Single Species Action Plan for *Pluvialis apricaria* / Eurasian Golden Plover

For *Pluvialis apricaria* / Eurasian Golden Plover

☒ NSSAP in development

National Single Species Action Plan for *Gallinago media* / Great Snipe

For *Gallinago media* / Great Snipe

☒ NSSAP in development

National Single Species Action Plan for *Tringa glareola* / Wood Sandpiper

For *Tringa glareola* / Wood Sandpiper

☒ NSSAP in development

National Single Species Action Plan for *Philomachus pugnax* / Ruff

For *Philomachus pugnax* / Ruff

☒ NSSAP in development

National Single Species Action Plan for *Sterna albifrons* / Little Tern

For *Sterna albifrons* / Little Tern

☒ NSSAP in development

4. Did you use the AEWA Guidelines for the preparation of National Single Species Action Plans for migratory waterbirds?

☒ Yes

4.3 Emergency Measures

5. Please report on any emergency situation that has occurred in your country over the past triennium and has threatened waterbirds. (AEWA Action Plan, paragraph 2.3)

Please indicate whether an emergency situation threatening waterbirds, such as botulism, chemical pollution, earthquake, extreme weather, fire, harmful algal bloom, infectious disease, introduction of alien species, lead poisoning, nuclear accident, oil spill, predation, volcanic activity, war or other emergency (please specify), has occurred in the country over the past triennium

☒ No emergency situation has occurred

6. Are there any other emergency measures, which were not mentioned above, but were developed and are in place in your country?

☒ No

7. Did you use the AEWA Guidelines on identifying and tackling emergency situations for migratory waterbirds?

☒ Yes

4.4 Re-establishments

8. Is there a regulatory framework for re-establishments of species, including waterbirds, in your country (AEWA Action Plan, paragraph 2.4)?

☒ Yes

Please provide details

> Re-establishment of species in Lithuania is controlled by the Order of the Minister of Environment No 352 of June 1, 2002, on the approval of the Order of the Introduction, Reintroduction and Relocation, Control and Eradication of Invasive Species Organisms and the Composition of the Committee on Invasive Species Control.

9. Are you maintaining a national register of re-establishment projects occurring or planned to occur wholly or partly within your country? (Resolution 4.4)

☒ No

10. Has your country considered, developed or implemented re-establishment projects for any species listed on AEWA Table 1? (AEWA Action Plan, paragraph 2.4)

☒ No

4.5 Introductions

11. Does your country have legislation in place, which prohibits the introduction of non-native species of animals and plants, which may have a detrimental effect? (AEWA Action Plan, paragraph 2.5.1)

☒ Yes, and being enforced

Please provide the following details: title of legislation, year of adoption, institution that adopted it, institution that enforces it

> According to the Law on Wild Fauna and the Rules on the Introduction of Wild Animals in case of Deliberate Introduction of Non-Native Species it is necessary to get a permit from the MoE.

Introductions are also controlled by the Order of the Minister of Environment No 352 of June 1, 2002.

12. Has your country introduced requirements to zoos, private collections, etc. in order to avoid the accidental escape of captive birds belonging to non-native species? (AEWA Action Plan, paragraph 2.5.2)

☒ Yes, and being enforced

Please provide the following details: title of the document, year of adoption, institution that adopted it, institution that enforces it

> The Order No. 298 on Licensing, Management and Control of Zoos, adopted on June 4 of 2002 by the Ministry of Environment.

Enforcement institutions - the Ministry of Environment, Environmental Protection Agency, Regional Environmental Protection Departments.

13. Does your country have in place a National Action Plan for Invasive Species (NAPIS) (in the framework of other MEAs, such as CBD, Bern Convention, and GISP (Global Invasive Species Programme) (Strategic Plan 2009-2017, Objective 1, Target 5)?

☒ No

14. Has an eradication programme been considered, developed or implemented for any non-native waterbird species in your country?

☒ No

15. Did you use the AEWA Guidelines on avoidance of introductions of non-native waterbird species?

☒ No

Pressures and Responses

5. Habitat Conservation

5.1 Habitat Inventories

16. Has your country identified the network of all sites of international and national importance for the migratory waterbird species/populations listed on Table 1? (AEWA Action Plan, paragraph 3.1.2)

☒ Yes

Please provide full reference, e.g. title, year, authors, etc. or a web link

> In September 2007, the Institute of Ecology developed a report "Assessment of SPA Network in Lithuania", which is based on bird species monitoring data of 2005-2007.

17. If your country has identified or is currently identifying the networks of sites of international and national importance, have you used the AEWA Guidelines on the preparation of site inventories for migratory waterbirds?

☒ No

Please explain the reasons. What has been used instead as a basis for the inventory?

> Inventories are carried out seeking to implement requirements of EC Birds Directive (national criteria for designation of SPA according to the Birds Directive which are in compliance with the criteria prepared by BirdLife International). Species monitoring is carried out under the State Monitoring Programme (approved by the Governmental resolution).

