L'Accord sur la conservation des oiseaux d'eau migrateurs d'Afrique-Eurasie (AEWA)

Report on the implementation of AEWA for the period 2009-2011

The format for reports on the implementation of the Agreement on the Conservation of African-Eurasian Migratory Waterbirds (AEWA) for the period 2009-2011 was approved at the 4th session of the Meeting of the Parties (15-19 September 2008, Antananarivo, Madagascar) by Resolution 4.7. Further amendments were endorsed by the Standing Committee in August 2011 in accordance with operative paragraph 11 of Resolution 4.7. This format has been constructed following the AEWA Action Plan, the AEWA Strategic Plan 2009-2017 and resolutions of the Meeting of the Parties (MOP).

In accordance with Article V.1(c) of the Agreement on the Conservation of African-Eurasian Migratory Waterbirds, each Party shall prepare to each ordinary session of the MOP a National Report on its implementation of the Agreement and submit that report to the Agreement Secretariat not later than 120 days before the session of the MOP. The 5th Session of the Meeting of the Parties (MOP5) is taking place on 14-18 May 2012 in La Rochelle, France; therefore **the deadline for submission of National Reports is 14 January 2012**.

The AEWA National Reports 2009-2011 will be compiled and submitted through the CMS Family Online Reporting Facility, which is an online reporting tool for the whole CMS Family. However, AEWA will be the first of the CMS-related treaties to use the CMS Family Online Reporting System for its reporting to MOP5. The CMS Family Online Reporting System was developed in 2010-2011 by the UNEP-World Conservation Monitoring Centre (UNEP-WCMC) in close collaboration with and under the guidance of the UNEP/AEWA Secretariat.

As a new product, the system may still need some refining and improving, we therefore request your understanding: any feedback or suggestions on your side would be greatly appreciated.

The online reporting system offers flexibility and versatility superior to the previously used paper-based reporting and the UNEP/AEWA Secretariat hopes that the Parties will find it to be more convenient and efficient. In particular, it will make information more easily accessible and also enhance ways of using it. In this context, Resolution 4.7 also requests UNEP to assist in the development of an analytical tool and calls upon Parties to support this initiative and provide financial resources and thus strengthen the online format for national reporting in collaboration with UNEP-WCMC. The online reporting system brings national reporting to a different level, enabling the information provided to be used much more effectively; it also serves as a tool for self-assessment by Parties. In addition, it can help to enhance cooperation and coordination between various stakeholders in your country by making the national reporting more of a collective, collaborative and continuous process.

To contact the UNEP/AEWA Secretariat please send your inquiries to aewa national reporting@unep.de.

1. General Information

Name of reporting Contracting Party

> Syrian Arab Republic

Date of entry into force of AEWA in the Contracting Party

> 01.08.2003

List any reservations that the Contracting Party has made (if any) upon deposition of its instruments of accession on provisions of the Agreement or its Action Plan in accordance with Article XV of AEWA

> None

2. Institutional Information

Please update information on the National AEWA Administrative Authority, the National Focal Points, the Designated National Respondent and the other contributors to this report.

Designated National AEWA Administrative Authority

Full name of the institution

> Ministry of State for Environment Affairs.

Name and title of the head of institution

> Dr. Kaoukab Daya

Mailing address - Street and number

> Yossif Al - Azmeh Square,

P.O.Box

AEWA Species - Calidris temmincki / Temminck's Stint

English Common name(s):

Temminck's Stint

French Common name(s):

Bécasseau de Temminck

Confirmation of species occurrence

Please confirm the occurrence of the species in the country
☑ The species occurs in the country

Native or non-native species

Please confirm whether the species is native or non-native to your country $\ \square$ Native

AEWA Table 1 Categorisation

Please indicate the AEWA Table 1 category(ies) applicable to the population(s) of this species occurring in the country.

☑ Column C - Category 1

Species Status - Passage

Are quantitative estimates for the passage numbers available? $\ \square$ No

Please provide a qualitative estimate for the passage numbers Frequent, but small numbers

Species Status - Field for additional information (optional)

Optionally you can provide additional information on the status of the species in the country > Vagrant

AEWA Species - Calidris alpina / Dunlin

English Common name(s):

Dunlin

French Common name(s):

Bécasseau variable

Confirmation of species occurrence

Please confirm the occurrence of the species in the country <a>I The species occurs in the country

Native or non-native species

Please confirm whether the species is native or non-native to your country $\ \square$ Native

AEWA Table 1 Categorisation

Please indicate the AEWA Table 1 category(ies) applicable to the population(s) of this species occurring in the country.

