

L'Accord sur la conservation des oiseaux d'eau migrateurs d'Afrique-Eurasie (AEWA)

# Report on the implementation of AEWA for the period 2009-2011

The format for reports on the implementation of the Agreement on the Conservation of African-Eurasian Migratory Waterbirds (AEWA) for the period 2009-2011 was approved at the 4th session of the Meeting of the Parties (15-19 September 2008, Antananarivo, Madagascar) by Resolution 4.7. Further amendments were endorsed by the Standing Committee in August 2011 in accordance with operative paragraph 11 of Resolution 4.7. This format has been constructed following the AEWA Action Plan, the AEWA Strategic Plan 2009-2017 and resolutions of the Meeting of the Parties (MOP).

In accordance with Article V.1(c) of the Agreement on the Conservation of African-Eurasian Migratory Waterbirds, each Party shall prepare to each ordinary session of the MOP a National Report on its implementation of the Agreement and submit that report to the Agreement Secretariat not later than 120 days before the session of the MOP. The 5th Session of the Meeting of the Parties (MOP5) is taking place on 14-18 May 2012 in La Rochelle, France; therefore **the deadline for submission of National Reports is 14 January 2012**.

The AEWA National Reports 2009-2011 will be compiled and submitted through the CMS Family Online Reporting Facility, which is an online reporting tool for the whole CMS Family. However, AEWA will be the first of the CMS-related treaties to use the CMS Family Online Reporting System for its reporting to MOP5. The CMS Family Online Reporting System was developed in 2010-2011 by the UNEP-World Conservation Monitoring Centre (UNEP-WCMC) in close collaboration with and under the guidance of the UNEP/AEWA Secretariat.

As a new product, the system may still need some refining and improving, we therefore request your understanding: any feedback or suggestions on your side would be greatly appreciated.

The online reporting system offers flexibility and versatility superior to the previously used paper-based reporting and the UNEP/AEWA Secretariat hopes that the Parties will find it to be more convenient and efficient. In particular, it will make information more easily accessible and also enhance ways of using it. In this context, Resolution 4.7 also requests UNEP to assist in the development of an analytical tool and calls upon Parties to support this initiative and provide financial resources and thus strengthen the online format for national reporting in collaboration with UNEP-WCMC. The online reporting system brings national reporting to a different level, enabling the information provided to be used much more effectively; it also serves as a tool for self-assessment by Parties. In addition, it can help to enhance cooperation and coordination between various stakeholders in your country by making the national reporting more of a collective, collaborative and continuous process.

To contact the UNEP/AEWA Secretariat please send your inquiries to aewa national reporting@unep.de.

# 1. General Information

**Name of reporting Contracting Party** 

> Romania

Date of entry into force of AEWA in the Contracting Party > 01/10/1999

List any reservations that the Contracting Party has made (if any) upon deposition of its instruments of accession on provisions of the Agreement or its Action Plan in accordance with Article XV of AEWA

> None

# 2. Institutional Information

Please update information on the National AEWA Administrative Authority, the National Focal Points, the Designated National Respondent and the other contributors to this report.

# **Designated National AEWA Administrative Authority**

Full name of the institution

> Ministry of Environment and Forests

Name and title of the head of institution

> László BORBÉLY

# Designated National Respondent (DNR) in charge of the compilation and submission of the AEWA National Report 2009-2011

Please select from the list below as appropriate.

☑ The National Focal Point (NFP) has been designated as the National Respondent

### Other contributors to the AEWA National Report 2009-2011

Please list the names and affiliations (institution, organisation) of the other contributors to this reports

- > □ The "Danube Delta" National Institute for Research and Development
- The Danube Delta" Biosphere Reserve Authority
- Romanian Ornithological Society
- "Milvus Group" Bird and Nature Protection Association

# **Status**

# 3. Species Status

Please select from the drop-down list below only the species that occur in your country

## **AEWA Species - Gavia stellata / Red-throated Diver**

**English Common name(s):** 

Red-throated Diver, Red-throated Loon

French Common name(s):

Plongeon catmarin

# Confirmation of species occurrence

Please confirm the occurrence of the species in the country ☐ The species occurs in the country

# Native or non-native species

Please confirm whether the species is native or non-native to your country  $\ \square$  Native

## **AEWA Table 1 Categorisation**

Please indicate the AEWA Table 1 category(ies) applicable to the population(s) of this species occurring in the country.

