

Report on the implementation of AEWA for the period 2009-2011

The format for reports on the implementation of the Agreement on the Conservation of African-Eurasian Migratory Waterbirds (AEWA) for the period 2009-2011 was approved at the 4th session of the Meeting of the Parties (15-19 September 2008, Antananarivo, Madagascar) by Resolution 4.7. Further amendments were endorsed by the Standing Committee in August 2011 in accordance with operative paragraph 11 of Resolution 4.7. This format has been constructed following the AEWA Action Plan, the AEWA Strategic Plan 2009-2017 and resolutions of the Meeting of the Parties (MOP).

In accordance with Article V.1(c) of the Agreement on the Conservation of African-Eurasian Migratory Waterbirds, each Party shall prepare to each ordinary session of the MOP a National Report on its implementation of the Agreement and submit that report to the Agreement Secretariat not later than 120 days before the session of the MOP. The 5th Session of the Meeting of the Parties (MOP5) is taking place on 14-18 May 2012 in La Rochelle, France; therefore **the deadline for submission of National Reports is 14 January 2012.**

The AEWA National Reports 2009-2011 will be compiled and submitted through the CMS Family Online Reporting Facility, which is an online reporting tool for the whole CMS Family. However, AEWA will be the first of the CMS-related treaties to use the CMS Family Online Reporting System for its reporting to MOP5. The CMS Family Online Reporting System was developed in 2010-2011 by the UNEP-World Conservation Monitoring Centre (UNEP-WCMC) in close collaboration with and under the guidance of the UNEP/AEWA Secretariat.

As a new product, the system may still need some refining and improving, we therefore request your understanding: any feedback or suggestions on your side would be greatly appreciated.

The online reporting system offers flexibility and versatility superior to the previously used paper-based reporting and the UNEP/AEWA Secretariat hopes that the Parties will find it to be more convenient and efficient. In particular, it will make information more easily accessible and also enhance ways of using it. In this context, Resolution 4.7 also requests UNEP to assist in the development of an analytical tool and calls upon Parties to support this initiative and provide financial resources and thus strengthen the online format for national reporting in collaboration with UNEP-WCMC. The online reporting system brings national reporting to a different level, enabling the information provided to be used much more effectively; it also serves as a tool for self-assessment by Parties. In addition, it can help to enhance cooperation and coordination between various stakeholders in your country by making the national reporting more of a collective, collaborative and continuous process.

To contact the UNEP/AEWA Secretariat please send your inquiries to aewa_national_reporting@unep.de.

1. General Information

Name of reporting Contracting Party

> Norway

Date of entry into force of AEWA in the Contracting Party

> 01.09.2008

List any reservations that the Contracting Party has made (if any) upon deposition of its instruments of accession on provisions of the Agreement or its Action Plan in accordance with Article XV of AEWA

> None

2. Institutional Information

Please update information on the National AEWA Administrative Authority, the National Focal Points, the Designated National Respondent and the other contributors to this report.

Designated National AEWA Administrative Authority

Legal Status

(measures as per paragraph 2.1.1 of the AEWA Action Plan - applicable to species with populations listed on Column A of the AEWA Table 1)

Taking of birds and eggs prohibited

☒ Yes

Deliberate disturbance prohibited

☒ Yes

Possession or utilization of, and trade in, birds, eggs or any readily recognisable parts or derivatives prohibited

☒ No

Legal Status

(measures as per paragraph 2.1.2 of the AEWA Action Plan - applicable to species with populations listed on Column B of the AEWA Table 1)

Taking of birds and eggs during reproductive or rearing period and pre-nuptial migration prohibited

☒ Yes

Regulated modes of taking in place

☒ Yes

Established limits of taking (birds or eggs per hunter per day or season)

☒ No

Prohibited possession or utilization of, and trade in, birds and eggs of the populations which have been taken in contravention of any prohibition laid down pursuant to the provisions of paragraph 2.1.2 of the AEWA Action Plan (i.e. in the reproductive or rearing period, pre-nuptial migration, using modes of taking that are under regulation, and excess over the limits) as well as the possession or utilization of, and trade in, any parts of such birds and their eggs

☒ Yes

Legal Status - Field for additional information (optional)

Optionally you can provide additional information on the legal status of the species in the country

> Fully protected, no taking.

