Report on the implementation of AEWA for the period 2009-2011

The format for reports on the implementation of the Agreement on the Conservation of African-Eurasian Migratory Waterbirds (AEWA) for the period 2009-2011 was approved at the 4th session of the Meeting of the Parties (15-19 September 2008, Antananarivo, Madagascar) by Resolution 4.7. Further amendments were endorsed by the Standing Committee in August 2011 in accordance with operative paragraph 11 of Resolution 4.7. This format has been constructed following the AEWA Action Plan, the AEWA Strategic Plan 2009-2017 and resolutions of the Meeting of the Parties (MOP).

In accordance with Article V.1(c) of the Agreement on the Conservation of African-Eurasian Migratory Waterbirds, each Party shall prepare to each ordinary session of the MOP a National Report on its implementation of the Agreement and submit that report to the Agreement Secretariat not later than 120 days before the session of the MOP. The 5th Session of the Meeting of the Parties (MOP5) is taking place on 14-18 May 2012 in La Rochelle, France; therefore the deadline for submission of National Reports is 14 January 2012.

The AEWA National Reports 2009-2011 will be compiled and submitted through the CMS Family Online Reporting Facility, which is an online reporting tool for the whole CMS Family. However, AEWA will be the first of the CMS-related treaties to use the CMS Family Online Reporting System for its reporting to MOP5. The CMS Family Online Reporting System was developed in 2010-2011 by the UNEP-World Conservation Monitoring Centre (UNEP-WCMC) in close collaboration with and under the guidance of the UNEP/AEWA Secretariat.

As a new product, the system may still need some refining and improving, we therefore request your understanding: any feedback or suggestions on your side would be greatly appreciated.

The online reporting system offers flexibility and versatility superior to the previously used paper-based reporting and the UNEP/AEWA Secretariat hopes that the Parties will find it to be more convenient and efficient. In particular, it will make information more easily accessible and also enhance ways of using it. In this context, Resolution 4.7 also requests UNEP to assist in the development of an analytical tool and calls upon Parties to support this initiative and provide financial resources and thus strengthen the online format for national reporting in collaboration with UNEP-WCMC. The online reporting system brings national reporting to a different level, enabling the information provided to be used much more effectively; it also serves as a tool for self-assessment by Parties. In addition, it can help to enhance cooperation and coordination between various stakeholders in your country by making the national reporting more of a collective, collaborative and continuous process.

To contact the UNEP/AEWA Secretariat please send your inquiries to aewa_national_reporting@unep.de.

1. General Information

Name of reporting Contracting Party
› Republic of Slovenia

Date of entry into force of AEWA in the Contracting Party
› 01.10.2003

List any reservations that the Contracting Party has made (if any) upon deposition of its instruments of accession on provisions of the Agreement or its Action Plan in accordance with Article XV of AEWA
› None
2. Institutional Information

Please update information on the National AEWA Administrative Authority, the National Focal Points, the Designated National Respondent and the other contributors to this report.

**Designated National AEWA Administrative Authority**

Full name of the institution
› Ministry of the Environment and Spatial Planning

Name and title of the head of institution
› dr. Roko Žarnič, Minister

Mailing address - Street and number
› Dunajska c. 48

P.O.Box
› PO Box 653

Postal code
› 1000

City
› Ljubljana

Country
› Slovenia

Telephone
› (+386) 1 47 87 400

Fax
› (+386) 1 47 87 422

E-mail
› gp.mop@gov.si

Website
› www.mop.gov.si

**Designated National Focal Point (NFP) for AEWA matters**

Name and title of the NFP
› Mr. Andrej Bibič, Secretary (Senior Expert)

Affiliation (institution, department)
› Ministry of the Environment and Spatial Planning, Sector for Nature Conservation Policy

Mailing address - Street and number
› Dunajska 48

Postal code
› 1000

City
› Ljubljana

Country
› Slovenia

Telephone
› +386 1 478 7475

Designated National Respondent (DNR) in charge of the compilation and submission of the AEWA National Report 2009-2011

Please select from the list below as appropriate.
☑ The National Focal Point (NFP) has been designated as the National Respondent

Other contributors to the AEWA National Report 2009-2011

Please list the names and affiliations (institution, organisation) of the other contributors to this report
> Institute of the RS for Nature Conservation, Tobačna 5, SI-1000 Ljubljana, Slovenia
> DOPPS - BirdLife Slovenia, Tržaška 2, SI-1000 Ljubljana, Slovenia
Status
3. Species Status
Please select from the drop-down list below only the species that occur in your country