☑ Column B - Category 1

## **Species Status - Breeding**

### **Species Status - Passage**

Are quantitative estimates for the passage numbers available?  $\ \square$  No

Please provide a qualitative estimate for the passage numbers Regular, but small numbers

### Species Status - Non-breeding/wintering

## **Species Status - Passage**

Are quantitative estimates for the passage numbers available? 
☑ No

Please provide a qualitative estimate for the passage numbers 
☑ Regular and significant numbers

# Species Status - Non-breeding/wintering

Does the species occur in the country during the non-breeding/wintering period?  $\ \square$  No

#### **Legal Status**

# (measures as per paragraph 2.1.2 of the AEWA Action Plan - applicable to species with populations listed on Column B of the AEWA Table 1)

Taking of birds and eggs during reproductive or rearing period and pre-nuptial migration prohibited 

☑ Yes

#### Regulated modes of taking in place

 $\ \ \square$  No

Established limits of taking (birds or eggs per hunter per day or season)

✓ No

Prohibited possession or utilization of, and trade in, birds and eggs of the populations which have been taken in contravention of any prohibition laid down pursuant to the provisions of paragraph 2.1.2 of the AEWA Action Plan (i.e. in the reproductive or rearing period, pre-nuptial migration, using modes of taking that are under regulation, and excess over the limits) as well as the possession or utilization of, and trade in, any parts of such birds and their eggs

# **National Red List Status**

Is a National Red List of threatened species maintained in your country?

# **AEWA Species - Ixobrychus minutus / Little Bittern**

# **English Common name(s):**

Little Bittern

## French Common name(s):

Blongios nain

# Confirmation of species occurrence

# **Pressures and Responses**

# 4. Species Conservation

# 4.1 Legal Measures

1. Were any exemptions granted to the prohibitions laid down in paragraphs 2.1.1 and 2.1.2 of the AEWA Action Plan? (AEWA Action Plan, paragraph 2.1.3)

☑ No

# 4.2 Single Species Action Plans

2. Please report on the progress of turning the International Single Species Action Plans (ISSAP), for species whose populations are listed on Column A of Table 1, developed under or recognised by AEWA, into National Single Species Action Plans (NSSAP). (AEWA Action Plan, paragraph 2.2)

Please clarify the relevance of the AEWA International Single Species Action Plans or the other recognised plans (Dalmatian Pelican, Pygmy Cormorant, Red-breasted Goose, Marbled Teal, Slender-billed Curlew and Audouin's Gull) to your country

☑ At least one of the International Single Species Action Plans is relevant

You have attached the following Web links/URLs to this answer.

http://www.dalmatianpelican.ro/

# Please report on each relevant ISSAP

# National Single Species Action Plan for Oxyura leucocephala / White-headed Duck

For Oxyura leucocephala / White-headed Duck 
☑ No NSSAP

# National Single Species Action Plan for Pelecanus crispus / Dalmatian Pelican

For Pelecanus crispus / Dalmatian Pelican 
☑ NSSAP in place and being implemented

When was the plan approved and published? Please provide a web link or attach a file, if available. Please provide contact details for any person or organisation coordinating its implementation. Please list any activities and/or achievements over the past triennium.

> The Single Specie Action Plan for Pelecanus crispus was officially adopted into the national legal framework and it was integrated into the Management Plan of Danube Delta Biosphere Reserve. By the Government Decision No. 1066/20/10/2010 it was established the area with the limited access for the colonies of the Dalmatian Pelican located outside of the strictly protected areas.

You have attached the following Web links/URLs to this answer.

http://www.gov.ro/upload/articles/111469/nf-hg-1066-2010.pdf

Field for additional information (optional)

> Contact details: Danube Delta Biosphere Reserve Administration and Romanian Ornithological Society

You have attached the following Web links/URLs to this answer.