National Red List Status

Is a National Red List of threatened species maintained in your country?

☒ Yes

Do National Red Lists have a legal status in your country?

☒ Yes

Latest assessment

Indicate the category of the species on the National Red List. If your national categories differ from these ones, indicate those which most closely correspond to them.

☒ Not Assessed

Year
> 2010

Previous assessment

Indicate the category of the species on the National Red List. If your national categories differ from these ones, indicate those which most closely correspond to them.

☒ Not Assessed

AEWA Species - *Podiceps auritus* / Slavonian Grebe

English Common name(s):

Horned Grebe, Slavonian Grebe

French Common name(s):

Trend data quality

☒ Poor

Source of information

> BirdLife International (2004) Birds in Europe: population estimates, trends and conservation status. Cambridge, UK: BirdLife International. (BirdLife Conservation Series No. 12).

Species Status - Passage

Does the species occur in the country during the passage period?

☒ Yes

Are quantitative estimates for the passage numbers available?

☒ No

Please provide a qualitative estimate for the passage numbers

☒ Frequent, but small numbers

Species Status - Non-breeding/wintering

Does the species occur in the country during the non-breeding/wintering period?

☒ No

Legal Status

(measures as per paragraph 2.1.1 of the AEWA Action Plan - applicable to species with populations listed on Column A of the AEWA Table 1)

Taking of birds and eggs prohibited

☒ Yes

Deliberate disturbance prohibited

☒ Yes

Possession or utilization of, and trade in, birds, eggs or any readily recognisable parts or derivatives prohibited

☒ No

Legal Status

(measures as per paragraph 2.1.2 of the AEWA Action Plan - applicable to species with populations listed on Column B of the AEWA Table 1)

Taking of birds and eggs during reproductive or rearing period and pre-nuptial migration prohibited

☒ Yes

Regulated modes of taking in place

☒ No

Established limits of taking (birds or eggs per hunter per day or season)

☒ No

Prohibited possession or utilization of, and trade in, birds and eggs of the populations which have been taken in contravention of any prohibition laid down pursuant to the provisions of paragraph 2.1.2 of the AEWA Action Plan (i.e. in the reproductive or rearing period, pre-nuptial migration, using modes of taking that are under regulation, and excess over the limits) as well as the possession or utilization of, and trade in, any parts of such birds and their eggs

☒ Yes

National Red List Status

Is a National Red List of threatened species maintained in your country?

☒ Yes

Do National Red Lists have a legal status in your country?

☒ Yes

Field for additional information (optional)

Optionally you can provide additional information on the National Red List status of the species

> Assessed in 2006 and 2010 but not redlisted.

AEWA Species - *Tringa totanus* / Common Redshank

English Common name(s):

Common Redshank, Redshank

French Common name(s):

Chevalier gambette

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

☒ The species occurs in the country

Native or non-native species

Please confirm whether the species is native or non-native to your country

Legal Status

(measures as per paragraph 2.1.1 of the AEWA Action Plan - applicable to species with populations listed on Column A of the AEWA Table 1)

Taking of birds and eggs prohibited

☒ Yes

Deliberate disturbance prohibited

☒ Yes

Possession or utilization of, and trade in, birds, eggs or any readily recognisable parts or derivatives prohibited

☒ No

Legal Status

(measures as per paragraph 2.1.2 of the AEWA Action Plan - applicable to species with populations listed on Column B of the AEWA Table 1)

Taking of birds and eggs during reproductive or rearing period and pre-nuptial migration prohibited

☒ Yes

Established limits of taking (birds or eggs per hunter per day or season)

☒ No

Prohibited possession or utilization of, and trade in, birds and eggs of the populations which have been taken in contravention of any prohibition laid down pursuant to the provisions of paragraph 2.1.2 of the AEWA Action Plan (i.e. in the reproductive or rearing period, pre-nuptial migration, using modes of taking that are under regulation, and excess over the limits) as well as the possession or utilization of, and trade in, any parts of such birds and their eggs

☒ Yes

National Red List Status

Is a National Red List of threatened species maintained in your country?

