

**9<sup>th</sup> MEETING OF THE STANDING COMMITTEE**  
*18 – 19 September 2013, Trondheim, Norway*

---

**REVISION OF THE FORMAT FOR NATIONAL REPORTS ON THE IMPLEMENTATION OF  
AEWA**

*Compiled by the UNEP/AEWA Secretariat*

**Introduction**

From the second to the third sessions of the Meeting of the Parties (MOP) the Contracting Parties to AEWA were compiling their national reports on the implementation of the Agreement following a format approved by MOP1 in 1999. MOP3 in 2005 instructed the development of a new format to be used for online reporting. Such a format was elaborated together with the development of the AEWA Strategic Plan for 2009-2017. At its fifth session in September 2008, the Meeting of the Parties approved through Resolution 4.7 the newly developed format to be used for the 2009-2011 reporting cycle and also instructed the Standing Committee to amend the national report format after each MOP so as to bring it in line with any relevant decisions of each session of the MOP and/or to enhance it, as necessary.

Following its mandate from resolution 4.7, the Standing Committee adopted in 2011 some pertinent amendments to the format and it was successfully used for reporting to MOP5 in May 2012 through the CMS Family Online Reporting System developed by World Conservation Monitoring Centre (UNEP-WCMC) under the guidance of the UNEP/AEWA Secretariat. The new format and the new online system allowed for very comprehensive reporting and the information obtained served as the basis for very useful analysis and synthesis (see [document AEWA/MOP 5.12](#)) feeding into the assessment of the progress of implementation of the AEWA Strategic Plan 2009-2017 (see [document AEWA/MOP 5.11](#)).

The current document presents a proposal for a revised format for national reports on the implementation of AEWA for the period 2012-2014 to be used for reporting to MOP6 in 2015. This proposal was developed by the AEWA Technical Committee as part of its 2012-2015 Work Plan on the basis of comments received from Contracting Parties in the previous reporting cycle, recommendations by UNEP-WCMC following their work on analysing the 2009-2011 national reports and also taking into account the MOP5 decisions and newly-introduced reporting requirements.

This revised format, once approved by the Standing Committee, will be translated by the Secretariat into an online template within the CMS Family Online Reporting System by the end of 2013. The MOP6 reporting cycle is planned to be launched as soon as possible afterwards, aiming at one year before the deadline for submission of national reports (assuming that MOP6 will take place in June 2015).

**Action requested from the Standing Committee**

In accordance with the mandate received from the MOP through resolution 4.7, the Standing Committee is requested to review and approve this proposed revised format for national reports on the implementation of AEWA for the period 2012-2014 for use in the MOP6 reporting cycle.