**DDBRA CONTACT** 

http://www.sor.ro/contact.html

3. Do you have in place or are you developing a National Single Species Action Plan for any species/population for which an AEWA ISSAP has not been developed? (AEWA Action Plan, paragraph 2.2.2)

# Please provide information on each species for which relevant action has been undertaken

# National Single Species Action Plan for Pelecanus crispus / Dalmatian Pelican

Please provide details

> In 2009 was elaborated The Action Plan for Pelecanus Crispus, inside of the Life Project named -Save

# National Single Species Action Plan for Phalacrocorax pygmeus / Pygmy Cormorant

For Phalacrocorax pygmeus / Pygmy Cormorant 
☑ NSSAP in place and being implemented

#### Please provide details

> Dalmatian Pelican (Pelecanus crispus) and Pygmy Cormorants – (Phalacrocorax pygmaeus ) are two species strictly protected from hunting by Romanian legislation.

The Romanian Committee for Nature Monuments Protection designated these species as having a Nature Monument status.

# 4. Did you use the AEWA Guidelines for the preparation of National Single Species Action Plans for migratory waterbirds?

Yes

#### Please provide details

> In 2009 was elaborated The Action Plan for Pelecanus Crispus inside of The AEWA Guidelines for preparation of National Single Species Action Plans for migratory waterbirds was used in the Life Project named Save Pelecanus Crispus in Danube Delta

#### 4.3 Emergency Measures

# 5. Please report on any emergency situation that has occurred in your country over the past triennium and has threatened waterbirds. (AEWA Action Plan, paragraph 2.3)

Please indicate whether an emergency situation threatening waterbirds, such as botulism, chemical pollution, earthquacke, extreme weather, fire, harmful algal bloom, infectious disease, introduction of alien species, lead poisoning, nuclear accident, oil spill, predation, volcanic activity, war or other emergency (please specify), has occured in the country over the past triennium

☑ No emergency situation has occurred

# 6. Are there any other emergency measures, which were not mentioned above, but were developed and are in place in your country?

☑ No

# 7. Did you use the AEWA Guidelines on identifying and tackling emergency situations for migratory waterbirds?

√ Yes

#### Please provide details

> The AEWA Guidelines are used by the ornithologists from NGOs, universities, institutes for identifying and tackling emergency situations for migratory waterbirds in natural protected areas

#### 4.4 Re-establishments

# 8. Is there a regulatory framework for re-establishments of species, including waterbirds, in your country (AEWA Action Plan, paragraph 2.4)?

Partial

## Please provide details

> Insufficient allocation of funds for biodiversity.

Lack of human resources in the Ministry of Environment and Forests and in the Regional Environment Protection Agencies.

# 9. Are you maintaining a national register of re-establishment projects occuring or planned to occur wholly or partly within your country? (Resolution 4.4)

✓ No

#### Please explain the reasons

> There is a low administrative capacity to implement the legislation of biodiversity. Lack of financial resources

# 10. Has your country considered, developed or implemented re-establishment projects for any species listed on AEWA Table 1? (AEWA Action Plan, paragraph 2.4)

Yes

You have attached the following Web links/URLs to this answer.

 $\frac{\text{http://www.dalmatianpelican.ro/mainro.shtml?als[cid]=28841\&als[sid]=6fc4caaefc5461221ddee72eb141446c\&cmd[252]=c-1-28841\&cmd[255]=c-1-6fc4caaefc5461221ddee72eb141446c\&set[256]=slice_id-fbcef5d6c5a5dbae6833c767bf22b974\&cmd[256]=i-256-6fc4caaefc5461221ddee72eb141446c$ 

#### 4.5 Introductions

# 11. Does your country have legislation in place, which prohibits the introduction of non-native species of animals and plants, which may have a detrimental effect? (AEWA Action Plan, paragraph 2.5.1)

☑ Yes, and being enforced

Please provide the following details: title of legislation, year of adoption, institution that adopted it, institution that enforces it

> Order no 979/2009 on the introduction of alien species, invasive interventions on species and reintroduction of native species, adopted by the Ministry of Environment and Forests and enforces by the National Environment Protection Agency

You have attached the following Web links/URLs to this answer.

http://www.specii-invazive.ro/system/files/legislatie-ordin-979-din-10-iulie-2009-introducerea-de-specii-alohtone 0.pdf

# 12. Has your country introduced requirements to zoos, private collections, etc. in order to avoid the accidental escape of captive birds belonging to non-native species? (AEWA Action Plan, paragraph 2.5.2)

☑ Yes, and being enforced

Please provide the following details: title of the document, year of adoption, institution that adopted it, institution that enforces it

> Law no. 191/2000 of Public Zoos and Aquaria, adopted by the Romania's Parliament and enforces by the National Environment Protection Agency

Minister Order no. 1798/2007 adopted by the Ministry of Environment and Forests and enforces by the National Environment Protection Agency

# 13. Does your country have in place a National Action Plan for Invasive Species (NAPIS) (in the framework of other MEAs, such as CBD, Bern Convention, and GISP (Global Invasive Species Programme) (Strategic Plan 2009-2017, Objective 1, Target 5)?