☒ Yes

Do National Red Lists have a legal status in your country?

☒ Yes

Latest assessment

Indicate the category of the species on the National Red List. If your national categories differ from these ones, indicate those which most closely correspond to them.

☒ Near Threatened

Year

> 2010

Previous assessment

Indicate the category of the species on the National Red List. If your national categories differ from these ones, indicate those which most closely correspond to them.

☒ Near Threatened

Year

> 2006

Field for additional information (optional)

Optionally you can provide additional information on the National Red List status of the species

> Redlisting applies to Svalbard breeding population.

AEWA Species - *Larus glaucoideus* / Iceland Gull

English Common name(s):

Iceland Gull

French Common name(s):

Goéland à ailes blanches, Goéland arctique

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

☒ The species occurs in the country

Native or non-native species

Please confirm whether the species is native or non-native to your country

☒ Native

AEWA Table 1 Categorisation

Please indicate the AEWa Table 1 category(ies) applicable to the population(s) of this species occurring in the country.

☒ Column C - Category 1

Species Status - Breeding

Does the species occur in the country during the breeding period?

☒ No

Species Status - Passage

Does the species occur in the country during the passage period?

☒ Yes

Are quantitative estimates for the passage numbers available?

☒ No

Please provide a qualitative estimate for the passage numbers

☒ Frequent, but small numbers

Species Status - Non-breeding/wintering

Does the species occur in the country during the non-breeding/wintering period?

☒ Yes

National Action Plan LWfG

When was the plan approved and published? Please provide a web link or attach a file, if available. Please provide contact details for any person or organisation coordinating its implementation. Please list any activities and/or achievements over the past triennium.

> The most recent approved in 2011.

Coordinated by Directorate for Nature Management.

You have attached the following Web links/URLs to this answer.

National Action Plan - Lesser White-fronted Goose Norwegian action plan

National Single Species Action Plan for *Crex crex* / Corncrake

For *Crex crex* / Corncrake

☒ NSSAP in place and being implemented

When was the plan approved and published? Please provide a web link or attach a file, if available. Please provide contact details for any person or organisation coordinating its implementation. Please list any activities and/or achievements over the past triennium.

> DN report 2008-3. Updated version not published.

National Single Species Action Plan for *Limosa limosa* / Black-tailed Godwit

For *Limosa limosa* / Black-tailed Godwit

☒ NSSAP in place and being implemented

When was the plan approved and published? Please provide a web link or attach a file, if available. Please provide contact details for any person or organisation coordinating its implementation. Please list any activities and/or achievements over the past triennium.

> 2011. Not printed yet.

3. Do you have in place or are you developing a National Single Species Action Plan for any species/population for which an AEWA ISSAP has not been developed? (AEWA Action Plan, paragraph 2.2.2)

☒ No

4. Did you use the AEWA Guidelines for the preparation of National Single Species Action Plans for migratory waterbirds?

☒ Yes

Please provide details

> See ISSAP and NSAP for LWfG.

Coordinated by Directorate for Nature Management.

4.3 Emergency Measures

5. Please report on any emergency situation that has occurred in your country over the past triennium and has threatened waterbirds. (AEWA Action Plan, paragraph 2.3)

Please indicate whether an emergency situation threatening waterbirds, such as botulism, chemical pollution, earthquake, extreme weather, fire, harmful algal bloom, infectious disease, introduction of alien species, lead poisoning, nuclear accident, oil spill, predation, volcanic activity, war or other emergency (please specify), has occurred in the country over the past triennium

☒ Emergency situation has occurred

Please provide information on each emergency situation which occurred

Oil spill

Indicate when the emergency situation took place

> Winter 2010

Indicate where the emergency situation took place (including geographical coordinates)

> Southernmost coast (Oslofjord-area).