5.2. Conservation of Areas

18. Which sites that were identified as important, either internationally or nationally, for Table 1 migratory waterbird species/populations have been designated as protected areas under the national legislation and have management plans that are being implemented? (AEWA Action Plan, paragraph 3.2.1)

Please report on both internationally and nationally important sites

☒ Reporting on designation and management of internationally important sites

☒ Reporting on designation and management of nationally important sites

All sites of international importance

Total number

> 58

Total area (ha)

> 358973

Out of the above total: number of protected sites

> 58

Out of the above total: protected area (ha)

> 358973

Number of protected sites with management plans in place which are being implemented

> 17

All sites of national importance

Total number

> 58

Total area (ha)

> 358973

Out of the above total: number protected sites

> 58

Out of the above total: protected area (ha)

> 358973

Number of protected sites with management plans in place which are being implemented

> 17

19. Has your country used the AEWA Guidelines on the management of key sites for migratory waterbirds?

☒ Yes

20. Have you accessed and used the Critical Site Network (CSN) Tool for the AEWA area?

☒ No

Pressures and Responses

6. Management of Human Activities

6.1. Hunting

21. Does your country have an established system for the collection of harvest data, which covers the species listed in Table 1? (AEWA Action Plan, paragraph 4.1.3)

☒ Yes

Does it cover the following? (tick where applicable and provide details)

☒ The whole territory of your country

Field for additional information (optional)

> Bag statistics in Lithuania has been collected since 1934. Our Regional Environmental Protection Departments under the MoE (we have 8 dep.) collect data on bird hunting bags twice a year.

22. Has your country phased out the use of lead shot for hunting in wetlands? (AEWA Action Plan, paragraph 4.1.4)

☒ No

Have you introduced self-imposed and published timetable for banning the use of lead shot for hunting in wetlands?

☒ No

23. Are there measures in your country to reduce/eliminate illegal taking? (AEWA Action Plan, paragraph 4.1.6)

☒ Yes

How would you rate the effectiveness of the measures?

☒ Moderate

24. Has your country used the AEWA Guidelines on sustainable harvest of migratory birds?

☒ Yes

6.2. Other human activities

25. Does your country have legislation in place, which provides for Strategic Environmental Assessment/Environmental Impact Assessment (SEA/EIA) of activities potentially negatively affecting natural habitats or wildlife? (AEWA Action Plan, paragraph 4.3.1)

☒ Yes and being implemented

Do the SEA/EIA processes consider waterbirds and habitats on which they depend?

☒ Yes

Please provide details

> The provisions concerning requirements of Article 6.3-6.4 of the Habitats Directive (92/43/EEC) are set in the Law on Protected Areas (1993, amended in 2001), the Law on Environmental Impact Assessment of Proposed Economic Activity (2000, amended in 2005), in the Governmental Decision of the Republic of Lithuania on the Approval of the Order of the Assessment of the Effects of Certain Plans and Programmes on the Environment (2004), the Order of the Minister of Environment on Assessment of Impact of Certain Plans or Programmes and Projects of Proposed Economic Activity on the Potential or Designated Natura 2000 Sites (2006).

Do the SEA/EIA processes include public participation?

☒ Yes

26. In the last three years, has your country used SEA/EIA for all relevant projects to assess the impact of proposed projects on migratory waterbird species listed on table 1 and/or habitats/sites on which they depend? (AEWA Action Plan, paragraph 4.3.1)

☒ Yes, all proposed projects

Field for additional information (optional)

> Mostly EIA procedures were carried out for construction of wind power parks.

27. Is by-catch of waterbirds in fishing gear taking place in your country? (Resolution 3.8)

☒ Yes

Please provide details

> Considerable incidental bycatch of migratory waterbirds has been detected during special studies in gillnets used in coastal fisheries. Most common victims of bycatch include Velvet Scoters, Long-tailed Ducks, Black-throated and Red-throated Divers. Some Steller's Eiders have also been recovered from the fishing gear.

28. Has your country undertaken steps towards the adoption/application of measures to reduce the incidental catch of seabirds and combat Illegal Unregulated and Unreported (IUU) fishing practices in the Agreement area? (Resolution 3.8)

☒ Yes

Please provide short description of all actions

> Special restrictions on the type of gillnets and their use in coastal SPAs have been introduced in order to reduce incidental bycatch of migratory waterbirds. Such restrictions include prohibition to use gillnets with mesh size over 55 mm from 16 November to 15 April in depths less than 15 meters.

Pressures and Responses

7. Research and Monitoring

29. Does your country have waterbird monitoring schemes for the AEWA species in place? (Strategic Plan 2009-2017, Objective 3, Target 2)

☒ Yes

Covering the non-breeding/wintering period

☒ Partially

Please provide details

> A wintering waterfowl census in the Baltic Sea is a part of the State Monitoring Scheme (every 2–3 years, Steller's Eider is carried out annually), although more detailed wintering waterbird surveys were carried out in 2006–2008 in the Baltic Sea and the Curonian Lagoon as a part of the two aforementioned LIFE-Nature projects. A new LIFE+ project, dealing, among other issues, with investigations of migratory waterbirds in the offshore waters of Lithuanian EEZ is ongoing (2011-2014). Its aim is to carry out an inventory of waterbirds in Lithuanian offshore waters and, if necessary, delineate new SPAs.