 $\ensuremath{\square}$  Being developed

Please provide starting date and expected finalisation date of the process

> Is part of the national strategy and action plan for biodiversity conservation 2010-2020

You have attached the following Web links/URLs to this answer.

http://www.ddbra.ro/mediatizari/Strategia%20Privind%20Conservarea%20Diversitatii%20Biologice DRAFT.pdf

# 14. Has an eradication programme been considered, developed or implemented for any nonnative waterbird species in your country?

√ No

Please explain the reasons

> Insufficient financial and human resources

# 15. Did you use the AEWA Guidelines on avoidance of introductions of non-native waterbird species?

☑ No

Please explain the reasons. What was used instead as a basis for dealing with the issue?

> Staff insufficiently trained and experimented.

# Pressures and Responses 5. Habitat Conservation

#### 5.1 Habitat Inventories

16. Has your country identified the network of all sites of international and national importance for the migratory waterbird species/populations listed on Table 1? (AEWA Action Plan, paragraph 3.1.2)

Yes

Please provide full reference, e.g. title, year, authors, etc. or a web link

> Romania has designated 148 SPAs according to Government Decision No. 971/2011 that contain all sites of international and national importance for the migratory waterbird species/populations listed on Table 1 as part of Natura 2000 network.

You have attached the following Web links/URLs to this answer.

Goverment Decision No.971/2011 - Goverment Decision No.971/2011 and the Annex I with all the name of all 148 SPAs

17. If your country has identified or is currently identifying the networks of sites of international and national importance, have you used the AEWA Guidelines on the preparation of site inventories for migratory waterbirds?

√ Yes

Please provide details

> There is a large number of endangered habitats and species.

Low financial and human resources for the preparation of site inventories for migratory waterbirds.

Field for additional information (optional)

You have attached the following Web links/URLs to this answer.

## 5.2. Conservation of Areas

18. Which sites that were identified as important, either internationally or nationally, for Table 1 migratory waterbird species/populations have been designated as protected areas under the national legislation and have management plans that are being implemented? (AEWA Action Plan, paragraph 3.2.1)

Please report on both internationally and nationally important sites

- $\ensuremath{\square}$  Reporting on designation and management of internationally important sites
- ☑ Reporting on designation and management of nationally important sites

You have attached the following Web links/URLs to this answer.

**Biosphere Reserves** 

Ramsar Sites

#### All sites of international importance

Total number

> 8

Total area (ha)

> 824897

Out of the above total: number of protected sites

> 148

Number of protected sites with management plans in place which are being implemented > 3

Area under protection (in ha) covered by management plans which are being implemented

> 17529

You have attached the following documents to this answer.

Small Island.pdf

# All sites of national importance

Total number

>

You have attached the following documents to this answer.

<u>Lista nationala.docx</u> - Sites of national importance

Out of the above total: number protected sites

> 0

Out of the above total: protected area (ha)

> C

Number of protected sites with management plans in place which are being implemented

Area under protection (in ha) covered by management plans which are being implemented > 80660,8

#### **Examples of best practice (optional)**

If any site, in your opinion, represents an outstanding process of management planning or implementation, please highlight it as an example of best practice (alternatively provide a web link or attach a file) > The Danube Delta Biosphere Reserve has already in place a master plan which includes also management plans on the topics of this question and it is published on the web page of the Romanian Ministry of Environment and Forests. The best example is regarding the ecological restoration areas.

You have attached the following Web links/URLs to this answer.

<u>Danube Delta biosphere reserve</u> - Romanian Ministry of Environment and Forests

# 19. Has your country used the AEWA Guidelines on the management of key sites for migratory waterbirds?

Please provide details

> Looking for management of key sites for migratory waterbirds, for guidelines on the preparation of single species Action Plan, for identifying and tackling emergency situations for migratory waterbirds and for practical advice on how trade in waterbirds can be regulated within the framework of sustainable harvests.