AEWA Species - Gavia stellata / Red-throated Diver

English Common name(s): Red-throated Diver, Red-throated Loon
French Common name(s): Plongeon catmarin

Confirmation of species occurrence
Please confirm the occurrence of the species in the country
☑ The species occurs in the country

Native or non-native species
Please confirm whether the species is native or non-native to your country
☑ Native

AEWA Table 1 Categorisation
Please indicate the AEWA Table 1 category(ies) applicable to the population(s) of this species occurring in the country.
☑ Column B - Category 1

Species Status - Breeding
Does the species occur in the country during the breeding period?
☑ No

Species Status - Passage
Does the species occur in the country during the passage period?
☑ Yes
Are quantitative estimates for the passage numbers available?
☑ No
Please provide a qualitative estimate for the passage numbers
☑ Regular, but small numbers

Species Status - Non-breeding/wintering
Does the species occur in the country during the non-breeding/wintering period?
☑ Yes

Pressures and Responses
4. Species Conservation

4.1 Legal Measures

1. Were any exemptions granted to the prohibitions laid down in paragraphs 2.1.1 and 2.1.2 of the AEWA Action Plan? (AEWA Action Plan, paragraph 2.1.3)
☑ Yes

Please provide information on each species for which exemption was granted

**Exemption for Phalacrocorax carbo / Great Cormorant**

Purpose of exemption (from the AEWA Action Plan)
☑ (e) For the purpose of enhancing the propagation or survival of the populations concerned

Number of individuals for which exemption was granted
› 218

Number of eggs for which exemption was granted
› 0

Territorial coverage of the exemption
› 14 river sections across the whole country

Time span of the exemption
› 2008-2010

Year when the exemption was granted
› 2008 and 2010 (2009 it has been dismissed by the court)

Additional information on this exemption (alternatively provide a web link or attach a file)
› in 2008 exemption has been granted for 115 exemplars, exemption granted in 2009 has been dismissed by court, in 2010 exemption has been granted for 115 exemplars. Time span of the exemption is always from date of validity (usually September/October) to May.

**Optionally you can provide additional information on section 4.1. Legal Measures**
› The Ministry of the Environment and Spatial Planning can issue a permit for exemptions to the provisions set out in paragraph 2.1.1, in accordance with provisions of the Art.9 of the EC Wild Birds Directive.

4.2 Single Species Action Plans

2. Please report on the progress of turning the International Single Species Action Plans (ISSAP), for species whose populations are listed on Column A of Table 1, developed under or recognised by AEWA, into National Single Species Action Plans (NSSAP). (AEWA Action Plan, paragraph 2.2)

Please clarify the relevance of the AEWA International Single Species Action Plans or the other recognised plans (Dalmatian Pelican, Pygmy Cormorant, Red-breasted Goose, Marbled Teal, Slender-billed Curlew and Audouin's Gull) to your country
☑ At least one of the International Single Species Action Plans is relevant

**Please report on each relevant ISSAP**

**National Single Species Action Plan for Oxyura leucocephala / White-headed Duck**

For Oxyura leucocephala / White-headed Duck
☑ No NSSAP

Please explain the reasons
› There was no need to develop a NSSAP.

Field for additional information (optional)
› We have no data on the occurrence of this species in Slovenia. White-headed duck is threatened by the invasive species Ruddy Duck (Oxyura jamaicensis) of which there are two observations in Slovenia in the last 10 years:
20.-24.10.1999, 1 individual, water reservoir Medvedce
2.2.2002, 1 individual, Lake Ptuj

Because White-headed Duck is not present in Slovenia there is no need to develop NSSAP. We regularly monitor the presence of Ruddy Duck in all key sites during the International Waterbird Census in winter. As it is a rarely seen species it is very likely that every occurrence during the rest of the year will be reported in ornithological publications or electronic media. In case Ruddy Duck occurs eradication is foreseen.

National Single Species Action Plan for Crex crex / Corncrake

For Crex crex / Corncrake
☑ NSSAP in place and being implemented

When was the plan approved and published? Please provide a web link or attach a file, if available. Please provide contact details for any person or organisation coordinating its implementation. Please list any activities and/or achievements over the past triennium.