Unfortunately, a wintering waterbird census in Lithuanian inland waters (a part of the previous State Monitoring Scheme) discontinued some years ago.

Some small-scale long-term scientific studies of waterbird populations are also ongoing.

30. Have you used the AEWA Guidelines for a waterbird monitoring protocol?

☒ Yes

31. List (or provide links to lists) of research related to waterbirds and their conservation that has been undertaken or results published in the past triennium (Strategic Plan 2009-2017, Objective 3, Target 5)

> Reports on waterbird inventory from the previous LIFE project can be found here:

http://lifempa.balticseaportal.net/bsp_section/web/?id=679

Data from LIFE project waterbird inventories have been contributed to the SOWBAS project, report of which may be found here: <http://www.norden.org/en/publications/publikationer/2011-550>

Information on the ongoing LIFE+ project can be found here: <http://corpi.ku.lt/denoflit/index.php?page=home>

32. Has your government provided over the past triennium funds and/or logistical support for the International Waterbird Census at international or national level? (Strategic Plan 2009-2017, Objective 3, Target 1)

☒ No

Pressures and Responses

8. Education and Information

8.1. AEWA Communication Strategy

33. Has your country developed and implemented programmes for raising awareness and understanding on waterbird conservation and about AEWA? (Strategic Plan 2009-2017, Objective 3, Target 3 and AEWA Action Plan, paragraphs 6.1-6.4)

☒ Yes, being implemented

Please list major features of the programmes and details of a contact person for each programme
> Such activities are for a greater part of LIFE-Nature projects, carried out in the Baltic Sea and the Curonian Lagoon, include maintaining informative websites, the dissemination of information through mass media, producing publications, etc.

One of the most prominent projects in this respect is the African-Eurasian Flyways Project, which includes the installation of a visitors center in the area of the Nemunas Delta, the educational path and the observation tower.

The ongoing LIFE+ project, devoted to the inventory of marine habitats and species in the Lithuanian EEZ, includes awareness raising component, which will also encompass information on the status and conservation of migratory waterbirds in the Lithuanian EEZ.

34. Has your country provided funding and other support, as appropriate (e.g. expertise, network, skills and resources), secured for the implementation of the AEWA Communication Strategy? (Strategic Plan 2009-2017, Objective 3, Target 1 and Resolution 3.10)

☒ No

Please explain the reasons

> Very restricted budget

35. In Resolution 3.10 the Meeting of the Parties encouraged Contracting Parties to host AEWA Exchange Centres for their respective regions. Has your country considered/shown interest in hosting a Regional AEWA Exchange Centre? (Strategic Plan 2009-2017, Objective 3, Target 2 and Resolution 3.10)

☒ Not considered yet

36. Training for CEPA (Communication, Education and Public Awareness) at national level is supposed to be conducted by staff, which has been trained in the framework of the AEWA Training of Trainers programme. Has such training taken place in your country in the past triennium? (Strategic Plan 2009-2017, Objective 3, Target 2)

Applicable only for countries in regions where Training of Trainers programme has taken place

☒ No

Pressures and Responses

9. Implementation

37. Has your country approached non-contracting parties to encourage them to ratify the Agreement? (Resolution 3.10)

Report only on activities over the past triennium

☒ No

38. Has your country supported/developed international co-operation projects for the implementation of the Agreement, according to the priorities outlined in the AEWA International Implementation Tasks (IIT) for the current triennium? (Resolution 3.11)

☒ No

39. Has your country resourced the AEWA Small Grants Fund over the past triennium? (Strategic Plan 2009-2017, Objective 5, Target 5)

☒ No

40. Does your country have in place a national coordination mechanism for implementation of AEWA, possibly linking to national coordination mechanisms for other biodiversity Multilateral Environmental Agreements (MEAs)? (Strategic Plan 2009-2017, Objective 5, Target 8)

☒ No

41. How would you suggest promoting further links between the biodiversity MEAs to which your country is a Contracting Party, so as to make your work more efficient and effective?

› To improve exchange of information

Pressures and Responses

10. Avian Influenza

Field for additional information (optional)

› HPAI cases haven't been reported in Lithuania and we are not able to present any more information

43. Have you visited and used as a reference the AIWEb (the Avian Influenza, Wildlife and the Environment web site)?

☒ Yes

11. Confirmation

Confirmation of information verification and approval for submission

Please confirm:

In addition a scanned copy of an official letter from the relevant state institution, approving the report for submission, can be attached.

☒ I declare that the information provided in the Report on the implementation of AEWA for the period 2009-2011 has been verified and the report has been approved for submission by the appropriate state institution in the country.

Date of submission

> 2012-01-17
