The main issues of this meeting are:

The Secretariat has commissioned a genetics expert to complete an independent scientific review on LWfG genetics in accordance with the Terms of Reference agreed upon by the Committee. The review is being funded by the Swedish Environmental Protection Agency. The review will be completed in time for the Committee meeting and the expert in question will hopefully be able to join us and present the review to the Committee in person.

WWT feasibility study for a reintroduction/supplementation programme for the LWfG in Norway

Following the presentation of the preliminary results of the WWT study at the last RECAP meeting, the Secretariat suggests that the final recommendations and conclusions of the study be presented to the Committee.

Country Updates

We would like to encourage you to give a short update on recent or ongoing activities in your country, followed by a short discussion.

Terms of Reference for an Independent Scientific Review on Lesser White-fronted Goose Flyways

The Committee is requested to review and adopt the Terms of Reference for the independent scientific review. This will allow the Secretariat to proceed with the commissioning of the review. The draft ToR will be sent to you for comments in advance.

Funding possibilities in the Nordic countries

The Secretariat will prepare an overview of funding possibilities in the Nordic countries for discussion.

Implementation of the International Single Species Action Plan for the Lesser White-fronted Goose and the up-coming Meeting of the AEWa Lesser White-fronted Goose International Working Group

The Secretariat will submit a short report on the implementation of the SSAP to the Committee and briefly introduce its plans for the international coordination of the implementation efforts in the range states. The Committee is also invited to discuss the up-coming Meeting of the AEWa Lesser White-fronted Goose International Working Group.

Project proposal from Aktion Zwerggans for the release of Lesser White-fronted Geese

The project proposal from the German NGO Aktion Zwerggans for the release of Lesser White-fronted Geese with the help of ultra light aircraft will be submitted to the Committee members for review with the aim of reaching a decision on the project at the RECAP meeting.