› The Natura 2000 Management Programme 2007-13, approved by the government in October 2007 includes detailed conservation objectives for Corncrake (Crex crex) at all SPAs, relevant for this species. The programme also defines measures to achieve these conservation objectives, and organisations responsible for its implementation. The Natura 2000 Management Programme 2007-13 has been made available at ministry's webpage and published in 2008.

For Corncrake a targeted agri-environmental measure has been developed and included in the Rural Development Programme 2007-13, while targets for these agri-environmental measures (conservation measures per site in ha for 2010 and 2013) have been set in the Natura 2000 Management Programme 2007-13.

You have attached the following Web links/URLs to this answer.

Natura 2000 Management Programme - Natura 2000 Management Programme (publication in English)
Governmental approval management programme - Governmental approval of the Natura 2000 Management Programme (2007-13)
Natura 2000 site and species search - Site to search objectives, measures, organisations for implementation of measures per species or site or other parameters

Field for additional information (optional)
› The webpage Natura 200 site and species search includes a table, where conservation objectives, measures, organisations for implementation of measures, etc per species can be filtered (e.g. Crex crex).

National Single Species Action Plan for Gallinago media / Great Snipe

For Gallinago media / Great Snipe
☑ No NSSAP

Please explain the reasons
› All planned national management activities from the ISSAP are sufficiently covered by the implementation in national legislation.

Field for additional information (optional)
› Great snipe is a rare vagrant in Slovenia. Four individuals were observed on three occasions (in 1975, 1990 and 1996), all observations are from SPA Ljubljansko barje during migration period. Slovenia did not prepare a National single species action plan (NSSAP) because all planned national management activities from the ISSAP (cessation of exploitation, maintenance of the current status of habitats, protection status of sites, distribution and population size) are sufficiently covered by the implementation in national legislation through the Nature Conservation Act (ZON-UPB, OJ RS 96/04), Decree on special conservation areas (OJ RS, 49/04) and Decree on the protection of wild animal species (OJ RS, 46/04).

National Single Species Action Plan for Aythya nyroca / Ferruginous Duck

For Aythya nyroca / Ferruginous Duck
☑ NSSAP in place and being implemented

When was the plan approved and published? Please provide a web link or attach a file, if available. Please provide contact details for any person or organisation coordinating its implementation. Please list any activities and/or achievements over the past triennium.

› The Natura 2000 Management Programme 2007-13, approved by the government in October 2007 includes detailed conservation objectives for Ferruginous Duck (Aythya nyroca) at the only SPA, relevant for this species. The programme also defines measures to achieve these conservation objectives, and organisations
Field for additional information (optional)
› For links, etc please see NSSAP for Corncrake.

3. Do you have in place or are you developing a National Single Species Action Plan for any species/population for which an AEWA ISSAP has not been developed? (AEWA Action Plan, paragraph 2.2.2)
☑ No

4. Did you use the AEWA Guidelines for the preparation of National Single Species Action Plans for migratory waterbirds?
☑ Yes

Please provide details
› In preparation of the Natura 2000 Management Programme some parts of guidelines were used to prepare structure of management objectives, measures and monitoring, related to waterbird species.

Optionally you can provide additional information on section 4.2. Single Species Action Plans
› Slovenia has adopted Natura 2000 Management Programme 2007-13, which contains conservation objectives and measures to achieve these objectives for each species at each Natura 2000 sites (incl. Corncrake and Ferruginous Duck).

4.3 Emergency Measures

5. Please report on any emergency situation that has occurred in your country over the past triennium and has threatened waterbirds. (AEWA Action Plan, paragraph 2.3)

Please indicate whether an emergency situation threatening waterbirds, such as botulism, chemical pollution, earthquake, extreme weather, fire, harmful algal bloom, infectious disease, introduction of alien species, lead poisoning, nuclear accident, oil spill, predation, volcanic activity, war or other emergency (please specify), has occurred in the country over the past triennium
☑ No emergency situation has occurred

6. Are there any other emergency measures, which were not mentioned above, but were developed and are in place in your country?
☑ Yes

Please provide information on each emergency situation for which measures have been developed and are in place

Measures for Infectious disease

Shortly describe the emergency measures in place in your country
› System for tackling emergency situations in relation to possible outbreaks of avian influenza, coordinated by Veterinary Authority of the Republic of Slovenia.