Indicate which species were affected by the emergency situation

☒ Somateria mollissima / Common Eider

Indicate the estimated magnitude of impact (e.g. number of individuals per species/population that suffered/died, area of habitat(s)/site that was affected, etc.)

> 5000 birds or more oiled

Many NR impacted

Have emergency measures been implemented?

☒ Yes

Please provide details

> Emergency team take on task for clean up program

6. Are there any other emergency measures, which were not mentioned above, but were developed and are in place in your country?

☒ Yes

Please provide information on each emergency situation for which measures have been developed and are in place

Measures for Oil spill

Shortly describe the emergency measures in place in your country

> Emergency routines established at Directorate for Nature Management.

7. Did you use the AEWA Guidelines on identifying and tackling emergency situations for migratory waterbirds?

☒ No

Please explain the reasons. What was used instead as a basis for dealing with emergency situations?
> National emergency routines in place.

4.4 Re-establishments

8. Is there a regulatory framework for re-establishments of species, including waterbirds, in your country (AEWA Action Plan, paragraph 2.4)?

☒ No

Please provide details

> Will be developed when need arises.

9. Are you maintaining a national register of re-establishment projects occurring or planned to occur wholly or partly within your country? (Resolution 4.4)

☒ No

Please explain the reasons

> Few such programmes, no need for register.

10. Has your country considered, developed or implemented re-establishment projects for any species listed on AEWA Table 1? (AEWA Action Plan, paragraph 2.4)

☒ No

4.5 Introductions

11. Does your country have legislation in place, which prohibits the introduction of non-native species of animals and plants, which may have a detrimental effect? (AEWA Action Plan, paragraph 2.5.1)

☒ Yes, and being enforced

Please provide the following details: title of legislation, year of adoption, institution that adopted it, institution that enforces it

> National Biodiversity Act 2009 and Wildlife Act 1981.

Field for additional information (optional)

> Norwegian Directorate for Nature Management coordinator, adopt, fund and implement.

12. Has your country introduced requirements to zoos, private collections, etc. in order to avoid the accidental escape of captive birds belonging to non-native species? (AEWA Action Plan, paragraph 2.5.2)

☒ Yes, but not being enforced properly or at all

Please provide the following details: title of the document, year of adoption, institution that adopted it, institution that enforces it, including reasons for non-enforcement

> Food and health authority regulations apply for zoos etc.

Act of 2009, administered and enforced by the Food and health authority (www.mattilsynet.no).

You have attached the following Web links/URLs to this answer.

[Act on animal welfare 2009](#) - Animal welfare act

13. Does your country have in place a National Action Plan for Invasive Species (NAPIS) (in the framework of other MEAs, such as CBD, Bern Convention, and GISP (Global Invasive Species Programme) (Strategic Plan 2009-2017, Objective 1, Target 5)?

☒ Yes, and being implemented

Has consideration been given to waterbirds in the NAPIS?

☒ Yes, fully

Field for additional information (optional)

> National Biodiv Act puts in place requirement for EIA and documentation prior to permits. Cf application procedures.

14. Has an eradication programme been considered, developed or implemented for any non-native waterbird species in your country?

☒ No

Please explain the reasons

› Not regarded as necessary as few problems.

15. Did you use the AEWA Guidelines on avoidance of introductions of non-native waterbird species?

☒ Yes

Please provide details

› In development of Biodiv act 2009 and in review of applications.

Pressures and Responses

5. Habitat Conservation

5.1 Habitat Inventories

16. Has your country identified the network of all sites of international and national importance for the migratory waterbird species/populations listed on Table 1? (AEWA Action Plan, paragraph 3.1.2)

☒ Yes

Please provide full reference, e.g. title, year, authors, etc. or a web link

> IBA system (Birdlife).

National protection program + review of program 2010.

Ramsar sites.

Emerald Network sites.

