Report on the implementation of AEWA for the period 2009-2011

The format for reports on the implementation of the Agreement on the Conservation of African-Eurasian Migratory Waterbirds (AEWA) for the period 2009-2011 was approved at the 4th session of the Meeting of the Parties (15-19 September 2008, Antananarivo, Madagascar) by Resolution 4.7. Further amendments were endorsed by the Standing Committee in August 2011 in accordance with operative paragraph 11 of Resolution 4.7. This format has been constructed following the AEWA Action Plan, the AEWA Strategic Plan 2009-2017 and resolutions of the Meeting of the Parties (MOP).

In accordance with Article V.1(c) of the Agreement on the Conservation of African-Eurasian Migratory Waterbirds, each Party shall prepare to each ordinary session of the MOP a National Report on its implementation of the Agreement and submit that report to the Agreement Secretariat not later than 120 days before the session of the MOP. The 5th Session of the Meeting of the Parties (MOP5) is taking place on 14-18 May 2012 in La Rochelle, France; therefore the deadline for submission of National Reports is 14 January 2012.

The AEWA National Reports 2009-2011 will be compiled and submitted through the CMS Family Online Reporting Facility, which is an online reporting tool for the whole CMS Family. However, AEWA will be the first of the CMS-related treaties to use the CMS Family Online Reporting System for its reporting to MOP5. The CMS Family Online Reporting System was developed in 2010-2011 by the UNEP-World Conservation Monitoring Centre (UNEP-WCMC) in close collaboration with and under the guidance of the UNEP/AEWA Secretariat.

As a new product, the system may still need some refining and improving, we therefore request your understanding: any feedback or suggestions on your side would be greatly appreciated.

The online reporting system offers flexibility and versatility superior to the previously used paper-based reporting and the UNEP/AEWA Secretariat hopes that the Parties will find it to be more convenient and efficient. In particular, it will make information more easily accessible and also enhance ways of using it. In this context, Resolution 4.7 also requests UNEP to assist in the development of an analytical tool and calls upon Parties to support this initiative and provide financial resources and thus strengthen the online format for national reporting in collaboration with UNEP-WCMC. The online reporting system brings national reporting to a different level, enabling the information provided to be used much more effectively; it also serves as a tool for self-assessment by Parties. In addition, it can help to enhance cooperation and coordination between various stakeholders in your country by making the national reporting more of a collective, collaborative and continuous process.

To contact the UNEP/AEWA Secretariat please send your inquiries to aewa_national_reporting@unep.de.

1. General Information

Name of reporting Contracting Party
› Luxembourg

Date of entry into force of AEWA in the Contracting Party
› 01.12.2003

List any reservations that the Contracting Party has made (if any) upon deposition of its instruments of accession on provisions of the Agreement or its Action Plan in accordance with Article XV of AEWA
› None
2. Institutional Information

Please update information on the National AEWA Administrative Authority, the National Focal Points, the Designated National Respondent and the other contributors to this report.

**Designated National AEWA Administrative Authority**

Full name of the institution
› Ministère du Développement durable et des Infrastructures - Département de l'Environnement

Name and title of the head of institution
› Marco Schank, Ministre délégué au Développement durable et aux Infrastructures

☑ No

Please provide a qualitative estimate for the passage numbers
☑ Regular, but small numbers
AEWA Species - Larus ridibundus / Common Black-headed Gull

**English Common name(s):**
Black-headed Gull, Common Black-headed Gull

**French Common name(s):**
Mouette rieuse

---

**Confirmation of species occurrence**
Please confirm the occurrence of the species in the country
☑ The species occurs in the country

**Native or non-native species**
Please confirm whether the species is native or non-native to your country
☑ Native

**AEWA Table 1 Categorisation**
Please indicate the AEWA Table 1 category(ies) applicable to the population(s) of this species occurring in the country.
☑ Column B - Category 2(c)

**Species Status - Passage**
Does the species occur in the country during the passage period?
☑ Yes

Are quantitative estimates for the passage numbers available?
☑ No

Please provide a qualitative estimate for the passage numbers
☑ Regular and significant numbers

**Species Status - Non-breeding/wintering**
Does the species occur in the country during the non-breeding/wintering period?
☑ Yes

**Latest population estimate**
No information
☑ No information
**Alien Species - Anser cygnoides / Swan Goose**

**English Common name(s):**
Swan Goose

**French Common name(s):**
Oie cygnoïde

---

**Confirmation of species occurrence**

Please confirm the occurrence of the species in the country
☑ The species occurs in the country

**Native or non-native species**

Please confirm whether the species is native or non-native to your country
☑ Non-native