☑ Column C - Category 1

Species Status - Passage

Does the species occur in the country during the passage period?

Are quantitative estimates for the passage numbers available? $\ \square$ No

Please provide a qualitative estimate for the passage numbers ☑ Regular and significant numbers

Species Status - Non-breeding/wintering

Latest population estimate

Year > 2010

AEWA Species - Calidris ferruginea / Curlew Sandpiper

English Common name(s):

Curlew Sandpiper

French Common name(s):

Bécasseau cocorli

Confirmation of species occurrence

Please confirm the occurrence of the species in the country ☐ The species occurs in the country

Native or non-native species

Please confirm whether the species is native or non-native to your country $\ \square$ Native

AEWA Table 1 Categorisation

Please indicate the AEWA Table 1 category(ies) applicable to the population(s) of this species occurring in the country.

 $\ \square$ Column C - Category 1

Species Status - Passage

AEWA Species - Limicola falcinellus / Broad-billed Sandpiper

English Common name(s): Broad-billed Sandpiper

French Common name(s):

Bécasseau falcinelle

Confirmation of species occurrence

Please confirm the occurrence of the species in the country ☐ The species occurs in the country

Native or non-native species

Please confirm whether the species is native or non-native to your country $\ensuremath{\square}$ Native

AEWA Table 1 Categorisation

Please indicate the AEWA Table 1 category(ies) applicable to the population(s) of this species occurring in the country.

☑ Column C - Category 1

Species Status - Field for additional information (optional)

Optionally you can provide additional information on the status of the species in the country > Vagrant

AEWA Species - Philomachus pugnax / Ruff

English Common name(s):

Ruff

French Common name(s):

Chevalier combattant, Combattant varié

Confirmation of species occurrence

Please confirm the occurrence of the species in the country <a>I The species occurs in the country

Native or non-native species

Please confirm whether the species is native or non-native to your country $\ \square$ Native

AEWA Table 1 Categorisation

Please indicate the AEWA Table 1 category(ies) applicable to the population(s) of this species occurring in the country.

☑ Column B - Category 2(c)

Species Status - Passage

Are quantitative estimates for the passage numbers available? $\ \square$ No

Please provide a qualitative estimate for the passage numbers
☑ Regular and large numbers

AEWA Species - Phalaropus lobatus / Red-necked Phalarope

English Common name(s):

Northern Phalarope, Red-necked Phalarope

French Common name(s):

Phalarope à bec étroit

Confirmation of species occurrence

Please confirm the occurrence of the species in the country ☐ The species occurs in the country

Native or non-native species

Please confirm whether the species is native or non-native to your country $\ \square$ Native

AEWA Table 1 Categorisation

Please indicate the AEWA Table 1 category(ies) applicable to the population(s) of this species occurring in the country.

☑ Column C - Category 1

Species Status - Passage

Please provide a qualitative estimate for the passage numbers
☑ Infrequent and small numbers

AEWA Species - Larus canus / Common Gull

English Common name(s): Common Gull, Mew Gull

French Common name(s):

Goéland cendré

Confirmation of species occurrence

Please confirm the occurrence of the species in the country ☐ The species occurs in the country

Native or non-native species

Please confirm whether the species is native or non-native to your country $\ \square$ Native

AEWA Table 1 Categorisation

Please indicate the AEWA Table 1 category(ies) applicable to the population(s) of this species occurring in the country.

☑ Column B - Category 2(c)

Species Status - Passage

Please provide a qualitative estimate for the passage numbers
☑ Infrequent and small numbers

AEWA Species - Larus marinus / Great Black-backed Gull

English Common name(s): Great Black-backed Gull French Common name(s): Goéland marin

Confirmation of species occurrence

Please confirm the occurrence of the species in the country
☐ The species occurs in the country

Native or non-native species

Please confirm whether the species is native or non-native to your country $\ensuremath{\square}$ Native

Species Status - Field for additional information (optional)

Optionally you can provide additional information on the status of the species in the country > vagrant

AEWA Species - Larus armenicus / Armenian Gull

English Common name(s):

Armenian Gull

French Common name(s):

Goéland d'Arménie

Confirmation of species occurrence

Please confirm the occurrence of the species in the country ☐ The species occurs in the country

Native or non-native species

Please confirm whether the species is native or non-native to your country

☑ Native for at least part of its annual cycle, but introduced populations or populations of feral or domesticated origin also occur

AEWA Table 1 Categorisation

Please indicate the AEWA Table 1 category(ies) applicable to the population(s) of this species occurring in the country.