7. Did you use the AEWA Guidelines on identifying and tackling emergency situations for migratory waterbirds?
☑ Yes

Please provide details
› When developing responses to outbreak of avian influenza in 2006 some parts of these guidelines were taken into consideration.

4.4 Re-establishments

8. Is there a regulatory framework for re-establishments of species, including waterbirds, in your country (AEWA Action Plan, paragraph 2.4)?
☑ Partial
Decree on protected wild animal species requires a permit for any keeping and/or transport of protected waterbirds (all except Mallard). Therefore for any re-establishment a permit has to be issued.

9. Are you maintaining a national register of re-establishment projects occurring or planned to occur wholly or partly within your country? (Resolution 4.4)
☑ Yes

Please provide details on the register
› There is a register of permits for keeping and/or transport of protected wild animal species, including reasons for it.

10. Has your country considered, developed or implemented re-establishment projects for any species listed on AEWA Table 1? (AEWA Action Plan, paragraph 2.4)
☑ No

Optionally you can provide additional information on section 4.4. Re-establishments
› A policy of re-establishment has not been developed in Slovenia, due to relatively well-preserved nature.

4.5 Introductions

11. Does your country have legislation in place, which prohibits the introduction of non-native species of animals and plants, which may have a detrimental effect? (AEWA Action Plan, paragraph 2.5.1)
☑ Yes, and being enforced

Please provide the following details: title of legislation, year of adoption, institution that adopted it, institution that enforces it
› The introduction, repopulation and animal breeding of non-native species in Slovenia are regulated by the Nature Conservation Act (OJ RS 96/2004).
Introduction of plants or animals of non-native species is in general prohibited, but the competent Ministry (MoESP) may permit the introduction of plants or animals of non-native species for introduction in the wild, repopulation or animal breeding.
Permit is given only when it has been determined through an assessment of risk to nature that introduction of a non-native species shall not threaten the natural balance or biodiversity components.

12. Has your country introduced requirements to zoos, private collections, etc. in order to avoid the accidental escape of captive birds belonging to non-native species? (AEWA Action Plan, paragraph 2.5.2)
☑ Yes, and being enforced

Please provide the following details: title of the document, year of adoption, institution that adopted it, institution that enforces it
› Decree on zoos and similar facilities, 2003, adopted by the Government of the Republic of Slovenia, enforced by the Environmental Agency of the RS and the Inspectorate for Environment of the RS.

13. Does your country have in place a National Action Plan for Invasive Species (NAPIS) (in the framework of other MEAs, such as CBD, Bern Convention, and GISP (Global Invasive Species Programme) (Strategic Plan 2009-2017, Objective 1, Target 5)?
☑ Being developed

Please provide starting date and expected finalisation date of the process
› Preparations started in 2010. Finalisation is depending on development of the EU Strategy / legislative instrument on invasive alien species.

14. Has an eradication programme been considered, developed or implemented for any non-native waterbird species in your country?
☑ Not applicable

Please explain
› Until 2011 no invasive waterbird species occurred regularly in Slovenia.

15. Did you use the AEWA Guidelines on avoidance of introductions of non-native waterbird species?
☑ No
Please explain the reasons. What was used instead as a basis for dealing with the issue?

⇒ Until 2011 no invasive waterbird species occurred regularly in Slovenia.
Pressures and Responses
5. Habitat Conservation

5.1 Habitat Inventories

16. Has your country identified the network of all sites of international and national importance for the migratory waterbird species/populations listed on Table 1? (AEWA Action Plan, paragraph 3.1.2)
☑ Yes

Please provide full reference, e.g. title, year, authors, etc. or a web link
› Slovenia undertook a review of important sites for migratory waterbird species in 2004 as part of designation of the Special Protection Areas under the EC Wild Birds Directive. Sites area available at the national interactive atlas and at the EU interactive atlas.

You have attached the following Web links/URLs to this answer.
National Interactive Atlas - National Interactive Atlas with Special Protection Areas (SPAs)
EU Interactive Atlas - EU Interactive Atlas with SPAs

17. If your country has identified or is currently identifying the networks of sites of international and national importance, have you used the AEWA Guidelines on the preparation of site inventories for migratory waterbirds?
☑ No

Please explain the reasons. What has been used instead as a basis for the inventory?
› Slovenia developed the existing inventory in 2001, and followed the BirdLife IBA criteria for identification.