You have attached the following Web links/URLs to this answer.

[Overview protected areas Norway](#) - Information on environmental issues pages.

[Ramsar sites in Norway](#) - Ramsar i Norway

Field for additional information (optional)

You have attached the following Web links/URLs to this answer.

[Overview protected areas Norway](#) - In Norwegian overview.

17. If your country has identified or is currently identifying the networks of sites of international and national importance, have you used the AEWA Guidelines on the preparation of site inventories for migratory waterbirds?

☒ No

Please explain the reasons. What has been used instead as a basis for the inventory?

> No recent inventory established using the guidelines.

5.2. Conservation of Areas

18. Which sites that were identified as important, either internationally or nationally, for Table 1 migratory waterbird species/populations have been designated as protected areas under the national legislation and have management plans that are being implemented? (AEWA Action Plan, paragraph 3.2.1)

Please report on both internationally and nationally important sites

☒ Reporting on designation and management of internationally important sites

☒ Reporting on designation and management of nationally important sites

All sites of international importance

Total number

> 65

Total area (ha)

> 93070

Out of the above total: number of protected sites

> 33

Out of the above total: protected area (ha)

> 35000

Number of protected sites with management plans in place which are being implemented

> 33

Area under protection (in ha) covered by management plans which are being implemented

> 35000

All sites of national importance

Total number

> 1000

Total area (ha)

> 210000

Out of the above total: number protected sites

> 1000

Out of the above total: protected area (ha)

> 210000

Number of protected sites with management plans in place which are being implemented

> 1000

Area under protection (in ha) covered by management plans which are being implemented

> 210000

Examples of best practice (optional)

If any site, in your opinion, represents an outstanding process of management planning or implementation, please highlight it as an example of best practice (alternatively provide a web link or attach a file)

> All protected sites has its own management plan.

19. Has your country used the AEWA Guidelines on the management of key sites for migratory waterbirds?

☒ No

Please explain the reasons. What guidance has been used instead?

> Our own handbooks on management of sites.

20. Have you accessed and used the Critical Site Network (CSN) Tool for the AEWA area?

☒ No

Please explain the reasons

> Not nationally, but for other regions.

Optionally you can provide additional information on section 5.2. Conservation of Areas

> These statistics are not as easy to give as it might look! This is due to the fact that you need to analyse the different protected areas, so differentiate between wetlands and other kinds of habitat (forest, mountainst etc). The data presented here originated from 2001 when a full study of this was commissioned. Nordic Wetland Conservation, Tema Nord 2004:506.

Pressures and Responses

6. Management of Human Activities

6.1. Hunting

21. Does your country have an established system for the collection of harvest data, which covers the species listed in Table 1? (AEWA Action Plan, paragraph 4.1.3)

☒ Yes

Does it cover the following? (tick where applicable and provide details)

☒ Only some AEWA species occurring in your country

☒ The whole territory of your country

☒ All harvesting activities

☒ Other

> Relates to bag statistics which is obligatory and punishable with fines if not reported on. See Statistics Norway annual reports.

You have attached the following Web links/URLs to this answer.

[Small game statistics](#)

22. Has your country phased out the use of lead shot for hunting in wetlands? (AEWA Action Plan, paragraph 4.1.4)

☒ Fully

When was the lead shot use in wetlands banned? What legislation is in place? Who does enforce this legislation?

> 1997. Pollution Control Act. Sale banned.

State Inspectorate and others enforce and control.

23. Are there measures in your country to reduce/eliminate illegal taking? (AEWA Action Plan, paragraph 4.1.6)

☒ Yes

How would you rate the effectiveness of the measures?

☒ Moderate

Please provide details

> State inspectorate controls + use of public media to increase awareness and alertedness.

24. Has your country used the AEWA Guidelines on sustainable harvest of migratory birds?

☒ No

Please explain the reasons. What other guidance has been used instead?

> Populations statistics used to either ban or open hunting.

