

5th SESSION OF THE MEETING OF THE PARTIES

14 – 18 May 2012, La Rochelle, France

“Migratory waterbirds and people - sharing wetlands”

**REPORT ON THE IMPLEMENTATION OF THE AEWA INTERNATIONAL
IMPLEMENTATION TASKS 2009-2016**

Introduction

The AEWA International Implementation Tasks (IITs) for 2009-2016 were approved at the 4th Session of the Meeting of The Parties (MOP4) with Resolution 4.10 as the medium-term priorities for international cooperation activities for implementation of the Agreement. Special emphasis was put on the support required for the implementation of the WOW/African-Eurasian Flyway GEF project and a quarter of the tasks were identified as matching funding for the WOW project. The implementation of IITs 2009-2016, similarly to the IITs from previous periods, has been fully dependent on voluntary contributions from Contracting Parties. Since 2009, approximately €1.440.000 has been accrued in the form of voluntary contributions by the Secretariat (for further details please see document AEWA/MOP 5.40) and was partly allocated to the implementation of the IITs. Of the 31 tasks listed, 13 have been partly or fully implemented, some of them linked to the operations of the Wings Over Wetlands (WOW) UNEP/GEF African-Eurasian Flyways Project. For the full implementation of the IIT 2009-2012, a total amount of approximately €11.670.000 would have been required.

This overview covers activities where the Secretariat has been involved, WOW project implementation-related activities, projects reported by Contracting Parties in their national reports to MOP5 and activities by partner organisations whenever communicated to the Secretariat.

Action requested from the Meeting of the Parties

The Meeting of the Parties is requested to review the progress made in the implementation of the AEWA International Implementation Tasks 2009-2016 as a background to the considerations of the newly proposed IITs 2012-2015/2016 (draft Resolution AEWA/MOP DR3 Corr. 1).