5.2. Conservation of Areas

18. Which sites that were identified as important, either internationally or nationally, for Table 1 migratory waterbird species/populations have been designated as protected areas under the national legislation and have management plans that are being implemented? (AEWA Action Plan, paragraph 3.2.1)

Please report on both internationally and nationally important sites
☑ Reporting on designation and management of internationally important sites
☑ Reporting on designation and management of nationally important sites

All sites of international importance

Total number
› 16

Total area (ha)
› 151443

Out of the above total: number of protected sites
› 16

Out of the above total: protected area (ha)
› 151443

Number of protected sites with management plans in place which are being implemented
› 16

Area under protection (in ha) covered by management plans which are being implemented
› 151443

All sites of national importance

Total number
› 16

Total area (ha)
› 310700
Out of the above total: number protected sites
▷ 16

Out of the above total: protected area (ha)
▷ 310700

Number of protected sites with management plans in place which are being implemented
▷ 16

You have attached the following Web links/URLs to this answer.

Natura 2000 Management programme - Natura 2000 Management Programme 2007-13 determines measures and actions aimed at ensuring favourable conservation status of the majority of qualifying waterbird species for each SPA.

Area under protection (in ha) covered by management plans which are being implemented
▷ 310700

19. Has your country used the AEWA Guidelines on the management of key sites for migratory waterbirds?
☑ Yes

Please provide details
▷ For preparation of Natura 2000 management programme and protected area management plans some elements from this guidance were used.

20. Have you accessed and used the Critical Site Network (CSN) Tool for the AEWA area?
☑ Yes

Please give examples of how you have used the CSN Tool
▷ For purposes of testing the CSN tool.

Optionally you can provide additional information on section 5.2. Conservation of Areas
▷ Operational programme - Natura 2000 management programme (2007-13), adopted by the Government, determines measures and actions aimed at ensuring favourable conservation status of the majority of qualifying species for each SPA. Therefore in this report it is considered as a management plan for each of these sites. Next to this management programme protected areas with a status of natural, regional or national park and national nature reserve have site management plans (there are 3 areas with such plans).
Pressures and Responses
6. Management of Human Activities

6.1. Hunting

21. Does your country have an established system for the collection of harvest data, which covers the species listed in Table 1? (AEWA Action Plan, paragraph 4.1.3)
☑ Yes

Does it cover the following? (tick where applicable and provide details)
☑ All AEWA species occurring in your country
☐ Obligatory (hunting legislation)
☐ The whole territory of your country
☐ Obligatory (hunting legislation)
☑ All harvesting activities
☐ Obligatory (hunting legislation)

Field for additional information (optional)
☐ Reporting on implementation of management plans, including on hunting levels, to Slovenian Forest Service is a statutory requirement. Reports from Hunting Clubs are collected yearly by the Hunting Association of Slovenia and special hunting reserves (managed by the Slovenian Forest Service).

22. Has your country phased out the use of lead shot for hunting in wetlands? (AEWA Action Plan, paragraph 4.1.4)
☐ No

Please explain the reasons
☐ Due to a very low number of huntable waterbird species the problem of the lead shots is very limited in Slovenia. The relevant legislation does not yet address it.

Have you introduced self-imposed and published timetable for banning the use of lead shot for hunting in wetlands?
☑ No

Please explain the reasons
☐ Due to a very low number of huntable waterbird species the problem of the lead shots is very limited in Slovenia. The relevant legislation does not yet address it.

23. Are there measures in your country to reduce/eliminate illegal taking? (AEWA Action Plan, paragraph 4.1.6)
☑ Yes

How would you rate the effectiveness of the measures?
☐ Moderate

Please provide details
☐ Increased activity of inspectorates, and increased activity of NGOs.

24. Has your country used the AEWA Guidelines on sustainable harvest of migratory birds?
☐ No

Please explain the reasons. What other guidance has been used instead?
☐ Since 1993 the only huntable waterbird in Slovenia is Mallard, and there are hunting management plans developed for it since then. They are developed on the basis of sustainable harvest.

6.2. Other human activities

25. Does your country have legislation in place, which provides for Strategic Environmental Assessment/Environmental Impact Assessment (SEA/EIA) of activities potentially negatively affecting natural habitats or wildlife? (AEWA Action Plan, paragraph 4.3.1)
☑ Yes and being implemented

Do the SEA/EIA processes consider waterbirds and habitats on which they depend?