☑ Column A - Category 3(a)

Species Status - Passage

Please provide a qualitative estimate for the passage numbers ☑ Frequent, but small numbers

AEWA Species - Larus cachinnans / Yellow-legged Gull

English Common name(s):

Caspian Gull, Yellow-legged Gull

French Common name(s):

Goéland leucophée

Confirmation of species occurrence

Please confirm the occurrence of the species in the country
☐ The species occurs in the country

Native or non-native species

Please confirm whether the species is native or non-native to your country $\ \square$ Native

AEWA Table 1 Categorisation

Please indicate the AEWA Table 1 category(ies) applicable to the population(s) of this species occurring in the country.

☑ Column C - Category 1

Species Status - Passage

Does the species occur in the country during the passage period?

Are quantitative estimates for the passage numbers available? $\ \square$ No

Pressures and Responses

4. Species Conservation

4.1 Legal Measures

1. Were any exemptions granted to the prohibitions laid down in paragraphs 2.1.1 and 2.1.2 of the AEWA Action Plan? (AEWA Action Plan, paragraph 2.1.3)

√ No

Optionally you can provide additional information on section 4.1. Legal Measures

> Generally, by a DecisionS of Minister of Agriculture and Agrarian Reform all birds hunting activities were banned from 1994 until Oct.2011. the hunting Law issued in 1970 is under the updating process, this process Lead by the Higher Council of Hunting.

4.2 Single Species Action Plans

2. Please report on the progress of turning the International Single Species Action Plans (ISSAP), for species whose populations are listed on Column A of Table 1, developed under or recognised by AEWA, into National Single Species Action Plans (NSSAP). (AEWA Action Plan, paragraph 2.2)

Please clarify the relevance of the AEWA International Single Species Action Plans or the other recognised plans (Dalmatian Pelican, Pygmy Cormorant, Red-breasted Goose, Marbled Teal, Slender-billed Curlew and Audouin's Gull) to your country

☑ At least one of the International Single Species Action Plans is relevant

Please report on each relevant ISSAP

National Single Species Action Plan for Platalea leucorodia / Eurasian Spoonbill

For Platalea leucorodia / Eurasian Spoonbill
☑ No NSSAP

National Single Species Action Plan for Oxyura leucocephala / White-headed Duck

For Oxyura leucocephala / White-headed Duck
☑ No NSSAP

National Single Species Action Plan for Anser erythropus / Lesser White-fronted Goose

For Anser erythropus / Lesser White-fronted Goose

✓ No NSSAP

National Single Species Action Plan for Vanellus gregarius / Sociable Lapwing

For Vanellus gregarius / Sociable Lapwing
☐ NSSAP in development

National Single Species Action Plan for Pelecanus crispus / Dalmatian Pelican

For Pelecanus crispus / Dalmatian Pelican ☑ No NSSAP

National Single Species Action Plan for Marmaronetta angustirostris / Marbled Teal

3. Do you have in place or are you developing a National Single Species Action Plan for any species/population for which an AEWA ISSAP has not been developed? (AEWA Action Plan, paragraph 2.2.2)

✓ No

4. Did you use the AEWA Guidelines for the preparation of National Single Species Action Plans for migratory waterbirds?

✓ No

4.3 Emergency Measures

5. Please report on any emergency situation that has occurred in your country over the past triennium and has threatened waterbirds. (AEWA Action Plan, paragraph 2.3)

Please indicate whether an emergency situation threatening waterbirds, such as botulism, chemical pollution, earthquacke, extreme weather, fire, harmful algal bloom, infectious disease, introduction of alien species, lead poisoning, nuclear accident, oil spill, predation, volcanic activity, war or other emergency (please specify), has occured in the country over the past triennium

 $\ensuremath{\square}$ Emergency situation has occurred

Please provide information on each emergency situation which occured

Chemical pollution

Indicate when the emergency situation took place > 07/2011

Indicate where the emergency situation took place (including geographical coordinates)

> Al-Jabboul Lake

Indicate the estimated magnitude of impact (e.g. number of individuals per species/population that suffered/died, area of habitat(s)/site that was affected, etc.)