#### 

Please give examples of how you have used the CSN Tool

> Looking for a specie Range Map (specie breeding, passage and non breeding area), sites identified for one specie using the Critical Site Network criteria, population estimates, important bird areas

# Pressures and Responses 6. Management of Human Activities

# 6.1. Hunting

# 21. Does your country have an established system for the collection of harvest data, which covers the species listed in Table 1? (AEWA Action Plan, paragraph 4.1.3)

√ Yes

Does it cover the following? (tick where applicable and provide details)

- ☑ All AEWA species occurring in your country
- ☑ The whole territory of your country
- ☑ All harvesting activities

#### Field for additional information (optional)

> Romania is monitoring hunting as part of its obligation under the Bern Convention and it reports each year the derogations to the European Commission.

# 22. Has your country phased out the use of lead shot for hunting in wetlands? (AEWA Action Plan, paragraph 4.1.4)

✓ No

#### Please explain the reasons

> Hunting organisations should be invited to continuously raise awareness amongst their members about the need of a change towards lead-free ammunition for hunting in wetlands, to provide information on alternative shots and to assist members in acquiring the skills necessary to use these alternatives.

Have you introduced self-imposed and published timetable for banning the use of lead shot for hunting in wetlands?

✓ No

#### Please explain the reasons

> We endeavour to phase out the use of lead shot for hunting in wetlands as soon as possible and in accordance with self-imposed and published timetables.

We are promoting the communication between authorities and the hunting community in order to provide them with sufficient information about non-toxic shot through hunting associations and conservation NGOs and to stimulate and facilitate the replacement of lead shot by non-toxic shot.

# 23. Are there measures in your country to reduce/eliminate illegal taking? (AEWA Action Plan, paragraph 4.1.6)

Yes

How would you rate the effectiveness of the measures?

☑ Moderate

#### Please provide details

> The National Forest Romsilva Authority is in charge of hunting management, monitoring and reports to the Ministry of Environment and Forests all issues relating the protection of species, including accidental killing and taking from the wild.

# **24.** Has your country used the AEWA Guidelines on sustainable harvest of migratory birds? ✓ Yes

#### Please provide details

> Using AEWA Guidelines we can identify many of the possible emergency situations that may arise and outline procedures for establishing early warning systems and tackling these situations at national level. The guidelines examine the major causes of conflict between migratory waterbirds and agriculture, fisheries and aviation, outline procedures for investigating the problems, and suggest a number of measures that can be taken to reduce the damage.

#### 6.2. Other human activities

# 25. Does your country have legislation in place, which provides for Strategic Environmental Assessment/Environmental Impact Assessment (SEA/EIA) of activities potentially negatively affecting natural habitats or wildlife? (AEWA Action Plan, paragraph 4.3.1)

☑ Yes and being implemented

#### Please provide details

> EIA legislation applies for activities in the neighbouring areas to protect natural areas. The Impact assessment must be submitted regarding the species and habitat listed in the Government Emergency Ordinance no. 57/2007 approved with amendments and completions by Law no 49/2011.

Do the SEA/EIA processes include public participation? 

☑ Yes

## Please provide details

> There is a low rate of public participation in the SEA/EIA processes. There is need of training courses and awareness campaigns on each of the AEWA pillars for all public authorities, especially for the regional and local environmental authorities.

# 26. In the last three years, has your country used SEA/EIA for all relevant projects to assess the impact of proposed projects on migratory waterbird species listed on table 1 and/or habitats/sites on which they depend? (AEWA Action Plan, paragraph 4.3.1)

☑ Yes, all proposed projects

Please provide information on the outstanding cases

> The Project regarding Cernavoda Wind Farm

All projects for construction and development of the electricity market infrastructure, modernizing and retrofitting the power substations within the PTG, enhancing the interconnections with the neighboring countries: 400 kV OHL Suceava - Balti (Republic of Moldova)

Hydropower projects established by the Romanian firm Hidroelectrica for building new hydropower plants and upgrade existing ones.

#### Field for additional information (optional)

> There is need for improvement of the public debate organization on stages, separate discussion on technical and socio-economic aspects, implication of competent persons from the local communities.