**Species Status**

Please select whether status will be reported for breeding, passage or non-breeding/wintering population

Both options can be selected
☑ Non-breeding/wintering

**Species Status - Non-breeding/wintering**

**Latest population estimate**

Occasional records

Both options can be selected
☑ Occasionally recorded, most likely natural vagrants
☑ Occasionally recorded, most likely escapes from collections
Alien Species - Branta canadensis / Greater Canada Goose

**English Common name(s):**
Canada Goose

**French Common name(s):**
Bernache du Canada

---

**Confirmation of species occurrence**

Please confirm the occurrence of the species in the country
- ☑ The species occurs in the country

**Native or non-native species**

Please confirm whether the species is native or non-native to your country
- ☑ Non-native

**Species Status**

Please select whether status will be reported for breeding, passage or non-breeding/wintering population
- Both options can be selected
  - ☑ Breeding

**Species Status - Breeding**

**Latest population estimate**

- **Year**: > 2010
- **Population unit**: ☑ Pairs
- **Minimum**: > 4
- **Maximum**: > 5

**Source of information**

- Lorgé & Melchior 2010: Die Vögel Luxemburgs

**Previous population estimate**

- **Year**: > 2004-2007
- **Minimum**: > 5
- **Maximum**: > 10

---

Report on the implementation of AEWA for the period 2009-2011 [Contracting Party: Luxembourg]

No information

☑ No information

Population trend

No information

☑ No information
Alien Species - Aix galericulata / Mandarin Duck

English Common name(s):
Mandarin, Mandarin Duck

French Common name(s):
Canard mandarin

Confirmation of species occurrence
Please confirm the occurrence of the species in the country
☑ The species occurs in the country

Native or non-native species
Please confirm whether the species is native or non-native to your country
☑ Non-native
Pressures and Responses
4. Species Conservation

4.1 Legal Measures

1. Were any exemptions granted to the prohibitions laid down in paragraphs 2.1.1 and 2.1.2 of the AEWA Action Plan? (AEWA Action Plan, paragraph 2.1.3)
☑ No

Optionally you can provide additional information on section 4.1. Legal Measures
› Except for the mallard, Anas platyrhynchos, which is a hunable species in LU, no waterbird can be taken or traded with (except authorisation given by the minister for scientific reasons or general interest).

4.2 Single Species Action Plans

2. Please report on the progress of turning the International Single Species Action Plans (ISSAP), for species whose populations are listed on Column A of Table 1, developed under or recognised by AEWA, into National Single Species Action Plans (NSSAP). (AEWA Action Plan, paragraph 2.2)

Please clarify the relevance of the AEWA International Single Species Action Plans or the other recognised plans (Dalmatian Pelican, Pygmy Cormorant, Red-breasted Goose, Marbled Teal, Slender-billed Curlew and Audouin's Gull) to your country
☑ At least one of the International Single Species Action Plans is relevant

Please report on each relevant ISSAP

National Single Species Action Plan for Crex crex / Corncrake

For Crex crex / Corncrake
☑ No NSSAP

Please explain the reasons
› LU started with Species action plans in 2010, Crex crex has not been treated yet.

Field for additional information (optional)

You have attached the following Web links/URLs to this answer.
LU species action plans

3. Do you have in place or are you developing a National Single Species Action Plan for any species/population for which an AEWA ISSAP has not been developed? (AEWA Action Plan, paragraph 2.2.2)
☑ No

4. Did you use the AEWA Guidelines for the preparation of National Single Species Action Plans for migratory waterbirds?
☑ No

Please explain the reasons. What has been used instead as a basis for the preparation of NSSAPs?
› not applicable yet.

4.3 Emergency Measures

5. Please report on any emergency situation that has occurred in your country over the past triennium and has threatened waterbirds. (AEWA Action Plan, paragraph 2.3)

Please indicate whether an emergency situation threatening waterbirds, such as botulism, chemical pollution, earthquake, extreme weather, fire, harmful algal bloom, infectious disease, introduction of alien species, lead poisoning, nuclear accident, oil spill, predation, volcanic activity, war or other emergency (please specify), has occurred in the country over the past triennium
☑ No emergency situation has occurred

6. Are there any other emergency measures, which were not mentioned above, but were developed and are in place in your country?
☑ No
7. Did you use the AEWA Guidelines on identifying and tackling emergency situations for migratory waterbirds?
☑ No
Please explain the reasons. What was used instead as a basis for dealing with emergency situations?
› n.a.