> restricted impact was noticed on some species juvenile due to feeding on polluted materials and feeding on dead fish.

Please provide details

> alerted by locals, volunteers and staff from SSCW carried out rapid and initial assessment to the situation and reported the damage that was caused upon the habitat and its biological components of various taxa. Therefore, authorities worked to impose sanctions and terms of penalties and close monitoring on factories that disposed pollutants to enforce using water treating units prior to allow them to dispose sewage into water streams which are feeding the lake.

Field for additional information (optionally you can provide additional information on the emergency case) > Reports about the situation were sent to the media which assisted in raising the alarm to the relevant authorities.

Extreme weather

Indicate when the emergency situation took place > 05/2011

Indicate where the emergency situation took place (including geographical coordinates) > Al labboul Lake

Indicate which species were affected by the emergency situation
☑ Phoenicopterus roseus / Greater Flamingo

Indicate the estimated magnitude of impact (e.g. number of individuals per species/population that suffered/died, area of habitat(s)/site that was affected, etc.)

> heavy rain during breeding season of 2011 and a heavy hail storm that damaged eggs and caused high mortality in juveniles of several species notably on Flamingo (estimated to be in hundreds of juveniles).

Have emergency measures been implemented?
☑ Yes

Please provide details

> volunteers from locals were asked to assisst in monitoring the area in cooperation with enforcing authorities to prevent disturbance of the population to compensate the loss due to mortality.

6. Are there any other emergency measures, which were not mentioned above, but were developed and are in place in your country?

✓ No

7. Did you use the AEWA Guidelines on identifying and tackling emergency situations for migratory waterbirds?

✓ Yes

Please provide details

- > Remove the pollutions.
- Raise public awareness through media.
- SSCW implemented the principle of site care-taking among locals, and encouraged to have good relations with local and neighbouring volunteers to report any breach directly or through the society to the authorities

4.4 Re-establishments

8. Is there a regulatory framework for re-establishments of species, including waterbirds, in your country (AEWA Action Plan, paragraph 2.4)?

Yes

Please provide details

> As a general, one of the main goals and aims of the National Strategy and Action Plan on Biodiversity is the re-habilitation of endangered species. this was clearly shown in the work of re-establishment of Northern Bald Ibis population with the help from local and national authorities,

NGO work and involvement, International funding activities, International expertise, ...etc.

9. Are you maintaining a national register of re-establishment projects occuring or planned to occur wholly or partly within your country? (Resolution 4.4)

Yes

Please provide details on the register

> Few individuals of Nothern Bald Ibis were re-introduced from Turkey and kept in captivity to encourage the breeding of the birds which were introduced from Turkey with the wild birds of this species and to release the fledging birds into the wild.

10. Has your country considered, developed or implemented re-establishment projects for any species listed on AEWA Table 1? (AEWA Action Plan, paragraph 2.4)

Please provide information on each species for which relevant action has been undertaken

Projects for Geronticus eremita / Northern Bald Ibis

For Geronticus eremita / Northern Bald Ibis

☑ Re-establishment plan developed and being implemented

Please provide information on the time frame and the objectives of the project. Please provide a web link or attach a file, if available. Please provide contact details of any person or organisation coordinating its implementation. Please list any activities and/or achievements over the past triennium.

> few individuals of Nothern Bald Ibis were re-introduced from Turkey and kept in captivity to encourage the breedng of this species and to release the fledging birds into the wild.

4.5 Introductions

11. Does your country have legislation in place, which prohibits the introduction of non-native species of animals and plants, which may have a detrimental effect? (AEWA Action Plan, paragraph 2.5.1)

☑ Yes, and being enforced

Please provide the following details: title of legislation, year of adoption, institution that adopted it, institution that enforces it

> Law of Conservation of Planet Genetic Resources No. 20, Adopted in 12/07/2009, It was adopted by Syrian parliament, It enforced by Ministry of Agriculture and Agrarian Reform, Ministry of State for Environment Affairs.

12. Has your country introduced requirements to zoos, private collections, etc. in order to avoid the accidental escape of captive birds belonging to non-native species? (AEWA Action Plan, paragraph 2.5.2)

✓ No

Please explain the reasons

> In process

13. Does your country have in place a National Action Plan for Invasive Species (NAPIS) (in the framework of other MEAs, such as CBD, Bern Convention, and GISP (Global Invasive Species Programme) (Strategic Plan 2009-2017, Objective 1, Target 5)?