# 27. Is by-catch of waterbirds in fishing gear taking place in your country? (Resolution 3.8) ☑ No

#### Please provide details

> We have not any data in this way.

# 28. Has your country undertaken steps towards the adoption/application of measures to reduce the incidental catch of seabirds and combat Illegal Unregulated and Unreported (IUU) fishing practices in the Agreement area? (Resolution 3.8)

Please provide short description of all actions

> Emergency Government Ordinance no. 57/2007 regarding the regimes of natural protected areas, preservation of natural habitats of wild flora and fauna approved by Law no. 49/2011.

# **Pressures and Responses**

# 7. Research and Monitoring

# 29. Does your country have waterbird monitoring schemes for the AEWA species in place? (Strategic Plan 2009-2017, Objective 3, Target 2)

✓ Yes

#### Covering the breeding period

☑ Partially

#### Please provide details

> Regarding the breeding population of AEWA species, only one monitoring programme has been implemented at national level. The after-LIFE activities of the Dalmatian Pelican LIFE project, including monitoring tasks, are coordinated by the SOR (BirdLife Romania). Other projects targeting certain species or habitats are at local level only.

#### Covering the passage/migration period

☑ Partially

#### Please provide details

> Regarding the migratory population of AEWA species, only one monitoring programme has been implemented at national level. The after-LIFE activities of the Dalmatian Pelican LIFE project, including monitoring tasks, are coordinated by the SOR (BirdLife Romania). Other projects targeting certain species or habitats are at local level only.

#### Covering the non-breeding/wintering period

☑ Partially

#### Please provide details

> There is one monitoring scheme of waterbirds at national level taking place in Romania: the International Waterbird Count. This monitoring scheme is carried out in partnership by SOR (BirdLife Romania) and Milvus Association (http://www.sor.ro/IWC/parteneri.htm). The collected data is sent to Wetlands International regularly. However, these surveys provide information about the wintering waterbird populations only. Other projects targeting certain species or habitats are at local level only.

You have attached the following Web links/URLs to this answer.

http://www.sor.ro/IWC/parteneri.htm

# **30.** Have you used the AEWA Guidelines for a waterbird monitoring protocol? ☑ Yes

Please provide details

> Romania have used the AEWA Guidelines for a waterbird monitoring protocol to identify sites and habitats for migratory waterbirds in the country. The list of sites which are important to populations listed in Table 1 and the procentual coverage of habitats were published.

You have attached the following documents to this answer.

RO SPA SDF 2011.pdf

# 31. List (or provide links to lists) of research related to waterbirds and their conservation that has been undertaken or results published in the past triennium (Strategic Plan 2009-2017, Objective 3, Target 5)

> Biological and ecological research on some bird species of Community interest in DDBR - Natura 2000 SPA (project leader - Dr. Janos Botond Kiss)

Research project to fulfill the obligations of our country in the application of Community rules on Natura 2000 ecological network (2009-2011)

CARTODD - Develop a high-resolution digital cartographic support needed to implement plans, strategies and management schemes in the Danube Delta Biosphere Reserve (2009-2012)

You have attached the following Web links/URLs to this answer.

http://http://www.ddni.ro/cartodd/

Field for additional information (optional)

> The project "Cross-border Conservation of Pygmy Cormorant and Ferruginous Duck started in January 2009 and the planned end date is 31 December 2012. The manager of this project is WWF Danube -Carpathian. This project aims to support conservation of the pygmy cormorant Phalacrocorax pygmeus and the ferruginous duck Aythya nyroca.

The objective of the project is ensuring conditions to achieve and maintain favourable conservation status for Pygmy Cormorant and Ferruginous Duck in Romania and include:

-coordinated conservation efforts for the 2 priority species through improved, cross-border management of the network of Natura 2000 sites along lower Danube; - increased knowledge of the species status and ecological needs for a wide range of stakeholders in both countries; - disturbance free and improved breeding and feeding conditions at key sites through implementing best management practices of fishponds, reedbeds and forest and improved ecological status of the wetlands used as breeding and feeding sites. Work is focused on supporting these species in Romania and Bulgaria. A cross-border approach will be adopted to improve coordination of conservation efforts which will address key requirements at breeding and feeding sites.