4.4 Re-establishments

8. Is there a regulatory framework for re-establishments of species, including waterbirds, in your country (AEWA Action Plan, paragraph 2.4)?
☑ No

9. Are you maintaining a national register of re-establishment projects occurring or planned to occur wholly or partly within your country? (Resolution 4.4)
☑ No
Please explain the reasons
› n.a.

10. Has your country considered, developed or implemented re-establishment projects for any species listed on AEWA Table 1? (AEWA Action Plan, paragraph 2.4)
☑ No

4.5 Introductions

11. Does your country have legislation in place, which prohibits the introduction of non-native species of animals and plants, which may have a detrimental effect? (AEWA Action Plan, paragraph 2.5.1)
☑ Yes, and being enforced

Please provide the following details: title of legislation, year of adoption, institution that adopted it, institution that enforces it
› Introduction of non native species is forbidden, by National law on the protection of nature and natural resources, Article 30.

You have attached the following documents to this answer.

12. Has your country introduced requirements to zoos, private collections, etc. in order to avoid the accidental escape of captive birds belonging to non-native species? (AEWA Action Plan, paragraph 2.5.2)
You have attached the following documents to this answer.
RGD Zoos 2003k.pdf - Regulation on zoos

13. Does your country have in place a National Action Plan for Invasive Species (NAPIS) (in the framework of other MEAs, such as CBD, Bern Convention, and GISP (Global Invasive Species Programme) (Strategic Plan 2009-2017, Objective 1, Target 5)?
☑ No

Please explain the reasons
› Not seen as a priority/necessity so far.

14. Has an eradication programme been considered, developed or implemented for any non-native waterbird species in your country?
☑ No

15. Did you use the AEWA Guidelines on avoidance of introductions of non-native waterbird species?
☑ No

Please explain the reasons. What was used instead as a basis for dealing with the issue?
› n.a.
Pressures and Responses
5. Habitat Conservation

5.1 Habitat Inventories

16. Has your country identified the network of all sites of international and national importance for the migratory waterbird species/populations listed on Table 1? (AEWA Action Plan, paragraph 3.1.2)
☑ Yes

Please provide full reference, e.g. title, year, authors, etc. or a web link
› Natura 2000 network in place

17. If your country has identified or is currently identifying the networks of sites of international and national importance, have you used the AEWA Guidelines on the preparation of site inventories for migratory waterbirds?
☑ No

Please explain the reasons. What has been used instead as a basis for the inventory?
› Natura 2000 species/habitats and methods have been applied.
Pressures and Responses
6. Management of Human Activities

6.1. Hunting

21. Does your country have an established system for the collection of harvest data, which covers the species listed in Table 1? (AEWA Action Plan, paragraph 4.1.3)
☑ No

Please explain the reasons
› The only huntable bird species are mallard, wood pigeon and pheasant.

Field for additional information (optional)
› At the end of each hunting period, the hunters report on the animals taken, but also on road kills or animals found dead to the Administration de la nature et des forêts

22. Has your country phased out the use of lead shot for hunting in wetlands? (AEWA Action Plan, paragraph 4.1.4)
☑ Fully

When was the lead shot use in wetlands banned? What legislation is in place? Who does enforce this legislation?
› It was banned on the 16th of December 2011, by regulation
Art. 4 of "Règlement grand-ducal du 16 décembre 2011 concernant l’emploi des armes et munitions de chasse, les moyens autorisés pour l’exercice de la chasse ainsi que l’emploi du chien de chasse."
Enforcement via Ministre délégué au Développement durable et aux Infrastructures et Ministre de la Justice

You have attached the following Web links/URLs to this answer.
Regulation on ammunition allowed in hunting

23. Are there measures in your country to reduce/eliminate illegal taking? (AEWA Action Plan, paragraph 4.1.6)
☑ No

Please explain the reasons
› n.a. illegal taking does not represent a major threat.

24. Has your country used the AEWA Guidelines on sustainable harvest of migratory birds? (AEWA Action Plan, paragraph 4.1.6)
☑ No

Please explain the reasons. What other guidance has been used instead?
› n.a.

6.2. Other human activities

25. Does your country have legislation in place, which provides for Strategic Environmental Assessment/Environmental Impact Assessment (SEA/EIA) of activities potentially negatively affecting natural habitats or wildlife? (AEWA Action Plan, paragraph 4.3.1)
☑ Yes and being implemented

Do the SEA/EIA processes consider waterbirds and habitats on which they depend?
☑ Yes

Please provide details
› As far as Natura2000 habitats and species are concerned

27. Is by-catch of waterbirds in fishing gear taking place in your country? (Resolution 3.8)
☑ Not applicable

Please explain
› In Luxembourg, there is no fishing industry, only angling for leisure.