☑ Being developed

Please provide starting date and expected finalisation date of the process

> Syria prepared the NSAP of Biodiversity Conservation which indicated to small action plan for species and management it, It now under revision for updating with NSAP 2011-2020

14. Has an eradication programme been considered, developed or implemented for any nonnative waterbird species in your country?

✓ No

Please explain the reasons
> lack of legislations and financial abilities

15. Did you use the AEWA Guidelines on avoidance of introductions of non-native waterbird species?

☑ No

Please explain the reasons. What was used instead as a basis for dealing with the issue? > lack of legislations and financial abilities

Pressures and Responses 5. Habitat Conservation

5.1 Habitat Inventories

16. Has your country identified the network of all sites of international and national importance for the migratory waterbird species/populations listed on Table 1? (AEWA Action Plan, paragraph 3.1.2)

☑ Partially

Please describe the progress

> Based on the work of Evans (1994), and the publication on the IBAs in the Middle East, 22 sites identified as IBAs in Syria, some of these sites were identified and proposed as a Protected Areas for conservation measures. the identification of the IBAs in Syria needs updating, this process(updating) is planned in the 2012-2013 Ministry's Plan. and will classify the level of the importance of all sites (national / regional / & international).

Field for additional information (optional)

> Some of the identified sites as IBAs were a location or stations for some species of Migratory WaterBirds As AlJaboul lake, Euphrate Basin.

17. If your country has identified or is currently identifying the networks of sites of international and national importance, have you used the AEWA Guidelines on the preparation of site inventories for migratory waterbirds?

√ Yes

Please provide details

> See the answer of question 16, Sure the updating of the networks of sites will be using the AEWA Guidlines

5.2. Conservation of Areas

18. Which sites that were identified as important, either internationally or nationally, for Table 1 migratory waterbird species/populations have been designated as protected areas under the national legislation and have management plans that are being implemented? (AEWA Action Plan, paragraph 3.2.1)

Please report on both internationally and nationally important sites

- $\ensuremath{\square}$ Reporting on designation and management of internationally important sites
- ☑ Reporting on designation and management of nationally important sites

All sites of international importance

Total number

> 1

Total area (ha)

> 26200

Out of the above total: number of protected sites

> 1

Out of the above total: protected area (ha)

> 10000

All sites of national importance

Total number

> 7

Out of the above total: number protected sites

> 3

19. Has your country used the AEWA Guidelines on the management of key sites for migratory waterbirds?

Yes

Please provide details

> Generally, During the past triennium the implementaion of all National Activities took into consideration the conservation of Birds and depend on the AEWA Guidlines.

20. Have you accessed and used the Critical Site Network (CSN) Tool for the AEWA area? $\hfill \square$ $\hfill \hfill \hfill$ \hfill

Optionally you can provide additional information on section 5.2. Conservation of Areas > From the 7 sites we mentioned above as a national importance, we expect that 4 sites have international importance, we planned to make a national survey for all wetland sites in Syria to nominated some of them to be RAMSAR sites specially were the international importance is applicable.

Pressures and Responses 6. Management of Human Activities

6.1. Hunting

21. Does your country have an established system for the collection of harvest data, which covers the species listed in Table 1? (AEWA Action Plan, paragraph 4.1.3)

√ No

Please explain the reasons

> Not yet, but this matter was planned to be part of the General Biodiversity Data Base which implementiong as one of the Biodiversity Conservation and P.As management Project implementing by the Ministry of State for Environment affairs.

22. Has your country phased out the use of lead shot for hunting in wetlands? (AEWA Action Plan, paragraph 4.1.4)

☑ No

Please explain the reasons

> Due to the lack of legislation for this issue.

Have you introduced self-imposed and published timetable for banning the use of lead shot for hunting in wetlands?

✓ No

Please explain the reasons

> Lack of national legislation, The new hunting law, which expected to be issued during 2012 will take into consideration the banning of the use of lead shot

23. Are there measures in your country to reduce/eliminate illegal taking? (AEWA Action Plan, paragraph 4.1.6)

✓ No

Please explain the reasons

> See the above

Please explain the reasons. What other guidance has been used instead?