# 32. Has your government provided over the past triennium funds and/or logistical support for the International Waterbird Census at international or national level? (Strategic Plan 2009-2017, Objective 3, Target 1)

#### **Nationally**

#### Please provide details

> Government has provided funds to Danube Delta Biosphere Reserve Administration and Environmental Protection Agencies for monitoring of waterbirds.

#### Internationally

#### Please provide details

> During the period 2009-2011, Romania developed a study for identification and designation of bird protected areas that are important at national and international level.

# Pressures and Responses 8. Education and Information

# 8.1. AEWA Communication Strategy

33. Has your country developed and implemented programmes for raising awareness and understanding on waterbird conservation and about AEWA? (Strategic Plan 2009-2017, Objective 3, Target 3 and AEWA Action Plan, paragraphs 6.1-6.4)

☑ Being developed

Please provide starting date and expected finalisation date of the development process; contact details of a contact person for each programme

- > Romania started the development of the strategy for protection birds monitoring which includes the AEWA species. One important output of this strategy is to publish the current status of birds' conservation and as follow up activities, training programmes for public education and raising awareness and understanding regarding the importance of waterbird conservation for implementing a complex and efficient monitoring system.
- 34. Has your country provided funding and other support, as appropriate (e.g. expertise, network, skills and resources), secured for the implementation of the AEWA Communication Strategy? (Strategic Plan 2009-2017, Objective 3, Target 1 and Resolution 3.10) 
  ☑ №

Please explain the reasons

- > Lack of financial resources
- 35. In Resolution 3.10 the Meeting of the Parties encouraged Contracting Parties to host AEWA Exchange Centres for their respective regions. Has your country considered/shown interest in hosting a Regional AEWA Exchange Centre? (Strategic Plan 2009-2017, Objective 3, Target 2 and Resolution 3.10)

☑ It is currently considering

Please provide details on the answer given above

- > Even we have considered interest in hosting a regional AEWA Exchange Centre, there is lack of financial resources.
- 36. Training for CEPA (Communication, Education and Public Awareness) at national level is supposed to be conducted by staff, which has been trained in the framework of the AEWA Training of Trainers programme. Has such training taken place in your country in the past triennium? (Strategic Plan 2009-2017, Objective 3, Target 2)

Applicable only for countries in regions where Training of Trainers programme has taken place  $\ \square$  No

Please explain the reasons

> We have not staff which has been trained in the framework of the AEWA Training of trainers programme. We would like such training to take place in Romania in the next period.

# Pressures and Responses 9. Implementation

# 37. Has your country approached non-contracting parties to encourage them to ratify the Agreement? (Resolution 3.10)

Report only on activities over the past triennium  $\ \square$  No

Please explain the reasons

> Lack of human resources

# 38. Has your country supported/developed international co-operation projects for the implementation of the Agreement, according to the priorities outlined in the AEWA International Implementation Tasks (IIT) for the current triennium? (Resolution 3.11)

Please list grants provided to IIT projects, or list all undertaken initiatives and briefly provide any relevant information

> The Project "Cross-border Conservation of Pygmy Cormorant and Ferruginous Duck" This Project aims to support conservation of the Pygmy Cormorant - Phalacrocorax pygmeus and the Ferruginous Duck- Aythya nyroca.

Work is focused on supporting these species in Romania and Bulgaria.

A cross-border approach will be adopted to improve coordination of conservation efforts, which will address key requirements at breeding and feeding sites. This includes implementation of best management practices at fishponds, reedbeds and surrounding forest lands.

Involved Organizations: WWF, Romania, Bulgaria, Nature parks, Birdlife

Country Governmental Level: Romania, Bulgaria

Donor/Funding Source: EU LIFE+

Riverbasin(s): Danube Budget: 1300000 EUR

# 39. Has your country resourced the AEWA Small Grants Fund over the past triennium? (Strategic Plan 2009-2017, Objective 5, Target 5)

✓ No

Please explain the reasons

> Romania resourced the GEF Small Grants Programme, the Rufford Small Grants for Nature Conservation.