Do the SEA/EIA processes include public participation?
☑ Yes

Please provide details
› In the process of the approval of a plan or a project MoESP assures public participation in accordance with the principles of the Aarhus Convention.

26. In the last three years, has your country used SEA/EIA for all relevant projects to assess the impact of proposed projects on migratory waterbird species listed on table 1 and/or habitats/sites on which they depend? (AEWA Action Plan, paragraph 4.3.1)
☑ Yes, all proposed projects

Please provide information on the outstanding cases
› for the high voltage power line Cirkovci - Pince across the Mura River, the golf court near the Sečovlje salt pans, the motorway across the Drava River, the city dump and the bypass on the Ljubljansko Barje mitigation measures were required to compensate habitats that may be destroyed. Plans have not been finalized yet and are not yet operational.

27. Is by-catch of waterbirds in fishing gear taking place in your country? (Resolution 3.8)
☑ No

Please provide details
› There was no bycatch of waterbirds reported.

28. Has your country undertaken steps towards the adoption/application of measures to reduce the incidental catch of seabirds and combat Illegal Unregulated and Unreported (IUU) fishing practices in the Agreement area? (Resolution 3.8)
☑ Yes

Please provide short description of all actions
› Slovenian fishing fleet is very small, and not using fishing gears, recently not allowed by the EU fishing legislation.
Pressures and Responses
7. Research and Monitoring

29. Does your country have waterbird monitoring schemes for the AEWA species in place? (Strategic Plan 2009-2017, Objective 3, Target 2)
☑ Yes

**Covering the breeding period**
☑ Fully

Please provide details
› Monitoring of breeding birds - qualifying species for Natura 2000 sites.
This scheme includes monitoring of some waterbird species on Natura 2000 sites. Monitoring methods and protocols have been developed in 2004, and since then the scheme is partly supported by MoESP.

You have attached the following Web links/URLs to this answer.
Natura 2000 bird monitoring schemes - Results of Natura 2000 bird monitoring schemes

**Covering the passage/migration period**
☑ Partially

Please provide details
› Species with internationally important populations on passage are being monitored (e.g. Larus melanocephalus)

**Covering the non-breeding/wintering period**
☑ Fully

Please provide details
› wintering birds (IWC): International Waterbird Census:
Slovenia contributes to Wetlands International’s IWC from 1985 on. IWC is conducted by DOPPS – BirdLife Slovenia. The monitoring scheme is partly supported by MoESP.

Field for additional information (optional)
› In Slovenia there are three monitoring schemes for waterbirds running:
- wintering birds (IWC),
- monitoring of breeding birds - qualifying species for Natura 2000 sites
- monitoring of avifauna by managers of protected areas (Sečovlje salt pans, Škocjanski zatok, Lake Cerknica)

30. Have you used the AEWA Guidelines for a waterbird monitoring protocol?
☑ Yes

Please provide details
› In designation and development of the national IWC some elements from the guidance were used.

31. List (or provide links to lists) of research related to waterbirds and their conservation that has been undertaken or results published in the past triennium (Strategic Plan 2009-2017, Objective 3, Target 5)
You have attached the following documents to this answer.
Research related to waterbirds and their conservation that has been undertaken or results published 2008-2010 in Slovenia.xlsx - research related to waterbirds in the past triennium in Slovenia

32. Has your government provided over the past triennium funds and/or logistical support for the International Waterbird Census at international or national level? (Strategic Plan 2009-2017, Objective 3, Target 1)
☑ Yes

**Nationally**
☑ Yes

Please provide details
› Government is providing funds for the International Waterbird Census scheme in Slovenia.

**Internationally**
☐ No

Please explain the reasons
✓ Very limited funds.
Pressures and Responses
8. Education and Information

8.1. AEWA Communication Strategy

33. Has your country developed and implemented programmes for raising awareness and understanding on waterbird conservation and about AEWA? (Strategic Plan 2009-2017, Objective 3, Target 3 and AEWA Action Plan, paragraphs 6.1-6.4)
☑ Yes, being implemented

Please list major features of the programmes and details of a contact person for each programme
› There is constant communication of Natura 2000 areas (incl. sites important for waterbirds) with local people (farmers, farming advisors, foresters, schools, people from municipalities) on the behalf of MoESP and IRSNC (for details and contacts see web links).

Education activities were performed as part of EU LIFE and Cross border cooperation projects.