> The new hunting law, which expected to be issued during 2012 will take into consideration the AEWA Guidlines

6.2. Other human activities

25. Does your country have legislation in place, which provides for Strategic Environmental Assessment/Environmental Impact Assessment (SEA/EIA) of activities potentially negatively affecting natural habitats or wildlife? (AEWA Action Plan, paragraph 4.3.1)

☑ Yes and being implemented

Please provide details

> Syria started to implement (EIA) System on All industerial, tourism, agricultural and infrastructural projects etc....) specially if it will be in or around the water surfaces including the wetland sites.

Do the SEA/EIA processes include public participation?

Please provide details

> Since 2008 Syria started the public participation in the SEA/EIA processes, Due to the Excutive procedures for the EIA which refers that the public participation is necessary in two phases: 1- Scoping 2- EIS (Environment Impact Statement).

26. In the last three years, has your country used SEA/EIA for all relevant projects to assess the impact of proposed projects on migratory waterbird species listed on table 1 and/or habitats/sites on which they depend? (AEWA Action Plan, paragraph 4.3.1)

☑ Yes, all proposed projects

Please provide information on the outstanding cases

> For example: AlJaboul lake, the using of SEA/EIA implemented on the exist and proposal projects, The Ministry implement a survery for all projects around this lake to assess the situation of the exist human activities.

27. Is by-catch of waterbirds in fishing gear taking place in your country? (Resolution 3.8) ☑ No Information

When and how do you intend to fill this information gap?

> In spite of, there are no registed information about the by-catch of waterbirds. and we think that it is rarely happened in the fishing gear in the national water surfaces, we can fill this information gap in cooperation with the fishermen through the General Authority for Fisheries.

28. Has your country undertaken steps towards the adoption/application of measures to reduce the incidental catch of seabirds and combat Illegal Unregulated and Unreported (IUU) fishing practices in the Agreement area? (Resolution 3.8)

☑ Not applicable

Please explain

> In the coastal zone, there is no by-catch seabirds cases are registed.

Pressures and Responses

7. Research and Monitoring

29. Does your country have waterbird monitoring schemes for the AEWA species in place? (Strategic Plan 2009-2017, Objective 3, Target 2)

√ Yes

Covering the breeding period

☑ Partially

Please provide details

> In some important sites such as Sabkhat Al- Jabboul there is a team of local community (trained as a ecoguide and monitoring) work to monitor the waterbirds mentioned in AEWA tables, the team work in cooperation with the Syrian Society for conservation of Wildlife and in coordination with the Governmental authorities to mitigate the negative impacts of human activities on these birds, especially in the breeding season.

Covering the passage/migration period

☑ Partially

Please provide details

> In some important sites such as Sabkhat Al- Jabboul there is a team of local community (trained as a ecoguide and monitoring) work to monitor the waterbirds mentioned in AEWA tables, the team work in cooperation with the Syrian Society for conservation of Wildlife and in coordination with the Governmental authorities to mitigate the negative impacts of human activities on these birds.

Covering the non-breeding/wintering period

☑ Partially

Please provide details

> In some important sites such as Sabkhat Al- Jabboul there is a team of local community (trained as a ecoguide and monitoring) work to monitor the waterbirds mentioned in AEWA tables, the team work in cooperation with the Syrian Society for conservation of Wildlife and in coordination with the Governmental authorities to mitigate the negative impacts of human activities on these birds.

30. Have you used the AEWA Guidelines for a waterbird monitoring protocol? ☑ Yes

Please provide details

> We already formed trained teams of local communities in some important sites and trained them depending on the AEWA Guidlines for the Monitoring of the waterbirds.

31. List (or provide links to lists) of research related to waterbirds and their conservation that has been undertaken or results published in the past triennium (Strategic Plan 2009-2017, Objective 3. Target 5)

- > 1- Three surveys on the monitoring of Sociable Labwing achieved during its passing season in Syria (Spring and Autumn) during the last three years, these missions were in cooperation between the Ministry of State for Environment Affairs, the Syrian Society for the Conservation of Wildlife (SSCW), AEWA,Bird Life and RSPB in order to work to protect it through the immigration season.
- 2- In Al Jaboul P.A, Waterbirds have been inventoried over the full year June 2009- June 2010, this survery implemented by a specialized team within a regional project on the protection of biodiversity through ecotourism, and the project was carried out by the (SSCW) and funded by the Swiss Agency for Development.
- 3- In 2008, Syrian Society for Conservation of Wildlife, Issued the Field Guide to the Birds of Syria , which include the waterbirds (resident and passing and migratory species.
- 4- There are a number of surveys and researches implemented by some international experts and specialists during the last 6 years.