# 40. Does your country have in place a national coordination mechanism for implementation of AEWA, possibly linking to national coordination mechanisms for other biodiversity Multilateral Environmental Agreements (MEAs)? (Strategic Plan 2009-2017, Objective 5, Target 8)

 $\ensuremath{\square}$  Yes, it is operational on a regular basis

Please provide details

> In the National Action Plan on Biodiversity there are included objectives and actions regarding protection and conservation migratory waterbirds species and the National Environment Protection Agency is responsible for implementation of AEWA

# 41. How would you suggest promoting further links between the biodiversity MEAs to which your country is a Contracting Party, so as to make your work more efficient and effective?

> To develop dialogue on how scientific knowledge within each MEA can benefit other relevant MEAs; Sharing knowledge and data with other MEAs through synergies; Strengthen science-policy interface.

# Pressures and Responses 10. Avian Influenza

# 42. What issues have proved challenging in responding nationally to the spread of the Highly Pathogenic Avian Influenza (HPAI) in the last triennium and what further guidance or information would be useful in this respect?

#### List challenges

- > In Romania the National Sanitary Veterinary and Food Safety Authority operates as a specialized body of the central public administration, as e legal entity, being subordinated directly to the Prime Minister and has as main attributions:
- State sanitary veterinary service organization;
- Organization of public veterinary services throughout the country, based on an unitary concept, in order to ensure animal health, public health, animal protection, environmental protection and food safety;
- Establishing the state sanitary veterinary atributions and responsibilities;
- Development and promotion, in collaboration with other competent authorities involved, of the legal framework in the food safety and quality field;
- Participation in the activity of food standardization, grading and classification;

Organizing the activity within the food safety and quality field, in collaboration with other concerned authorities, according to the limits of legal competence;

- Developing, in collaboration with other concerned authorities, an analysis, management and risk communication system related to the food safety and quality domain;
- Issuing scientific advice and scientific and technical assistance regarding the national and community legislation in areas that have a direct or indirect impact on food and feed safety.

It provides independent information on all the issues in these areas and it communicates the risks; Helping to achieve a high level of protection of human life and health, taking into account the animals' health and welfare, plant health and environmental protection;

- Collecting and analyzing data to allow the characterization and monitoring of risks which have a direct or indirect impact on food and feed safety;
- Providing scientific advice and scientific and technical assistance regarding human nutrition, taking into account the national and EU legislation, issuing scientific advice on matters related to plant health and welfare, as well as scientific notices regarding products, other than food and feed, in relation with genetically modified organisms;
- Issuing scientific opinions which serve as scientific basis for the development and adoption of measures in areas related to its scope;
- Elaboration of draft laws in order to achieve specific tasks.

During Avian Influenza monitoring have been detected in the Tulcea County, in March 2010, two Avian Influenza plague spots. The National Sanitary Veterinary and Food Safety Authority quickly managed these situations by applying preventive measures, namely the killing and destruction of those birds and disinfecting those households, so that the disease has not spread and the plague spots have been extinct.

Also as a result of the actions included in the Program of monitoring Avian Influenza in wild birds in the Danube Delta, in November, the Tulcea Sanitary Veterinary and Food Safety Directorate detected the presence of the Avian Influenza Virus (H5N3) in 20 geese, used as sentinel birds.

In both cases the National Sanitary Veterinary and Food Safety Authority has applied all the necessary measures to prevent the spread of the disease.

Animal welfare and protection are very sensitive issues, which generate many challenges for the veterinary services.

In this respect, the National Sanitary Veterinary and Food Safety has promoted in 2010 actions focused on developing guides, service notes, instructions, inspection procedures in order to implement the provisions of the existing legislation, and also actions focused on implementing the provisions of the Council Directive 2007/43/EC on the protection of chickens.

List required further guidance or information > None

Field for additional information (optional)

You have attached the following documents to this answer.

NSVFSA Report 2010 18667ro.pdf

# 43. Have you visited and used as a reference the AIWEb (the Avian Influenza, Wildlife and the Environment web site)?

Yes

# 11. Confirmation

# Confirmation of information verification and approval for submission

#### Please confirm:

In addition a scanned copy of an official letter from the relevant state institution, approving the report for submission, can be attached.

 $\square$  I declare that the information provided in the Report on the implementation of AEWA for the period 2009-2011 has been verified and the report has been approved for submission by the appropriate state institution in the country.

You have attached the following documents to this answer.

Official Letter.PDF

#### **Date of submission**

> 23 January 2012