You have attached the following Web links/URLs to this answer.
Natura 2000 communication - Official Natura 2000 webpage
IRSNC webpage - Webpage of the Institute of the RS for Nature Conservation

34. Has your country provided funding and other support, as appropriate (e.g. expertise, network, skills and resources), secured for the implementation of the AEWA Communication Strategy? (Strategic Plan 2009-2017, Objective 3, Target 1 and Resolution 3.10)
☑ No

Please explain the reasons
› Lack of human capacities and financial means.

Field for additional information (optional)
› Support is provided to implement communication and raising awareness on Natura 2000 sites (incl. sites important for waterbirds) in Slovenia, but not outside the country.

35. In Resolution 3.10 the Meeting of the Parties encouraged Contracting Parties to host AEWA Exchange Centres for their respective regions. Has your country considered/shown interest in hosting a Regional AEWA Exchange Centre? (Strategic Plan 2009-2017, Objective 3, Target 2 and Resolution 3.10)
☑ Not considered yet

Please provide details on the answer given above
› Due to lack of human capacities and financial means it has not yet been considered.

36. Training for CEPA (Communication, Education and Public Awareness) at national level is supposed to be conducted by staff, which has been trained in the framework of the AEWA Training of Trainers programme. Has such training taken place in your country in the past triennium? (Strategic Plan 2009-2017, Objective 3, Target 2)
Applicable only for countries in regions where Training of Trainers programme has taken place
☑ No

Please explain the reasons
› Because of lack of human capacities and financial means.
Pressures and Responses
9. Implementation

37. Has your country approached non-contracting parties to encourage them to ratify the Agreement? (Resolution 3.10)
Report only on activities over the past triennium
☑ No

Please explain the reasons
› Slovenia has very limited resources for international cooperation, concentrating on Western Balkans and access of those countries to the EU. In the context of obligations arising from the Wild Birds Directive Slovenia advised Montenegro on this issue (Montenegro ratified AEWA in 2011).

38. Has your country supported/developed international co-operation projects for the implementation of the Agreement, according to the priorities outlined in the AEWA International Implementation Tasks (IIT) for the current triennium? (Resolution 3.11)
☑ No

Please explain the reasons
› Slovenia has very limited human and financial resources for international cooperation.

39. Has your country resourced the AEWA Small Grants Fund over the past triennium? (Strategic Plan 2009-2017, Objective 5, Target 5)
☑ No

Please explain the reasons
› As an EU country Slovenia has access to several EU funds, eligible for nature conservation activities.

40. Does your country have in place a national coordination mechanism for implementation of AEWA, possibly linking to national coordination mechanisms for other biodiversity Multilateral Environmental Agreements (MEAs)? (Strategic Plan 2009-2017, Objective 5, Target 8)
☑ Yes, it is operational on a regular basis

Please provide details
› National implementation of AEWA is done widely through implementation of the Wild Birds Directive, for which coordination mechanism exists. AEWA NFP is also covering coordination of implementation of the Wild Birds Directive. Coordination with other biodiversity MEAs is ensured by the fact, that all focal points of other biodiversity MEAs are in the same Sector, and regularly coordinated.

41. How would you suggest promoting further links between the biodiversity MEAs to which your country is a Contracting Party, so as to make your work more efficient and effective?
› By coordination of strategic planning between AEWA and other biodiversity MEAs, exchange of all results (incl. interim) and synergies of expert and technical bodies of these MEAs.
Pressures and Responses

10. Avian Influenza

42. What issues have proved challenging in responding nationally to the spread of the Highly Pathogenic Avian Influenza (HPAI) in the last triennium and what further guidance or information would be useful in this respect?

List challenges
› There was no spread of HPAI in Slovenia in the last triennium.

List required further guidance or information
› No list.

43. Have you visited and used as a reference the AIWEB (the Avian Influenza, Wildlife and the Environment web site)?
☑ Yes
11. Confirmation

Confirmation of information verification and approval for submission

Please confirm:

In addition a scanned copy of an official letter from the relevant state institution, approving the report for submission, can be attached.

☑ I declare that the information provided in the Report on the implementation of AEWA for the period 2009-2011 has been verified and the report has been approved for submission by the appropriate state institution in the country.

You have attached the following documents to this answer.

LetterAEWAreportSlovenia.pdf - Letter of approval

Date of submission

› 31.1.2012