6.2. Other human activities

25. Does your country have legislation in place, which provides for Strategic Environmental Assessment/Environmental Impact Assessment (SEA/EIA) of activities potentially negatively affecting natural habitats or wildlife? (AEWA Action Plan, paragraph 4.3.1)

☒ Yes and being implemented

Do the SEA/EIA processes consider waterbirds and habitats on which they depend?

☒ Yes

Please provide details

> Obligatory analysis of impacts on ia waterbirds of any construction activities or other activities.

Do the SEA/EIA processes include public participation?

☒ Yes

Please provide details

> Public hearing of all projects and public access to all results of SEA/EIA.

26. In the last three years, has your country used SEA/EIA for all relevant projects to assess the impact of proposed projects on migratory waterbird species listed on table 1 and/or habitats/sites on which they depend? (AEWA Action Plan, paragraph 4.3.1)

☒ Yes, all proposed projects

Please provide information on the outstanding cases

› See above on requirements for projects.

27. Is by-catch of waterbirds in fishing gear taking place in your country? (Resolution 3.8)

☒ Yes

Please provide details

› Most recent report on knowledge status in 2011.

You have attached the following Web links/URLs to this answer.

[Bycatch in Norwegian fisheries.](#)

28. Has your country undertaken steps towards the adoption/application of measures to reduce the incidental catch of seabirds and combat Illegal Unregulated and Unreported (IUU) fishing practices in the Agreement area? (Resolution 3.8)

☒ Yes

Please provide short description of all actions

› See report 2011 from NINA. Constant development of new techniques to reduce bycatch.

Pressures and Responses

7. Research and Monitoring

29. Does your country have waterbird monitoring schemes for the AEWA species in place? (Strategic Plan 2009-2017, Objective 3, Target 2)

☒ Yes

You have attached the following Web links/URLs to this answer.

Seabird populations monitoring programme

Covering the breeding period

☒ Fully

Please provide details

> See SEAPOP programme.

For other AEWA species no monitoring in place. Terrestrial monitoring programme cover other species and habitat parameters (see <http://www.dirnat.no/content/409/Terrestrisk-naturovervaking-TOV>)

You have attached the following Web links/URLs to this answer.

Terrestrial monitoring programme - Directorate for Nature Management national terrestrial monitoring programme.

Covering the passage/migration period

☒ No monitoring schemes in place

Please explain the reasons

> Only voluntary observations at Bird Observatories. National authority has focus on winter and breeding season populations.

Covering the non-breeding/wintering period

☒ Fully

Please provide details

> Annual winterbird count, see SEAPOP programme.

30. Have you used the AEWA Guidelines for a waterbird monitoring protocol?

☒ No

Please explain the reasons. What guidance has been used instead?

> Own programme developed in coordination with other European countries.

31. List (or provide links to lists) of research related to waterbirds and their conservation that has been undertaken or results published in the past triennium (Strategic Plan 2009-2017, Objective 3, Target 5)

> See SEAPOP programme.

Field for additional information (optional)

> Have a look at Web of knowledge!

32. Has your government provided over the past triennium funds and/or logistical support for the International Waterbird Census at international or national level? (Strategic Plan 2009-2017, Objective 3, Target 1)

☒ No

Please explain the reasons

> Annual contribution to WI.

Pressures and Responses

8. Education and Information

8.1. AEWA Communication Strategy

33. Has your country developed and implemented programmes for raising awareness and understanding on waterbird conservation and about AEWA? (Strategic Plan 2009-2017, Objective 3, Target 3 and AEWA Action Plan, paragraphs 6.1-6.4)

☒ Other

Please explain

> Combination of collaboration with hunter organisations, research institutions, orn. society and our own programmes such as SEAPOP. Dissemination of information to members of these organisations. No separate or specific outreach programme for the AEWA species in place, but included in bilateral contacts and operating action plans.

34. Has your country provided funding and other support, as appropriate (e.g. expertise, network, skills and resources), secured for the implementation of the AEWA Communication Strategy? (Strategic Plan 2009-2017, Objective 3, Target 1 and Resolution 3.10)

☒ No

Please explain the reasons

> No direct application for this.