32. Has your government provided over the past triennium funds and/or logistical support for the International Waterbird Census at international or national level? (Strategic Plan 2009-2017, Objective 3, Target 1)

✓ No

Please explain the reasons > A lack of financial Budget

Pressures and Responses 8. Education and Information

8.1. AEWA Communication Strategy

33. Has your country developed and implemented programmes for raising awareness and understanding on waterbird conservation and about AEWA? (Strategic Plan 2009-2017, Objective 3, Target 3 and AEWA Action Plan, paragraphs 6.1-6.4)

☑ Other

Please explain

- > Like these programmes was partially implemented for local communities in some important sites like Al Jaboul lake, Rakka Governorate. some of these activities were an objective of some projects as "Improving the Conservation Status of Globally Threatened Birds at Jabboul Ramsar Wetland through Promoting and Implementing Sustainable Hunting Practices project" and other projects implemented in Al Jabboul Site is the preparation of the training and development programmes and achievment of the activities aim to increase the awareness and capacity building of staffs and local communities.

 An examples:
- A photo exhibition depicting the story of the Northern Bald Ibis Geronticus eremita was opened on 8 February 2006 in the Old Town of Damascus, aimed at promoting conservation of this Critically Endangered bird and creating a sense of ownership of the project to the Syrian authorities. Under the patronage of the First Lady,
- 2- A second photo exhibition about the History and present situation of Bald Ibis organized on 2007, in coordination with Danish and Italian Embassies in Damascus in Danish House, Old Damascus.
- 3- A good number of posters and brouchours distributed on the waterbirds.
- 34. Has your country provided funding and other support, as appropriate (e.g. expertise, network, skills and resources), secured for the implementation of the AEWA Communication Strategy? (Strategic Plan 2009-2017, Objective 3, Target 1 and Resolution 3.10)
 ☑ №

Please explain the reasons

> A lack of budget

35. In Resolution 3.10 the Meeting of the Parties encouraged Contracting Parties to host AEWA Exchange Centres for their respective regions. Has your country considered/shown interest in hosting a Regional AEWA Exchange Centre? (Strategic Plan 2009-2017, Objective 3, Target 2 and Resolution 3.10)

☑ Not considered yet

Please provide details on the answer given above

> This matter wasn't discussed with the decision makers,

Pressures and Responses 9. Implementation

37. Has your country approached non-contracting parties to encourage them to ratify the Agreement? (Resolution 3.10)

Please list all non-contracting parties, which were approached, and describe each case, including achieved progress

- > In 2009, Syria contacted the non-contracting parties in the west of Asia (Gulf countries) and encouraged them to join the AEWA Agreement.
- 38. Has your country supported/developed international co-operation projects for the implementation of the Agreement, according to the priorities outlined in the AEWA International Implementation Tasks (IIT) for the current triennium? (Resolution 3.11) \square No

Please explain the reasons

> A lack of budget.

39. Has your country resourced the AEWA Small Grants Fund over the past triennium? (Strategic Plan 2009-2017, Objective 5, Target 5)

✓ No

Please explain the reasons

> it wasn't request before.

40. Does your country have in place a national coordination mechanism for implementation of AEWA, possibly linking to national coordination mechanisms for other biodiversity Multilateral Environmental Agreements (MEAs)? (Strategic Plan 2009-2017, Objective 5, Target 8)

☑ Yes, it is operational on a regular basis

Please provide details

- > As planned, The AEWA National Focal Point coordinates with other Focal points of other biodiversity Multilateral Environmental Conventions and Agreements.
- 41. How would you suggest promoting further links between the biodiversity MEAs to which your country is a Contracting Party, so as to make your work more efficient and effective?

> Full coordination between the focal points of these agreements and work to support activities related to the implementation AEWA.

11. Confirmation

Confirmation of information verification and approval for submission

Please confirm:

In addition a scanned copy of an official letter from the relevant state institution, approving the report for submission, can be attached.

☑ I declare that the information provided in the Report on the implementation of AEWA for the period 2009-2011 has been verified and the report has been approved for submission by the appropriate state institution in the country.

Date of submission

> 22 February 2012
