

DRAFT RESOLUTION 3.3

DEVELOPMENT OF AN ONLINE NATIONAL REPORT FORMAT

Recalling Resolution 1.3 on establishment of a triennial national report format,

Noting the low rate of submission of National Reports to MOP2 and MOP3,

Aware that implementation of the Agreement and its Action Plan will be enhanced by regular review of national implementation,

Further noting that the Sixth Meeting of the Technical Committee recommended to develop a form of an online report facility as a tool for better harmonisation of the AEWA reporting templates,

Aware as the information submitted by Parties improves over time, both in terms of its comprehensiveness and precision, the facility will be an extremely valuable tool for assessing implementation and identifying gaps,

The Meeting of the Parties,

Instructs the Agreement Secretariat, in close cooperation with the Technical Committee, to organize the development of an online national report format to be submitted for approval to MOP4.