35. In Resolution 3.10 the Meeting of the Parties encouraged Contracting Parties to host AEWA Exchange Centres for their respective regions. Has your country considered/shown interest in hosting a Regional AEWA Exchange Centre? (Strategic Plan 2009-2017, Objective 3, Target 2 and Resolution 3.10)

☒ Not considered yet

Please provide details on the answer given above

> Activities related to information on protected areas occurs through nature information centres, and three new (planned 2012) Ramsar wetlands centres. All centres are used for international meetings and exchange of information/experience on management, legal issues etc.

We do not intend to establish separate AEWA centres as these are costly to establish and costly to run.

36. Training for CEPA (Communication, Education and Public Awareness) at national level is supposed to be conducted by staff, which has been trained in the framework of the AEWA Training of Trainers programme. Has such training taken place in your country in the past triennium? (Strategic Plan 2009-2017, Objective 3, Target 2)

Applicable only for countries in regions where Training of Trainers programme has taken place

☒ Other

Please explain

> Focussed more with Ramsar activities, both through seminars, national and regional. Outreach activities relevant through nature information centres (three dedicated for wetlands).

Pressures and Responses

9. Implementation

37. Has your country approached non-contracting parties to encourage them to ratify the Agreement? (Resolution 3.10)

Report only on activities over the past triennium

☒ No

Please explain the reasons

› Has not been on our agenda so far. Left to the AEWA Secretariat to pursue.

38. Has your country supported/developed international co-operation projects for the implementation of the Agreement, according to the priorities outlined in the AEWA International Implementation Tasks (IIT) for the current triennium? (Resolution 3.11)

☒ Yes

Please list grants provided to IIT projects, or list all undertaken initiatives and briefly provide any relevant information

› Lesser White-fronted Goose projects on flyway 2008-2011:

Late 2008: Salary LWfG coordinator, 59K eur

Jan 2010: LWfG projects, 40K eur

Aug 2010: Helsinki IWG meeting/KZ monitoring 2010, 65K eur

March 2011: LWfG projects, 71K eur

July 2011: Salary LWfG coordinator, 15K eur

Nov 2011: LWfG project KZ, 100K eur

39. Has your country resourced the AEWA Small Grants Fund over the past triennium? (Strategic Plan 2009-2017, Objective 5, Target 5)

☒ No

Please explain the reasons

› We have focused on contributions to other activities within AEWA.

40. Does your country have in place a national coordination mechanism for implementation of AEWA, possibly linking to national coordination mechanisms for other biodiversity Multilateral Environmental Agreements (MEAs)? (Strategic Plan 2009-2017, Objective 5, Target 8)

☒ Yes, it is operational on a regular basis

Please provide details

› Full coordination within Ministries.

41. How would you suggest promoting further links between the biodiversity MEAs to which your country is a Contracting Party, so as to make your work more efficient and effective?

› Change in IEG and clustering of relevant MEAs.

Pressures and Responses

10. Avian Influenza

42. What issues have proved challenging in responding nationally to the spread of the Highly Pathogenic Avian Influenza (HPAI) in the last triennium and what further guidance or information would be useful in this respect?

List challenges

› Originally lack of knowledge.

More collaboration with health and food security authority (www.mattilsynet.no).

List required further guidance or information

› Info on AEWA web site or link there to appropriate sites would be sufficient.

43. Have you visited and used as a reference the AIWEb (the Avian Influenza, Wildlife and the Environment web site)?

☒ Yes

Field for additional information (optional)

› Related to communication with WI on the issue and the national food and health authority.

11. Confirmation

Confirmation of information verification and approval for submission

Please confirm:

In addition a scanned copy of an official letter from the relevant state institution, approving the report for submission, can be attached.

☒ I declare that the information provided in the Report on the implementation of AEWA for the period 2009-2011 has been verified and the report has been approved for submission by the appropriate state institution in the country.

Date of submission

> 20.1.2012