28. Has your country undertaken steps towards the adoption/application of measures to reduce the incidental catch of seabirds and combat Illegal Unregulated and Unreported (IUU) fishing practices in the Agreement area? (Resolution 3.8)
☑ Not applicable

Please explain

› Luxembourg does not have a sea coast and no fishing industries.
Pressures and Responses
7. Research and Monitoring

29. Does your country have waterbird monitoring schemes for the AEWA species in place? (Strategic Plan 2009-2017, Objective 3, Target 2)
☑ Yes

**Covering the breeding period**
☑ Partially

Please provide details
› LNVL – BirdLife Luxembourg:
Annual Monitoring programs on breeding birds: Ciconia nigra, Ixobrychus minutus, Podiceps cristatus, Acrocephalus arundinaceus...

**Covering the passage/migration period**
☑ Partially

**Covering the non-breeding/wintering period**
☑ Partially

Please provide details
› LNVL – BirdLife Luxembourg participates in the mid winter water
bird counts
Monitoring: Anser fabalis, Phalacrocorax carbo, Botaurus stellaris, Mergellus albellus...

30. Have you used the AEWA Guidelines for a waterbird monitoring protocol?
☑ No

32. Has your government provided over the past triennium funds and/or logistical support for the International Waterbird Census at international or national level? (Strategic Plan 2009-2017, Objective 3, Target 1)
☑ No
Pressures and Responses
8. Education and Information

8.1. AEWA Communication Strategy

33. Has your country developed and implemented programmes for raising awareness and understanding on waterbird conservation and about AEWA? (Strategic Plan 2009-2017, Objective 3, Target 3 and AEWA Action Plan, paragraphs 6.1-6.4)
☑ Yes, being implemented

Please list major features of the programmes and details of a contact person for each programme

› Ministère de l’Environnement financed AEWA posters on Grus grus and Ciconia nigra. These were printed in 2 languages (French and English) and largely distributed in Luxembourg.
AEWA posters on Canada goose, Red knot and the Greater flamingo have been distributed, as well as stickers.

34. Has your country provided funding and other support, as appropriate (e.g. expertise, network, skills and resources), secured for the implementation of the AEWA Communication Strategy? (Strategic Plan 2009-2017, Objective 3, Target 1 and Resolution 3.10)
☑ No

35. In Resolution 3.10 the Meeting of the Parties encouraged Contracting Parties to host AEWA Exchange Centres for their respective regions. Has your country considered/shown interest in hosting a Regional AEWA Exchange Centre? (Strategic Plan 2009-2017, Objective 3, Target 2 and Resolution 3.10)
☑ Not considered yet

36. Training for CEPA (Communication, Education and Public Awareness) at national level is supposed to be conducted by staff, which has been trained in the framework of the AEWA Training of Trainers programme. Has such training taken place in your country in the past triennium? (Strategic Plan 2009-2017, Objective 3, Target 2)
Applicable only for countries in regions where Training of Trainers programme has taken place
☑ No
Pressures and Responses
9. Implementation

37. Has your country approached non-contracting parties to encourage them to ratify the Agreement? (Resolution 3.10)
Report only on activities over the past triennium
☑ No

38. Has your country supported/developed international co-operation projects for the implementation of the Agreement, according to the priorities outlined in the AEWA International Implementation Tasks (IIT) for the current triennium? (Resolution 3.11)
☑ No

39. Has your country resourced the AEWA Small Grants Fund over the past triennium? (Strategic Plan 2009-2017, Objective 5, Target 5)
☑ No

40. Does your country have in place a national coordination mechanism for implementation of AEWA, possibly linking to national coordination mechanisms for other biodiversity Multilateral Environmental Agreements (MEAs)? (Strategic Plan 2009-2017, Objective 5, Target 8)
☑ No
Pressures and Responses

10. Avian Influenza

42. What issues have proved challenging in responding nationally to the spread of the Highly Pathogenic Avian Influenza (HPAI) in the last triennium and what further guidance or information would be useful in this respect?

List challenges
› Information of general public

43. Have you visited and used as a reference the AIWEb (the Avian Influenza, Wildlife and the Environment web site)?
☑ No
11. Confirmation

Confirmation of information verification and approval for submission

Please confirm:

In addition a scanned copy of an official letter from the relevant state institution, approving the report for submission, can be attached.

☑ I declare that the information provided in the Report on the implementation of AEWA for the period 2009-2011 has been verified and the report has been approved for submission by the appropriate state institution in the country.

Date of submission
› 19/02/2012
